

Resident Survey Results

Monash University Accommodation

Each year we invite residents to tell us about their experience of living on campus at Monash University. The Resident Survey runs towards the end of the calendar year and helps us understand what's working well and where the on-campus residential experience can be improved. The graph below shows the average (mean) score for each question category from 2022 to 2025. Scores are on a 7-point scale.
