IF YOU DON’T LIKE IT, CHANGE IT.

For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.

We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world.

That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

Ready to make a change? Click here to learn more.
A GLOBAL COMMUNITY

Monash University is truly a global university. Our main base is in Australia, but our presence extends to locations in Malaysia, China, Indonesia, Italy and India. We also deliver awards in partnership with many international teaching institutions. Through our shared values, experiences and goals, we are more connected now than ever.

Each Monash campus has its own personality, and all are friendly, welcoming communities where you’ll feel at home.

MELBOURNE

AUSTRALIA

Clayton
Our largest campus, home to 38,000 students and nine of our ten faculties. Everything you need is on campus – food outlets, sporting facilities, health services and more.

Caulfield
Our Caulfield campus hosts 19,000 students, and is our base for Art, Design and Architecture, and Monash Business School as well as some Arts and IT courses.

Parkville
Our dedicated Pharmacy and Pharmaceutical Sciences campus hosts 2000 students and is part of Australia’s leading health and biomedical precinct.

Peninsula
A coastal home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education and select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

ITALY

Prato
In the heart of Tuscany and close to Florence, Prato is our European base where eight of our faculties offer units covering design, law, business and more.

INDONESIA

Jakarta
Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders - those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

CHINA

Suzhou
The Southeast University-Monash University Joint Graduate School offers masters and PhD study options in areas ranging from industrial design and IT to business.

MALAYSIA

Kuala Lumpur
Monash University Malaysia is our third-largest campus, with more than 4000 students undertaking courses offered across seven schools.

INDIA

Mumbai
Busting Mumbai is home to the IITB-Monash Research Academy, a collaboration that gives PhD students opportunities to work closely with industry to find solutions to global problems.

INDONESIA

Jakarta
Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders - those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

CHINA

Suzhou
The Southeast University-Monash University Joint Graduate School offers masters and PhD study options in areas ranging from industrial design and IT to business.

MONASH EXPLORER

Click here and discover life at Monash University anytime, anywhere.
From day one, a Monash education sets you on the path to future career success.

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills, and gain a competitive edge in the graduate employment market.

Career Connect
Our Career Connect program gives you access to experienced coaches and industry-based professionals. Take part in employability workshops, small-group career conversations and, in your final year, one-on-one coaching.

monash.edu/career-connect

Student Futures
Our Student Futures platform allows you to collate the real-life skills that will show employers you have what they’re looking for, taking into account not just your university activities, but those that are part of your “outside” life – paid work, family responsibilities, and contributing to your community.

monash.edu/student-futures

Develop leadership
While studying, you’ll be encouraged to foster the skills for effective leadership that will enable you to bring out the best in yourself and the people around you.

monash.edu/students/leadership

Monash Talent
With our employment service, Monash Talent, you can start your career search without stepping foot off campus. We have a team of recruitment specialists who’ll connect you with reputable employers and match you with jobs that suit your skills and passions.

monash.edu/talent

Mentoring
Throughout your studies, you’ll have the opportunity to be a mentor or be mentored. You can share or gain insights about life at university, career planning, building employability, as well as future goals.

monash.edu/mentoring

Work-integrated learning
Incorporate professional experience into your studies through clinical placements, fieldwork, study tours, placements, or internships.

SCHOLARSHIPS
TO UNLOCK YOUR TALENT

Our doors are open to the curious, the optimistic and the change-makers.

A scholarship will help you make the most of your time at university. And that’s why we have more than 400 types of scholarships. Here’s just some of the types of scholarships we offer:

Academic scholarships
We want as many bright minds as possible to benefit from a Monash education. Our Sir John Monash scholarships aim to attract academically gifted students. And our faculties also offer scholarships for academically gifted students. But we also want to recognise those students who want to make a difference in the lives of other students by becoming mentors.

Equity scholarships
We recognise that sometimes your ATAR doesn’t reflect your potential. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, are from an asylum-seeking background, or have experienced difficult circumstances, we offer scholarships to ensure that none of these factors prevent you from pursuing your dreams.

Indigenous students
We offer many scholarships for Indigenous students, with our faculties also offering opportunities to attend Monash through their own scholarship programs.

Accommodation scholarships
We offer scholarships to help cover the costs of your accommodation, and there are even scholarships to support any relocation costs if you’re from a rural area.

