Welcome to the Monash School of Medicine

From the Deputy Dean Medicine,
Professor Michelle Leech (MBBS Hons, FRACP, PhD)

Congratulations on entering the Monash School of Medicine and commencing your path on the journey to becoming a doctor. As a graduate of Monash Medicine, myself, I am proud to be associated with the Monash course and to continue to work with highly competent, skilled and compassionate Monash University medical graduates. The journey will be fulfilling but often very challenging.

The practise of Medicine asks us to be clever scientists and diagnosticians but with big hearts. It asks to give our full attention to our patients and to be of service to them. You are all highly intelligent and capable people.

As I have told successive generations of medical students - In the practice of medicine, the person you are, is as important - and sometimes more important, than what you know.

The first challenge for you is to become a year 1 medical student.

In the MedStart Program you will **begin** the transition process by participating in a range of activities that are designed to assist you to:

- think about yourself as a potential doctor;
- learn about the structure and content of your Medicine course;
- understand the concept of professionalism and become familiar with the inherent requirements for medical students, the expected code of behaviour and the values for Monash Medical students
- learn team building and study skills;
- identify strategies to maintain your health and wellbeing;
- become familiar with Medicine teaching, learning and assessment strategies;
- Develop social networks to enhance your learning environment.

I wish all of you the very best success in your medical studies.

A handwritten signature in black ink, appearing to read 'M Leech', written in a cursive, flowing style.

Professor Michelle Leech

Deputy Dean Medicine, Faculty of Medicine, Nursing and Health Sciences

COVID Safe Settings

- Ensure that you read the current COVID advice on our [website](#).
- Monash's nine-pillar [COVID Safe Plan](#) details the strategies in place to protect our staff, students and visitors as we return to campus.
- It is the combination of these strategies, and their application to the diverse range of spaces and activities the University undertakes, that ensures our health, safety and wellbeing. For more information, please refer to ['Health advice and safety measures'](#).

Safety on Campus

Take a few minutes to review the information here about staying safe while on campus:

<https://www.monash.edu/students/support/safety-and-security>

Your safety and security is of paramount importance to us. Our campuses are fitted out with the latest CCTV, electronic building access, and alarm technology. And our security teams work around the clock to protect our staff, students and visitors. But chances are, you'll feel so safe you won't even notice them in the first place.

If you are on campus late at night, a campus security escort service is available on request phone 9902 7777.

If you ever feel unsafe at Monash

For yourself, or for someone else, you can always call the Monash emergency number 333. We have a general security number too, where you can report anything suspicious, or just ask for some security advice. On any campus, call 9902 7777 or just dial 27777 from a Monash phone.

Emergencies on Campus

For any emergency on campus call 333 from any internal phone or 9905

3333. Security 9905 3059

Personal Injury - Minor

Contact the First Aid Officer within the building for assistance (go to the reception desk on the ground floor of 27 Rnf)

Personal Injury - Major

1. Care for patient - call for help.
2. Dial 000
3. Call Security on 333 from an internal phone or 9905 3333.

Provide the following information:

- Name
 - Location (campus, building number, level, room number)
 - Nature and type of injury
 - State of consciousness of the injured person(s)
 - Age and gender of the injured person(s).
 - Any other relevant information - breathing/not breathing, chest pains, bleeding.
4. Ensure area is clear for emergency personnel.
 5. Inform the Safety Officer of the Faculty (medstudentservices@monash.edu / 9905 2048)

Emergency Evacuation

1. On hearing the **ALERT** signal (an intermittent 'beep') prepare to leave the building.
2. On hearing the **EVACUATE** signal (a 'whooping' tone) leave the building by the nearest and safest exit.
3. Do not return to collect belongings.
4. Assist any person with a disability to leave the building.
5. Walk quickly and calmly to the designated assembly area until instructed to leave by an emergency warden or fire brigade personnel.
6. Do not enter a building in alarm.

Lost Property

Any items handed in will be kept at reception of 27 Rainforest Walk for two weeks. After that time, they will be sent to the central lost property in Monash Connect (Campus Centre).

