

MONASH GRADUATE STUDY EXPO INFO SESSIONS

4.00-4.45pm

Master of Teaching

Education

Find out more about a rewarding career as a teacher through our Master of Teaching program. This course is designed for those who have completed an undergraduate degree in any discipline looking to specialise in early years, primary or secondary education, or a combination.

Master of Global Business

Business

Find out how you can create innovative solutions for the business, professional, social and public communities you serve through our new interdisciplinary Master of Global Business. With relevant work experience as an entry requirement, this course offers a dynamic and diverse setting to help you advance the way you understand and address global issues and challenges. Flexibility is a key component of the Master of Global Business; you can choose your electives from a broad range of units across the University.

Presented by:

- Dr Paul Kalfadellis, Course Director

Master of Environment & Sustainability

Science

Do you want to help create a more sustainable and equitable world? Discover how the Master of Environment and Sustainability can teach you how to cross boundaries and develop interdisciplinary solutions. This course uses your knowledge and experience as a base to develop an interdisciplinary foundation. This will enable you to analyse the relationship between nature, society and the economy. Learn more about the immersive projects you can undertake as part of the course. You'll have a choice of internships, industry-linked interdisciplinary and sustainability projects or a pure research thesis allowing you to apply your specialist knowledge and skills.

Presented by:

- Dr Susie Ho, Course Coordinator

4.45-5.30pm

Discover the Master of Biomedical and Health Science

Medicine, Nursing and Health Sciences

Join alumni and staff for an information session on the Master of Biomedical and Health Science course.
