

MONASH NURSING AND MIDWIFERY RESEARCH DEGREES

LEAD CHANGE WITH MONASH NURSING AND MIDWIFERY

Graduate research at Monash Nursing and Midwifery helps you develop the expertise and skills to make an impact in clinical care, research, teaching, health care policy, and in the community.

Doctoral graduates at Monash Nursing and Midwifery develop transferrable skills through a professional development program that ensures you are ready for a career in senior leadership across nursing and midwifery clinical practice environments, and in academia.

Monash Medicine, Nursing and Health Sciences is renowned for the quality and impact of its research. By undertaking your graduate studies at Monash University, you have the opportunity to be a part of this proud tradition of research excellence. Monash is committed to providing the highest quality of graduate research education in a stimulating, supportive and professional environment.

Whether you want to get ahead in your career faster, or improve your knowledge, a Monash research degree can give you a distinct advantage.

Ranked as one of the leading nursing schools in Australia, Monash Nursing and Midwifery has strengths in research related to clinical practice, education, health services and workforce issues.

Your program of research will prepare you as a leader of evidence-based practice. Our academics are health professionals with strong partnerships with health services in Australia and internationally. They will supervise and mentor you in a collaborative manner, plus you will be co-located with your primary supervisor to further promote a rich and supportive research environment.

COURSES AVAILABLE

Master of Philosophy

Doctor of Philosophy

Once successfully completed you will be able to demonstrate a thorough understanding of relevant research techniques and how to apply these to your chosen field of study. You will be able to present high-quality written work suitable for publication in appropriate scholarly journals, and be able to critically evaluate both your own and others written work.

Dr Robin Digby - Inaugural Maxwell King Scholarship recipient.

MONASH NURSING AND MIDWIFERY'S RESEARCH

Our focus is on educational and health services research that addresses healthcare across the lifespan. Our collaborative connections with multiple health services allow for early implementation of healthcare innovations and help to ensure evidence-based practice.

Our areas of research excellence cover:

Innovations in health care and workforce

Prevention and management of acute and chronic conditions

Ageing and end of life care

Translation to practice

Prevention of health care associated infections.

Our education and research sees us rank highly as one of Australia's leading nursing schools. Ranked 15th globally for nursing in the 2021 QS World University Rankings, with a current ERA ranking of 4 (above world standard) and a 2020 rank of 19 globally for nursing in the Academic Ranking of World Universities (ARWU).

WE ARE LEADING CHANGE AND INVITE YOU TO JOIN US.