Respect, Now, Always

Monash University has a zero-tolerance policy to sexual harassment, bullying (online or in person) and assault. The Safer Community Unit is here to support you and ensure your safety and protection. If you're feeling threatened or unsafe, please contact them on 9905 51599 or email safercommunity@monash.edu
In an emergency phone 333 for security from any Monash phone or 000 for police.

Enrolment Tasks

By now you should have completed the following enrolment tasks:

1. Created your account
2. Registered your details
3. Enrolled in Units
4. Ordered your ID Card

If you have any questions/queries contact Monash Connect on 9902 6011 or go to the service centre on campus (21 Chancellors Walk)

Additional Course Requirements

1. Immunisations

- Download the immunisation form from our website:
www.monash.edu/medicine/study/student-services/mandatory-compliance
- Take the form and your childhood vaccination records to your Doctor (or University Health Service) to have any necessary vaccinations
- **Make sure the Doctor stamps and signs the form!**
- Upload the completed form to [InPlace](#) from the Teaching & Learning Tile on your my.monash portal
- NOTE: set a reminder that you will require a yearly influenza vaccination in April.
- * Some courses of vaccination may take up to 6 months.

2. Victorian Police Check

You will receive an email from Fit2Work to your student email account. Click on the secure link in the body of the email and follow the instructions. The outcome of your Fit2Work application will be emailed to your Monash student email account. Upload the file to Inplace

Support

Please contact Fit2Work on: 1300 575 575 for further information regarding your check or email support@fit2work.com.au for assistance.

*** If you already have a police check for another organisation you do need to apply for another one following the above instructions.**

International students must also complete an international police check from their home country in addition to the Victorian Police Check. This can be completed either before you leave home to come to Monash or after your arrival in Australia. Upload both checks to InPlace.

3. Fee Information for International Medical Students

The Bachelor of Medical Science and Doctor of Medicine (M6011/M6018) is not divided into semesters, it is a full year program. You will be enrolled in units that run from February to October.

The census date (the last date you can withdraw from a subject without being financially liable) is **30th April** - [see refund policy](#). Note that if you discontinue the course, or take an intermission after this date, you will not be eligible for a refund of fees. **Partial refunds will not be available.**

4. Payment Plans for International Students

A payment plan is available for international and domestic full-fee paying students enrolled in the MD (M6011/M6018). This will allow you to pay your tuition fees in instalments. To apply, log into the [Web Enrolment System \(WES\)](#) and select 'Fee payment plan request'.

You must apply prior to the payment due date on your fees statement each year. Information on applying for a fee payment plan is available on the [Fees webpage](#).

NOTE: The census date (the last date you can withdraw from a subject without being financially liable) is **30th April** - [see refund policy](#) **Partial refunds will not be available.**

5. Working with Children Card

Students need to apply online as a volunteer at the following site:
workingwithchildren.vic.gov.au/individuals/applicants/how-to-apply

When completing the online application, on page 4 - Occupational Work codes, select **52 Educational - other institutions providing children's study or training programs**.

It will take a few weeks for you to receive your working with children card in the mail. Once received, take a photo of it and upload the photo to InPlace.

***If you are under the age of 18 you will be unable to apply for a WWC.** Make a note in your calendar the day after your 18th birthday to apply and follow the above instructions.

***If you already have a WWC for another organisation, edit your details on the Department of Justice website to include Monash University as one of the organisations you do child related work for. You don't need to apply for a second card.**

6. Uploading documents to InPlace

Access InPlace through your my.monash portal by clicking on the Teaching & learning tile on your my.monash home page. Then click on InPlace student placements.

