

Invitation

“Early menopause” study

VOLUNTEERS NEEDED!!!

Researchers at Monash Centre for Health Research and Implementation aim to develop a website and a “Question Prompt List” for women with early menopause. A “Question Prompt List” is a list of questions that women can ask their clinician to obtain information regarding early menopause and can improve communication between women and their health providers.

You may be eligible for this study if:

- You are diagnosed with early menopause (menopause before 45 years)
- You are aged 20 years or more

This research involves attending a focus group or an individual interview at [Monash Medical Centre in Clayton](#) to share your views on a draft QPL for EM. The group will consist of approximately 4-6 women who have been diagnosed with EM. The session will take approximately 60 minutes. You will be given a \$30 gift voucher to thank-you for participating.

Interested?

Please contact Ladan Yeganeh at: MCHRI-earlymenopausestudy@monash.edu

This project is being conducted by the Monash Centre for Health Research and Implementation and Monash Medical Centre, Monash Health in Clayton.

This project has received Ethics approval from Monash Health Human Research Committee
