Pharmacy and Pharmaceutical Sciences

Presentation of academic prizes 2012

Wednesday 2 May, 7.30 pm

Program

Welcome

Pedram Rajabifard, President, Monash Parkville Student Association and
Blake Riley, President, Pharmaceutical Science Society

Opening address

Professor Bill Charman
Dean, Faculty of Pharmacy and Pharmaceutical Sciences

Presentation of awards

Acknowledgement of unit winners and scholarship recipients

Occasional address

Cathy Reid, Managing Partner Aged Care and Packaging, APHS

Occasional address Cathie Reid

Cathie Reid is Managing Partner, Aged Care and Packaging for APHS, a national supplier of pharmaceutical and clinical services for hospitals, cancer centres and aged care sectors.

In her role she is responsible for the delivery of pharmacy services to residential aged care customers and for overseeing APHS' packaging manufacturing business which produces dose administration aids for community pharmacies.

Cathie describes dose administration aids as a cornerstone of support for our aging population and is motivated by the positive impact her business has in the community.

In 2011 she won the National Business Owner Award category at the Telstra Business Women's Awards and considers this a great honour. However, the achievement Cathie is most proud of is turning the intellectual property APHS had developed in its pharmacies into a licensed manufacturing business.

Unit winners

Each year the faculty recognises its students who achieve the highest overall unit mark.

Bachelor of Pharmacy	
First year	Unit/s
Anne Bradman	Drug delivery I
Yen Mei Chuah	Pharmacy, health and society II / Organic chemistry / Introduction to physiology
Ngoc Hoan Dang	Introduction to physiology
Shiau Shuang Gan	Introduction to physiology / Pharmacy, health and society I / Systems physiology / Chemistry of biomolecules
Wee Min Khoo	Introduction to physiology
Soon Seng Lim	Physicochemical basis of pharmacy
Second year	Unit/s
Sarah Yin Ching Chong	Pharmacy in a public health context
Wei Wei Chua	Pharmacy in a public health context
Wei Han Fong	Drug delivery and disposition
Jankin Zhi Cheng Ho	Basis of drug action I
Vanessa Inserra	Pharmacists as communicators
Hou Yuen Kam	Drug delivery and disposition
Sneha Kommidi	Cell function, communications and pathology / Integrated therapeutics: intro to cardiovascular
Melanie Pentti	Cell function, communications and pathology
Vivian Shen	Drug delivery and disposition / Basis of drug action II
Wei Wu	Drug delivery and disposition
Li San Yeoh	Drug delivery and disposition / Biochemistry and molecular biology / Basis of drug action I / Cell function, communications and pathology
Third year	Unit/s
James Holland	Drug delivery, disposition and dynamics / Drug delivery II / Integrated therapeutics: infectious disease
Suat Yong Kee	Drug delivery, disposition and dynamics
Jian Hui Lew	Integrated therapeutics: infectious disease
Amy Scott	Microbiology and immunology / Context for practice I / Integrated therapeutics: respiratory and gastrointestinal disease / Context for practice II
Yen Thong Wong	Drug delivery II
Fourth year	Unit/s
Huda Abdullahi	Integrated therapeutics: dermatology and pain
Samantha Lalic	Integrated therapeutics: advanced practice
Ming Sum Sophie Mak	Integrated therapeutics: dermatology and pain
Yijun Pan	Drug delivery and development / Integrated therapeutics: dermatology and pain / Integrated therapeutics: advanced practice

Bachelor of Pharmacy (continued)

Fourth year	Unit/s
Olivia Pellicano	Integrated therapeutics: psychiatry / Integrated therapeutics: neurology and oncology
Rohit Srivatsa	Context for practice III / Integrated therapeutics: psychiatry
Anna Troung	Integrated therapeutics: neurology and oncology
Matthew Van Wees	Integrated therapeutics: endocrinology and renal

Bachelor of Pharmaceutical Science

First year	Unit/s
Gracia	Organic chemistry I / Physical chemistry I / Mathematics for pharmaceutical science / Physiology II
Kenneth Lee	Physiology I / Physical chemistry II
Stephanie Newman	Introduction to pharmaceutical sciences
Alastair Pearl	Physiology II
Rui Teng Wun	Organic chemistry II
Second year	Unit/s
Anita Chan	Colloid chemistry
Mabel Chi-Yin Chien	Product development I
Tamir Yaakov Dingjan	Computational chemistry / Synthetic chemistry II
Meiko Hiramatsu	Formulation chemistry II
Siobhan Kelly	Formulation chemistry II
Pooja Lallbeeharry	Pharmaceutical biochemistry / Analytical methods / Formulation chemistry I / Biopharmaceutics / Pharmacology / Molecular cell biology / Product development I
Jackson Phillips	Synthetic chemistry II / Introduction to spectroscopy
Sue Yean Tan	Analytical methods
Andrew Tang	Synthetic chemistry I
Inneke Tanoko	Analytical methods
Third year	Unit/s
Lisa Barbaro	Biopharmaceutics / Spectroscopy
Yi-Wen Lao	Molecular basic of drug action / Product development II / Applied analytical methods
Yi Lee Loke	Formulation chemistry III
Celia Pulling	Advanced formulation and nanotechnology
Xiang Ren	Synthetic medicinal chemistry / Drug discovery and development / Chemical technologies for the pharmaceutical sciences / Research project