**Documents to be uploaded by
30 September**

For support using the online system, contact Monash Connect online or by phone:

<https://www.monash.edu/students/support/connect/contact-us>

Orientation Week 19 – 23 February

1	Create an event schedule using the Orientation Planner	https://www.monash.edu/get-started/orientation/orientation-week
2	Attend MEDStart Transition Program	Thursday 22 & Friday 23 Feb (in person on campus)
3	View your timetable in Allocate+	www.monash.edu/timetables/allocate/login
4	Organise your parking permit or public transport discount	https://www.monash.edu/about/our-locations/transport-parking/parking
5	Log on to Moodle and complete the 'Compulsory Module'	https://lms.monash.edu/my/
6	Join MUMUS, your student group	mumus.org/

Adjusting to University Life

What to expect at university

The main difference between school and university is that you are treated as an adult. That means that you now have greater control over how you spend your time and what you study. It also means that your education is your responsibility.

Differences between school and university

	SECONDARY SCHOOL STUDY	TERTIARY STUDY
ATTENDANCE	Attendance is compulsory and if you are absent you need a note from your parent or guardian. During school hours, students are expected to stay on school grounds.	Attendance is compulsory for small group tutorials and practical's. It is expected that you attend 100% of the time and 80% is the minimum to pass. Attendance is not taken at lectures, however we know that attendance at lectures is a strong predictor of success. You can listen to lectures online.
CLASS SIZES	Class sizes are limited to approximately 25 students per class so there is time for the teacher to spend answering individual questions.	Lecturers can be quite large. You may need to email questions to your lecturer to ask questions. Small group tutorials (and ICLs) have around 16 students. Often Tutors are not on campus full time, so you will need to email them if you have questions or are unable to attend class.
TYPES OF ASSIGNMENTS	The assignment types in secondary school are designed for straightforward assessment.	Types of assessments vary and are designed to encourage critical thinking and independent learning. All of the work is done outside of class.
REFERENCING	In essays, you refer to set texts, but need not acknowledge all the sources of your ideas and information.	You must acknowledge all your sources. To avoid plagiarism, you will need to learn referencing skills (footnotes including references, bibliographies).
HOMEWORK	Teachers set and correct your homework frequently (daily, weekly).	Assignments are longer but less frequent. They may be set many weeks ahead.
TEXT BOOKS	Teachers guide your reading. Set texts are prescribed for each subject. Reading only the set texts is often enough for essay preparation.	You may be given a reading list from which you select, or you may have to search for relevant material in the library. Wide reading is essential.
NOTES	Teachers may provide notes and outlines and will indicate the most important ideas and information.	You will have to identify and make notes on the main points in lectures and texts.

	SECONDARY SCHOOL STUDY	TERTIARY STUDY
CONTACT WITH PARENTS	Your parents or guardians play an important role in your school life. They are in regular contact with your teachers to help guide you in the right direction.	University staff, both administrative and teaching can't talk to your parents (or anyone else) about you or disclose your information, unless you have signed the appropriate consent form.
TEACHERS VS ACADEMICS	Teachers check your completed homework, provide you with information you may have missed and remind you of assignments and due dates. Teachers are trained in teaching methods to assist in imparting knowledge to students.	Academics are trained as experts in their particular discipline or area of research. They do not check required reading or remind you to complete assignments. You are responsible for being up to date with your work. Academics will often provide their preferred method of contact should you have any questions.
SUPPORT	There are often school counsellors who specialise in providing support to students.	<p>There is a Student Wellbeing Liaison Officer on campus at Clayton. If you are having difficulties email medstudentservices@monash.edu to arrange an appointment. Or drop in to 27 Rainforest Walk, ground floor.</p> <p>There are also free and confidential services including counselling, health service, disability, academic support and legal services available to students. Information is available on Moodle: MD Student Wellbeing Resources</p>
COMPLAINTS	You express your problem to the teacher who will report it to the principal.	If you feel that a mistake has been made, or you have been unfairly treated or discriminated against, try to resolve the issue with your year level Director. If that doesn't work, the University has a complaints resolution process called lodging a grievance. Information on how to do that is available on the University website .

What's an ICL?

Integrated Case Learning (ICL) sessions are small group tutorials that are structured around a clinical scenario.

Students are encouraged to address an integral picture of the whole patient from a patient centered perspective. Using self-directed learning strategies, students integrate knowledge from the four themes of the program to problem solve.

