

LOCAL AREA CRYOGENIC FACILITY INDUCTION CHECKLIST

Staff/Student details	
Name:	
Staff/Student ID Number:	
Performance Manager/Supervisor:	
Faculty:	
School:	
Department:	
Cryogenic facility: <i>List name and location</i>	
Local area start date:	
<ul style="list-style-type: none"> This induction authorises the inductee to enter the cryogenic facility listed above. The local area induction for the specific cryogenic facility must be delivered by the relevant facility manager or authorised delegate who has been trained in cryogenics. This induction checklist should be modified to suit the specifics of the facility. 	
A. Evidence of training completion and local area induction	
<ul style="list-style-type: none"> Inductee has completed the online <i>Cryogenic Material Basic Safety Principles</i> training and proof of completion has been provided (<i>Copy of myDevelopment training record</i>) 	Yes <input type="checkbox"/>
<ul style="list-style-type: none"> Inductee has received Laboratory, Workshop, Studio or Makerspace Local Area induction 	Yes <input type="checkbox"/>
B. Access Requirements	
Is access required:	
Only under supervision	Yes <input type="checkbox"/> No <input type="checkbox"/>
During business hours only:	Yes <input type="checkbox"/> No <input type="checkbox"/>
After-hours/weekends (where identified in risk assessment):	Yes <input type="checkbox"/> No <input type="checkbox"/>
<ul style="list-style-type: none"> Extreme caution should be taken before accessing cryogenic facilities outside regular hours or when emergency response is limited (After-Hours Procedure) 	
C. Mandatory procedures for entering and exiting cryogenic facilities	
Inductee understands:	
The procedure to visually inspect facility for signs of danger	Yes <input type="checkbox"/>
How to check oxygen levels are safe prior to entry	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
The procedure to manage ice build-up on outside bulk storage tanks	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
No food or drink to be brought into facility	Yes <input type="checkbox"/>
All local safety procedures including personal protective equipment (PPE) requirements must be followed when accessing facility	Yes <input type="checkbox"/>
How to use relevant PPE (<i>face shield, apron, full length cryo-gloves</i>)	Yes <input type="checkbox"/>
D. Emergency Response	
Ensure inductee is aware of:	
Emergency procedure for an oxygen depleted atmosphere situation	Yes <input type="checkbox"/> N/A <input type="checkbox"/>

That a facility must not be entered if the above situation applies	Yes <input type="checkbox"/>
The procedure for raising alarm	Yes <input type="checkbox"/>
How to identify the location and use of any isolation systems including: <ul style="list-style-type: none"> ○ Cryogenic material isolation switch ○ Power isolation ○ Gas isolation 	Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/>
Spill procedures	Yes <input type="checkbox"/>
Firefighting measures including the location of extinguishers	Yes <input type="checkbox"/>
First Aid procedures for cold burns including access to running water	Yes <input type="checkbox"/>
How to locate a First Aider (e.g. names displayed on First Aid kit)	Yes <input type="checkbox"/>
The location of nearest Medical Health Service	Yes <input type="checkbox"/>
E. Types of cryogenic materials present in facility	
Dry Ice	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
Liquid Nitrogen	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
• Liquid Nitrogen accessible in vapour phase only	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
• Liquid Nitrogen accessible in liquid phase	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
• Liquid Nitrogen in a pressurised system	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
Liquid Helium	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
Other cryogenic material	Yes <input type="checkbox"/> N/A <input type="checkbox"/>
F. Risk management of cryogenic users	
Show inductee the location of, and how to access, existing Risk Assessments and SWIs for the cryogenic facility	Yes <input type="checkbox"/>
Explain mandatory requirement for Risk Assessment and Safe Work Instructions that incorporate all elements of cryogenic material use including: <ul style="list-style-type: none"> • Purchasing of cryogenics • Storage of cryogenics • Handling and use of cryogenics • Disposal of waste cryogenics 	Yes <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> Yes <input type="checkbox"/> Yes <input type="checkbox"/>
Inductee has provided Risk Assessments and Safe Work Instructions for their work (e.g. storage of high-risk samples) to the Facility manager/Safety Officer before commencing any activities.	Yes <input type="checkbox"/>
G. Competency requirements for facility	
This section should be modified to include the relevant competency requirements for the facility.	
The inductee has demonstrated competency in the following tasks: <ul style="list-style-type: none"> • Decanting liquid nitrogen into a 10L dewar from the reserve tank • Refilling a dewar • Placing/removing cryovials from a dewar/storage tank • Disconnect/reconnect fittings/valves 	Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/> Yes <input type="checkbox"/> N/A <input type="checkbox"/>

H. Sign Off

I understand that by signing this form, I agree to observe all local and University OHS requirements

Signature of Inductee:

Date:

Signature of Facility Manager/
Authorised Delegate:

Date:

Signature of Performance Manager/
Supervisor:

Date:

This form must be kept as a local record that the above has been inducted.
