

2026 GUIDELINES

VICE-CHANCELLOR'S AWARD
FOR EXCELLENCE IN
RESEARCH
COMMERCIALISATION

OFFICE OF THE DVCRE
MAY 2026

The *Vice-Chancellor's Award for Excellence in Research Commercialisation* is designed to reward exceptional achievements by research staff who excel in transforming innovative research into practical, market-ready solutions. The award celebrates those who have translated an innovation into marketable solutions, products and services that meet the challenges of the age, leading to significant societal, economic, or technological benefits. It honours commitment to advancing research commercialisation and the impactful transition of academic discoveries into real-world applications. Applicants may wish to demonstrate their contribution to Monash University's strategic plan, including but not limited to the following areas of achievements: international collaborations, external funding, awards/ prizes, interdisciplinary research, Indigenous leadership in research, challenge-led/ mission-oriented research, and research culture.

The Vice-Chancellor's Research and Enterprise Excellence Awards are among Monash University's most prestigious honours for outstanding research staff at all levels. Awards include:

- Vice-Chancellor's Early Career Researcher of the Year Award (HASS and STEM; one award in each area)
- Vice-Chancellor's Researcher of the Year Award (HASS and STEM; one award in each area)
- Vice-Chancellor's Research Professional of the Year Award
- Vice-Chancellor's Research Team of the Year Award (HASS and STEM; one award in each area)
- Vice-Chancellor's Award for Excellence in Research Infrastructure
- Vice-Chancellor's Award for Excellence in Enterprising Research
- Vice-Chancellor's Award for Excellence in Research Commercialisation
- Vice-Chancellor's Award for Excellence in Research Engagement and Impact
- Vice-Chancellor's Award for Excellence in Graduate Research Supervision (HASS and STEM; one award in each area)

The Vice-Chancellor's Research and Enterprise Excellence Awards give university-wide accolades and profiles for individual research staff, their teams, faculty and projects, as well as broader recognition of their achievements.

Winners are announced and will receive their award from the Vice-Chancellor at the Vice-Chancellor's Excellence Awards event.

2026 KEY DATES

Please refer to the Vice-Chancellor's Research and Enterprise Excellence Awards [website](#) for key dates.

TERMS OF AWARD

The award recipient(s) will receive a trophy and certificate(s) from the Vice-Chancellor and President during the Vice-Chancellor's Excellence Awards event on 23 November.

EXCELLENCE IN RESEARCH COMMERCIALISATION AWARD CRITERIA

ELIGIBILITY CRITERIA

This category is open to individual and team nominations.

1. Previous winners of the current or past iterations of the award are eligible to apply, provided they can demonstrate that a different innovation has resulted in significant impact.
2. Previous commendation recipients of current or past iterations of the award are eligible to apply, provided they can demonstrate evidence of substantial progress since their last nomination.
3. The timeframe for when the research was conducted is open. However, the outcomes of the innovation should have occurred over the past five years.

The following criteria apply to this award for individual nominees:

1. To be eligible to apply for the Vice-Chancellor's Award for Excellence in Research Commercialisation, you must be:
 - a. A Monash University employee with a substantive appointment within a faculty or sub-faculty with a nomination endorsed by the Dean (pathway 1)**; or
 - b. A Monash University employee without a substantive appointment within a home faculty with a nomination endorsed by the Head of organisational unit (pathway 2)**.
2. Continuously employed by Monash University for at least two years at the time of nomination.
3. Applicants must be meeting the relevant faculty-defined research performance expectations for their level and/or receive approval from the Associate Dean Research (or equivalent) for their nomination.

The following criteria apply to this award for team nominees:

1. A team where at least two team members must have been continuously employed by Monash University for at least two years at the time of nomination.
 - a. A team including at least one Monash University employee with a substantive appointment within a faculty or sub-faculty with a nomination endorsed by the Dean (pathway 1)**; or
 - b. A team including at least one Monash University employee without a substantive appointment within a home faculty with a nomination endorsed by the Head of organisational unit (pathway 2)**.

Note, teams can include Monash academic and professional staff members, as well as members with external affiliations.