Code of Conduct for Medicine Students

Students are required to familiarise themselves with the [Code of Professional Conduct for Medical Students](#) at Monash University:

As a medical student you are now considered a doctor in-training by the Faculty. As such you will have privileged access to people and their health information. With this access comes responsibilities and expectations. Understanding and accepting these from the very beginning of medical training will help you establish an ethical approach to medical practice. It will help lay the foundations for a trusting doctor-patient relationship in your later student years, and in your subsequent career. Any breach of these expectations could result in serious repercussions, for you, your continuing medical education and your later career.

Although your initial involvement with patients will be small, this will increase substantially as you progress through the course, so it is important that you start implementing these professional behaviour expectations from the beginning. From this day forward you represent your medical school and the medical profession. As such your behaviour outside the clinical environment, including your personal life, may have an impact on your fitness to practice. Your behaviour should justify the trust the public places in the medical profession. Please read through this code carefully as you will be expected to be conversant with the expectations and obligations it outlines during all components of your medical training.

Medicine Required Behaviour

This document is part of the Compulsory Module you will complete on Moodle. It consists of a statement of expectations of professional conduct and mandatory requirements for medical students at Monash University. All Year 1 students are required to indicate their acceptance that they have read & understand this document.

Student Wellbeing Liaison Officers

If you find yourself struggling to settle into university life, have a health issue, feel anxious or have financial or other stressors, contact one of the Student Wellbeing Liaison Officers, to make a time for a private discussion for advice or referral to support services.

Jodie Vickers 9902 0237 jodie.vickers@monash.edu

Gina London on 9905 8030 gina.london@monash.edu

Have a look at the information on the [MD Student Wellbeing Resources](#).

International Student Support

For international students the Director International Student Welfare is available to assist you.

Dr Matthew Thong

Email: matthew.thong@monash.edu

Tel: +61 3 9905 9852

[Resources for international students](#)

Student Academic Support Unit (SASU)

The Student Academic Support Unit (SASU) provides language and academic support for students in undergraduate and graduate-entry professional courses within the Faculty of Medicine Nursing and Health Sciences. Particular emphasis is placed on clinical and professional communication and the needs of international students and students with English as an additional language.

Teaching programs focus on clinical and workplace communication skills, English language development, academic writing and approaches to study.

Dr Sheila Vance, Director,

SASU Tel: 9905 4027

Email: Sheila.Vance@monash.edu

Academic Advice

For academic advice, the Year 1 & 2 Director is Assoc Prof Barb Kemp-Harper.

Email: medstudentservices@monash.edu to make an appointment.

Important Information re Exams

The end of year examinations are scheduled during the University examination period. After completion of the first round of exams, students can either clearly pass, clearly fail or be within the borderline range. Students whose grades fall within the borderline range are required to sit a supplementary examination. The supplementary exams are held in early January the following year.

Enrolling in Units

There are no unit choices in this course. Information on each unit of enrolment is available in the [online handbook](#).

Moodle

Moodle is the learning management system of the University. Moodle provides flexible access to your unit guides, learning activities, quizzes, assignments and is where important information is posted to students. All of the information about the academic requirements of the course is located on Moodle in the unit guide for each unit of study.

Moodle is accessible from your my.monash portal. Information is available here: [Moodle Login](#), and [Moodle help](#)

Timetable

Allocate+ is the timetable system used by the University. In the Medicine course, there are no choices or elective units, the Medical School allocates you to your tutorials. You can log on and view your timetable. For example: *CL_27Rnf/206 (campus_building/room)*

A useful feature is to click on "my timetable" then "show as list" to view the weekly topics and plan ahead.

After Hours Building Access

All Medicine students have 24/7 access to the Clinical Skills Learning Village, 33 Innovation Walk (building 73P) at the Clayton campus during the semester. During the University exam period, access is not available, as we use the building to facilitate exams. This is your space and it is important that it is kept clean and tidy. Tables and chairs moved out of tutorial rooms need to be put back where you found them. No furniture is to be removed from the building. If you require tables for an event, we have 6 trestle tables available to be borrowed, to book send an email to medstudentservices@monash.edu

Free tea and coffee is available.

