

THE PAIN POINTS OF UNIT 4 CHEMISTRY

Monash University's Faculty of Pharmacy and Pharmaceutical Sciences invites Year 12 students to our Parkville campus for a program that tackles the pain points of Unit 4 Chemistry. We won't just be reviewing ideas with you, but throwing you into exam-style questions with the help of a VCAA examiner and our high-achieving Dean's Scholars students.

The day and ticket includes:

- Lecture with a VCAA Examiner
- Small group workshop with a Dean's Scholars student
- Morning tea
- Never before seen exam style questions + more to take home!

A limited number of places in this workshop will be provided free of charge to students who attend a Monash under-represented school or are from a low income household.

Please email pharmacy.outreach@monash.edu for further information.