2. Monash team members must be meeting the relevant faculty-defined research performance expectations for their level and/or receive approval from the Associate Dean Research (or equivalent) for their nomination.

If applicable, relevant circumstances will be taken into consideration and achievement will be assessed relative to opportunity. Please see the Achievement Relative to Opportunity [website](#) for more information and examples of relevant circumstances.

*** Nominations must be endorsed by the Dean (for Pathway 1) or the Head of organisational unit (for Pathway 2). However, nominees are no longer required to upload a written endorsement with the nomination form. Following submission, the Office of the Deputy Vice-Chancellor (Research and Enterprise) will forward the nominations to the relevant Dean or Head of organisational unit for endorsement.*

Note, Academic staff who are currently subject to formal disciplinary, misconduct or performance management processes, or who have had a disciplinary action outcome, or have been found in breach of the Australian Code for the Responsible Conduct of Research within the past 24 months, are ineligible to receive a Research and Enterprise Excellence Award.

SELECTION CRITERIA

Applicants are asked to detail how they have translated an innovation into marketable solutions, products and services that meet the challenges of the age for the betterment of people and the planet, with a focus on the response to climate change, preserving geopolitical security and/or fostering thriving communities.

Applications will also be evaluated on:

1. Translation of innovation

- Effectiveness in translating research into marketable products or services
Detail how the individual's/ team's innovation has been developed into solutions that are practical, scalable, and relevant to the market.
- Funding support and investment attracted
Report on the amounts of grant support, investments secured, and potential revenue generated from the commercialisation efforts. Highlight key financial milestones and the role of these funds in advancing commercialisation.
- Market adoption and scalability
Evidence of the innovation's potential acceptance and growth within the market, highlighting how it meets the needs of diverse stakeholders, with a particular focus on the development of the Australian economy and sovereign capability.

2. Approach to translation

How the individual/team has approached identification of commercial opportunities and collaborated across the innovation ecosystem at Monash to effectively navigate the journey from idea to impact, ensuring that the innovation maximised its benefit to Monash and the wider Australian economy.

Evidence of how the individual/team worked to identify and leverage commercial opportunities, advancing the innovation from concept to impact.

3. Leadership qualities

Demonstrated through the possession and display of leadership skills and approaches, including through generosity, empowering others, integrity, accountability, fostering talent, and supporting wellbeing.

This could be evidenced via:

- Mentoring and coaching colleagues;
- Demonstrated impact at Monash beyond the applicant's immediate group, faculty or institute;
- Thought leadership in the sector and/or community, and/or
- Enhancing equity, diversity and inclusion.

DEFINITIONS

Challenge-led/mission-oriented research¹

Challenge-led, mission-oriented research endeavours are characterised by their inherent complexity and transdisciplinary nature, which pose significant hurdles to their realisation. They build on and extend fundamental, curiosity-driven, discovery research models.

¹ French, M. A., Pinyon, Z., Emes, K., Ryan, M., Georgiou-Karistianis, N., Jasieniak, J., and Brown, R. R. (2024) University-led mission-oriented research and innovation: A Framework for catalysing large-scale transdisciplinary research. Monash University; Melbourne, Australia.

VICE-CHANCELLOR'S RESEARCH AND ENTERPRISE EXCELLENCE AWARD PROCESS

NOMINATION PATHWAYS

Nomination Pathway 1

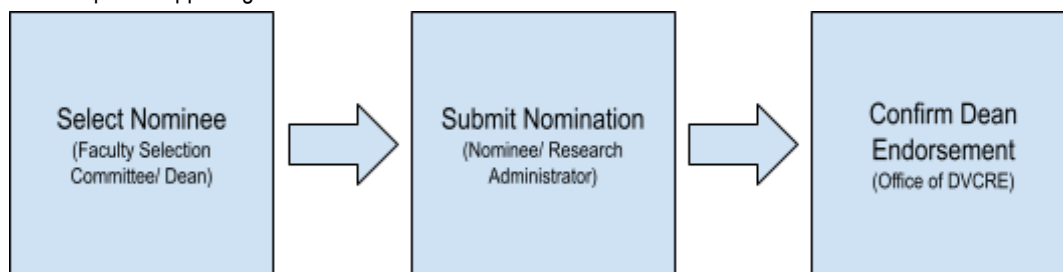

Most University employees are nominated to a home faculty.

