Part 3 – Declaration

- 1. I understand that Hepatitis A immunisation will, in most cases, result in immunity to the Hepatitis A virus. I understand that the risk of adverse reactions is very low. Soreness at the injection site, more rarely aches and fever and very rarely hypersensitivity may occur.
- 2. I understand that the effects of the vaccine on pregnancy are unknown and therefore becoming pregnant during the course of injections is inadvisable.
- 3. I understand that if I have had previous Hepatitis A immunisation, a blood test may be required to determine antibody status.
- 4. I understand that Part 4 of this form will be completed by the clinic which performs the immunisation. Once the course of injections (normally 2 but up to 3) and the blood tests (normally 1 but up to 2) have been completed, this form will be forwarded by the immunising clinic to OHS.
- 5. I understand that my Manager/Supervisor may be notified regarding my immunisation status.
- 6. I believe the answers to the above are correct and I give my consent to be immunised with Hepatitis A immunisation.
