MAKE A DIFFERENCE IN THE LIVES OF OTHERS

The Bachelor of Psychology is designed for those with a passion for understanding human thoughts, feelings and behaviour, providing you with a comprehensive education in human psychology.

Are you curious about why we think, feel and act the way we do? Do you want to apply your knowledge to help people make positive change in their lives?

Through the duration of the course, you will build a strong foundational understanding of the core areas of psychology and equip yourself with the skills that will enable you to pursue diverse pathways into research, mental health and wellbeing, human resources, community services, counselling, education, and health services.

In the Bachelor of Psychology you will:

- Develop your skills in interpersonal communication, research and writing, statistics, and project management.
- Explore the complex biological, psychological and social factors that influence human thoughts, feelings and behaviour.
- Learn about evidence-based and culturally informed approaches.
- Apply scientific methodology to make you understand and critique scientific discoveries in mental health and neuroscience.

To find out more about what you’ll study, visit monash.edu/study/course/m2018

“Out of all the options, Monash’s psychology course was the obvious choice for me, due to its direct and scientifically thorough approach to creating the most up-to-date and innovative foundation to the study of psychology, that I knew would be the ideal platform for later postgraduate studies or careers in the field.”

Luis Mascaro
Bachelor of Psychology (Honours) graduate (2019)
ELECTIVES
You will also build the breadth of your knowledge by undertaking elective options that focus on related areas including neuroscience, mental health and wellbeing, indigenous and cross-cultural psychology, sleep and circadian rhythms, and digital technology and innovation.

CAREER OPPORTUNITIES
Many opportunities exist for our graduates, including:
- Counselling
- Rehabilitation
- Research
- Market research
- Psychotherapist
- Policy and administration/government
- Education
- Mental health worker.

FURTHER STUDY
After completing your Bachelor of Psychology, you can pursue further study by completing M3708 Bachelor of Psychology (Honours) to work towards registration as a psychologist or pursue work as a researcher in the growing fields of addiction and mental health, ageing and neurodegeneration, brain injury and rehabilitation, brain mapping and modelling, sleep and circadian rhythms, and neurodevelopment.

ACCREDITATION
This degree covers the core sequence of units that will be accredited by the Australian Psychology Accreditation Council (APAC) (Monash University is currently seeking APAC accreditation), and will give you a deep understanding of psychological science and its application in practice.
