

BACHELOR OF MEDICAL SCIENCE AND DOCTOR OF MEDICINE

DIRECT ENTRY PROGRAM - INTERNATIONAL - 2022 ENTRY

Monash is the only Victorian university to offer both direct from school and graduate entry into the same medical degree.

In this course you will learn from staff across Monash Medicine, Nursing and Health Sciences who are leaders in their field.

You will also benefit from our links with the largest health care provider network in Australia, including the Monash Medical Centre, The Alfred Hospital (Melbourne's major casualty hospital), Eastern Health, and health services in outer metropolitan Melbourne, and rural and regional Victoria.

In the Bachelor of Medical Science and Doctor of Medicine you will:

- Begin your medical studies from day one of your degree;
- Undertake training with a strong focus on patient safety, evidence-based practice, clinical role modeling, and professionalism
- Graduate with a Doctor of Medicine

Course code

M6011

Frequently asked questions

Internship? Any offer of a place in a Monash medical course is made on the understanding that Monash in no way guarantees any period of internship in an Australian hospital at the completion of your medical degree. Internship places are not allocated by Monash University.

How will Monash University find out my ISAT result? Students must nominate Monash University as a preference when they register for the ISAT. It is also essential you register for the ISAT using the same email address that you supply to Monash.

WHAT IS A MULTIPLE MINI INTERVIEW (MMI)?

At Monash we use a four-station Multiple Mini Interview (MMI). Each circuit comprises a series of scenarios and associated questions focusing on applicants' personal qualities including:

Each applicant is given two minutes of reading time followed by eight minutes to answer five questions relevant to the scenario. At the completion of the eight minutes, there is a further two-minute changeover and reading time for the next scenario.

The MMI format allows the faculty to determine which applicants possess the personal qualities required to succeed in the MD program, as well as the qualities that we are looking for in health care professionals.

VARIETY OF LEARNING STYLES

Our innovative teaching sessions provide you with a range of learning modes. Lectures, seminars, workshops, tutorials and simulation sessions are designed to suit the content being covered. These sessions are delivered from content experts within the university as well as clinicians and researchers.

In years 3-5, we provide opportunities for you to develop and enhance your skills during clinical placement, by engaging with real patients during bedside tutorials and clinical settings, under the guidance of medical practitioners. Clinical placements may be in metropolitan or rural areas, where travel may be required.

SPECIAL REQUIREMENTS

You must satisfy extra requirements, including immunisations, Police Check and Working with Children Check to be able to complete clinical course requirements.

WHEN AND HOW DO I APPLY?

Overseas-based applicants*

All overseas-based applicants must submit certified copies of their **final** results to your agent, or, for direct applicants, directly to Monash. These will be required by early December 2021. Offers will not be made on interim or predicted results.

See: monash.edu/medicine/important-dates

Australian-based applicants

International students studying the Year 12 in Australia must apply through VTAC: vtac.edu.au

IMPORTANT NOTE: The direct entry program is only available to current Year 12 (or equivalent) students or applicants who have completed Year 12 no more than two years prior and have not commenced any form of other tertiary studies during that time. Those who have commenced tertiary study (including at Certificate IV level) are ineligible for the direct entry program.

*Applicants who are required to complete National Military Service in their home country are exempt from the two-year monash.edu/medicine/important-dates rule and can apply during the final year of their service.

Can I practise in my home country?

Many students return to their home countries at the conclusion of their programs to undertake local internships and fulfill licensure requirements. It is recommended that applicants check the requirements in their country to ensure professional accreditation circumstances are considered.