At Monash, we believe in giving our students the best chance to achieve their potential.

The number of scholarships and grants offered each year varies.

So find the right scholarship for you at monash.edu/scholarships

We want as many bright minds as possible to benefit from a Monash education. Click here to learn about our scholarships program.
There’s more than one way to start your journey. You might not have achieved the ATAR you needed, perhaps you want to return to study, or you’re transferring from TAFE or another university – our pathways are here to help.

**The Monash Guarantee**

The Monash Guarantee can get you into one of our courses even if you don’t reach the course’s lowest selection rank to which an offer was made. You could be eligible for the Monash Guarantee if you:

- have experienced financial disadvantage
- live in a low socioeconomic area
- are an Indigenous Australian
- attend a Monash-listed under-represented school.

Every Monash University course has a Monash Guarantee ATAR. For most courses, if you meet the criteria, achieve the Monash Guarantee ATAR and complete all course prerequisites, you’ll be eligible for a place at Monash, however some exceptions do apply.

monash.edu/guaranteedentry

**Special Entry Access Scheme (SEAS)**

SEAS adjusts your ATAR in recognition of circumstances that may have affected your education. This gives you a better chance of getting an offer for the course you want. You’ll receive adjustments depending on your personal circumstances. The adjustments are made to your combined study scores and your ATAR is recalculated. The recalculated ATAR will impact your selection rank which is used during the selection process.

Check out our SEAS calculator for an estimate of your SEAS-adjusted ATAR at monash.edu/seas

**Diploma of Higher Education (DoHE)**

DoHE might suit you if you completed Year 12 but didn’t quite meet the entry requirements for your preferred course, if you’re returning to study, or would benefit from additional learning support. On successful completion, you can get up to one year of credit towards a range of degrees in education and science.

**Monash Indigenous Entry Scheme**

The Monash Indigenous Entry Scheme provides an entry point for Aboriginal and Torres Strait Islander students into a range of Monash courses. You’ll also be eligible for internal transfer into other Monash courses, including law and engineering, subject to transfer requirements.

**Monash Indigenous Access Program (MIAP)**

If you identify as an Indigenous Australian, live in a low socioeconomic area, have experienced financial hardship, and achieve an unadjusted ATAR of 90, Pathways to Law can help.

In your first year, you’ll study four law units along with four arts, commerce or science units. When you pass all law units with a credit (60 per cent) average, and achieve a credit average overall, you’re guaranteed a place in the second year of the relevant double degree course. If you don’t achieve the credit average, you can still continue the relevant single degree course and receive credit for all subjects you’ve passed. To apply, complete a Special Entry Access Scheme (SEAS) application through VTAC and enrol into one of the following courses:

- Bachelor of Arts (Law Pathway)
- Bachelor of Commerce (Law Pathway)
- Bachelor of Science (Law Pathway).

**Pathways to Law**

If you identify as an Indigenous Australian, live in a low socioeconomic area or have experienced financial hardship, and achieve an unadjusted ATAR of 90, Pathways to Law can help.

In your first year, you’ll study four law units along with four arts, commerce or science units. When you pass all law units with a credit (60 per cent) average, and achieve a credit average overall, you’re guaranteed a place in the second year of the relevant double degree course. If you don’t achieve the credit average, you can still continue the relevant single degree course and receive credit for all subjects you’ve passed. To apply, complete a Special Entry Access Scheme (SEAS) application through VTAC and enrol into one of the following courses:

- Bachelor of Arts (Law Pathway)
- Bachelor of Commerce (Law Pathway)
- Bachelor of Science (Law Pathway).

**Monash Access Program (MAP)**

MAP is a part-time bridging course for mature-aged students (21 or over). It’ll prepare you for university study and give you a solid foundation to progress into a range of bachelor’s degrees at Monash. There are no tuition fees, and priority is given to students who’ve experienced financial or other hardship.

**Monash College**

Monash College offers accredited diploma programs that lead to the faculties of Arts, Art, Design and Architecture, Business, Education (double degree courses), Engineering, Information Technology and Science at Monash. These diplomas provide the opportunity to enter the second year of selected Monash courses if you achieve the required academic standard.

They’re all full-fee-paying courses, however scholarships may be available for Australian students who’ve experienced educational disadvantage. Monash College is owned and operated by Monash University.

