statute or delegated legislation that authorises the expenditure of money) must be obtained from the granting body and filed with the copy of the invoice.

Note: The details of an appropriation, such as particular information about its purpose, may not always be specified by the Appropriation Act. In many cases, the purpose will be documented in very general terms in the Appropriation Act, but explained further in relevant supporting documents.

Examples of supporting documentation that can be filed with an invoice that show the appropriation is covered by an appropriation include:

- Documents that are linked to the Appropriation Act by a provision in the Appropriation Act
 - Documents that were considered by Parliament together with the Appropriation Bill
 - Budget papers that specify the purpose and amount of the payment
 - Portfolio budget statements
 - Agency budget statements
 - Ministerial Statements or Speeches related to the Budget, or Appropriation Act or policy to which the Appropriation Act relates
 - Government released Budget overview documents
 - Ministerial media releases related to the Budget and/or policy to which the Appropriation Act relates
 - Budget documentation (background documents prepared at an agency level in the process of seeking funds to be included in that budget) related to the Appropriation Act
 - Written agreements such as Funding Deeds, Service Level Agreements, Deeds of Agreement or Memoranda of Understanding between government related entities;
- b) Where it is determined that the income is an appropriation, it should be coded to S8 in SAP. Copies of supporting documentation should be attached in SAP to the invoice.