In these instances, the nominee/s for a Vice-Chancellor's Research and Enterprise Excellence Award must participate in their home faculty's Research Award process (Pathway 1)**.

This usually involves receiving the equivalent faculty award. However, this is not a requirement and deans can make nominations directly to each of the Vice-Chancellor's Research and Enterprise Excellence Award categories.

The Dean's endorsement confirms that the nominees meet the award's eligibility criteria, including compliance with disciplinary/ performance and ethics and integrity criteria.

Where applicable, nominations may include a one-page supporting document, this must contain one hyperlink only. Non-compliant supporting materials will be excluded from consideration.

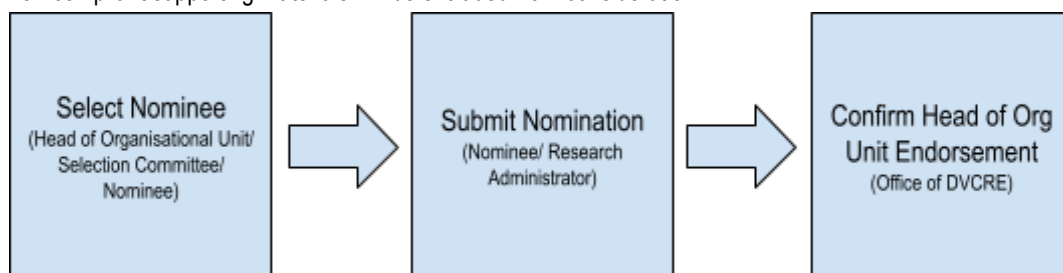

Nomination Pathway 2

If the nominee/s are based outside of a faculty, nominations to the Vice-Chancellor's Research and Enterprise Excellence Awards require endorsement from the Head of organisational unit (Pathway 2)**.

The Head of organisational unit's endorsement confirms that the nominees meet the award's eligibility criteria, including compliance with disciplinary/ performance and ethics and integrity criteria.

Where applicable, nominations may include a one-page supporting document, this must contain one hyperlink only. Non-compliant supporting materials will be excluded from consideration.

**** Nominations must be endorsed by the Dean (for Pathway 1) or the Head of organisational unit (for Pathway 2). However, nominees are no longer required to upload a written endorsement with the nomination form. Following submission, the Office of the Deputy Vice-Chancellor (Research and Enterprise) will forward the nominations to the relevant Dean or Head of organisational unit for endorsement.**

Note: Only one nomination per category for each organisational unit will be accepted. The number of nominations is limited at a portfolio and sub-faculty levels (e.g. DVCRE Portfolio, COO Portfolio, Sub-Faculty of Translational Medicine and Public Health) for non-faculty organisational units. For nominations from the Faculty of Medicine that sit outside of a Sub-Faculty, this will be considered a separate organisational unit for the purposes of the Awards.

Note: To provide clarity regarding nominations from the Faculty of Medicine, endorsement will be provided by the Executive Dean, in line with the timeframes and requirements of other faculties. However, nominations from each Sub-Faculty will first be submitted to the relevant Sub-Faculty Dean for endorsement, via an internal process to be determined by the Faculty of Medicine.

Note: Nominations from Monash University Malaysia (MUM) staff members proceed to a check by MUM HR prior to proceeding to the selection process. Additionally, MUM and Monash University Indonesia (MU) nominees will need a dual approval from their respective campus president and their relevant organisational leader or Dean.

Note: Academic staff who are currently subject to formal disciplinary, misconduct or performance management processes, or who have had a disciplinary action outcome, or have been found in breach of the Australian Code for the Responsible Conduct of Research within the past 24 months, are ineligible to receive a Research and Enterprise Excellence Award.

SELECTION PROCESS

The Deputy Vice-Chancellor (Research and Enterprise) convenes a selection panel/s to assess each application against the selection criteria.

The Deputy Vice-Chancellor (Research and Enterprise) then recommends to the Vice-Chancellor recipients for the Research and Enterprise Excellence Awards.

Then the Vice-Chancellor selects recipients for each category.
