NEW SERVICE TO HELP WOMEN

Statewide Polycystic Ovary Syndrome Service

The PCOS Service is a unique statewide service and is the first Service of its kind nationally. The Service is staffed by a multidisciplinary team who are world leaders in PCOS and co-designed with women affected by PCOS.

This Service has been supported by funding by the state government and is affiliated with the PCOS Centre for Research Excellence. It is a public clinic offered through the Diabetes Department at Monash Medical Centre in Clayton.

The PCOS Clinic runs fortnightly on Friday afternoons at Monash Medical Centre Clayton.

What we provide

- Specialist doctors: Endocrinologists
  Gynaecologists (from 2018)
- Group education session on PCOS healthy lifestyle and diabetes prevention
- Telehealth for regional women
- Education resources
- Dietitian/health coach services
- Care plan summaries to assist GPs in longer-term care
- Laser hair removal (from Nov 2017) for patients medically assessed for suitability ($40 out of pocket per 20 minute consultation).

To make a referral

Medical practitioners wishing to refer patients to the PCOS service are asked to complete the GP Statewide Referral Form including all relevant investigation results and fax to: Fax (03) 9594 6629