For any after-hours emergencies, call 333 from any of the phones in the building for campus security.

Student Resources

Assessments and Supplementary Exams

<https://www.monash.edu/medicine/som/new-students/assessments>

Attendance & Special Consideration

Attendance

The contact hours for Medicine are high. Lectures and tutorials commence at 8.30am and may go until 6.00pm (or later) on some days.

100% attendance at practical's and small group tutorials is expected. Arriving late or leaving early without prior arrangement with your tutor is considered unprofessional behaviour.

What to do if you are absent

Email your tutor to advise them that you will be absent and attach supporting documentation if applicable. Absences of 1 or 2 days do not require a medical certificate. Absences of 3 days or more, require a medical certificate.

If you have an assessment due, you may be eligible for a short extension. Further information is available on Moodle.

Isolation Leave

If you test positive for COVID-19 you should rest and speak to a GP. Most people will have mild symptoms and can get well at home. You should stay at home for at least 5 days. Do not go to campus. Stay away from hospitals, aged care facilities, and disability services.

Check the University website regularly for updates in regard to COVID safety:

<https://www.monash.edu/news/coronavirus-updates>

Religious Observance

Monash recognises the cultural and religious diversity of our students. The Faith Communities Council of Victoria publishes a Multifaith Calendar which can be used as a reference.

www.faithvictoria.org.au/calendar

In most cases, compulsory assessments will not be scheduled on days of significant religious importance, however, it is the student's responsibility to contact the Medical School for advice in regard to absences or extensions on assignments and assessment tasks.

Faculty of Medicine, Nursing and Health Sciences Staff

Student Academic Support Unit (SASU)	Dr Sheila Vance sheila.vance@monash.edu
Director, International Student Welfare	Dr Matthew Thong matthew.thong@monash.edu

Emailing Staff:

It is preferable that all student enquiries are sent to [Monash Connect](#) in the first instance. That will ensure your query is addressed promptly. It will be forwarded on to the appropriate person if required, so there is no need to email multiple addresses. Many of your tutors are Doctors, University Professors and other professionals.

The general practice when writing to your tutors and lecturers is to address them by their formal title initially until you are advised otherwise - for example: *Dear Professor Leech...*

Medicine Student Services

Contact us to make an appointment with a student advisor or academic staff member. Email: medstudentservices@monash.edu
Tel: 9905 2048
Hours: Mon-Fri 9.00 – 5.00pm
27 Rainforest Walk, Clayton Campus

AHPRA Registration

Monash Medical School registers all medical students with the Australian Health Practitioner Regulation Agency (AHPRA). Students are registered prior to the commencement of their course of study and will remain registered for the duration of study, or until they are no longer enrolled.

Clinical Placements in Rural Sites

Students undertake clinical placements in both metropolitan and rural settings in Year 3B, 4C and 5D of the Monash medical course.

North West

- Bendigo Base Hospital
- Mildura Base Hospital

South East

- Latrobe Regional Hospital (Traralgon)
- West Gippsland Health Service (Warragul)
- Central Gippsland Health Service (Sale)
- Bairnsdale Hospital
- South Gippsland Health Service (Leongatha) and their associated clinical sites which span rural areas in the north west and south east.

Placement durations vary from 18 to 36 weeks.

Students in the Extended Rural Cohort (ERC) and the End to End rural cohorts should contact the School of Rural Health in regard to placement allocations.

Applicants should note that acceptance of the offer of a place in the Monash medical course indicates acceptance of the subsequent clinical placement allocation.

First Aid Certificates

It is highly recommended that students hold or attain by the end of Semester 1, a current registered Level 2 or Senior First Aid Certificate.

The following providers are recommended:

- [Australian Red Cross](#)
- [St John Ambulance Australia](#)
- [First Aid Management and Training Centre](#)

Diploma of Languages / Diploma of Liberal Arts

After completing first year with a Credit average (60%) you can apply to study either a Diploma of Languages or a Diploma of Liberal Arts, concurrently with your Medicine degree. Information will be posted to Moodle mid-year. Refer to the University handbook for further information.