**TAFE/VET entry pathways**

We recognise vocational qualifications from providers across Australia, and have priority partnerships and formal articulation pathways with selected Victorian TAFE institutes. If you’ve successfully completed a certificate IV, diploma or the first year of an advanced diploma, you could qualify for a place at Monash and be eligible for some credit towards your course for any graded TAFE/VET studies you’ve completed.

monash.edu/domestic-pathways
CHANGE HOW YOU LEARN.

STUDY ABROAD.

When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective.

Many programs are supported by generous scholarships and assistance packages.

Semester exchange
Choose from more than 150 partner institutions in Asia, Africa, Europe and the Americas, gaining credit towards your degree while seeing the world.

Global study tours
Complete a unit overseas in two to four weeks. You’ll learn from inspiring academics and classmates in places as diverse as China, Fiji, France, Chile, Indonesia or Rwanda.

Global work-integrated learning
Rub shoulders with US Congress, or intern with Oxfam in South Africa. Placements and industry projects are offered for credit as part of most degrees.

Swap your seasons
Make the most of your semester break. Travel to a vibrant city abroad and complete a short study program for credit.

Try Malaysia
Experience our Malaysia campus on the Global Intercampus Program (GIP). You’ll also get the benefit of funding packages and in-country support services.

Italy awaits
Spend 4–12 weeks in Prato, Italy, completing a wide range of unit offerings such as Italian, law or criminology.

Funding while abroad
By applying for courses overseas, you’re automatically considered for a share of more than $2 million in scholarships.

Go global
Build a professional network while you’re still studying. Our Global Discovery Program taps into the expertise of some of our brightest alumni – students have previously travelled to cities such as London and New York. Learn more at monash.edu/global-discovery.

1 Due to the Covid-19 pandemic, international travel restrictions are in place at the time of printing. Consequently, our offer of study abroad programs will be dependent on and subject to international travel restrictions. For further information please visit, monash.edu/study-abroad/study-abroad.
ON-CAMPUS ACCOMMODATION

On-campus accommodation is supported by live-in staff and student leaders, making campus life a breeze. There’s also 24-hour security on campus, and a thriving events and activities program to help you settle into your new community.

Prices for on-campus accommodation range from approximately $240 to $306 per week. Applications are free and open in September. You can choose from traditional halls of residence, self-contained studio apartments or shared apartments.

With students from over 70 countries and the wide range of facilities on your doorstep, discover why on-campus accommodation is much more than just your room.

monash.edu/accommodation

Cost of living

Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget.

Here are some costs associated with living and studying in Australia, and should be used as an approximate guide. These figures are estimates only, and may vary depending on your location and lifestyle. Rent, for example, is more expensive in some areas of Melbourne than others. You may also need spending money for things such as medication and other personal items, such as clothes. All costs are subject to inflation. Depending on your chosen degree, additional costs may apply for class materials and other course requirements. Please make sure you check any additional costs for your course before commencing your studies.

OFF-CAMPUS ACCOMMODATION

- Hostels and guesthouses  $90 to $150 per week
- Shared rentals  $85 to $215 per week
- Homestay1  $378 per week
- Rental  $165 to $440 per week
- Boarding schools  $11,000 to $22,000 per year

OTHER LIVING EXPENSES

- Groceries and eating out  $80 to $280 per week
- Gas and electricity  $35 to $140 per week2
- Phone and Internet  $20 to $55 per week3
- Public transport  $15 to $55 per week
- Car (after purchase)  $150 to $260 per week
- Entertainment  $80 to $150 per week

1 The fees for living on campus at Monash University vary depending on the type of accommodation. On-campus accommodation costs include gas, water, electricity, internet, residential parking permit and laundry. Details: monash.edu/accommodation/accommodation/pricing
2 Any student under the age of 18 who chooses to stay in homestay must use the Monash Homestay Accommodation Service (HAS). monashcollege.edu.au/life-at-monash-college/accommodation/homestay
3 Prices shown here are based on a typical three-bedroom house.

ON-CAMPUS ACCOMMODATION

Click here for an interactive tour of our Clayton campus.
Choose from a vast range of clubs, make friends and share unforgettable experiences.

We offer a range of student support services to make sure you get the most out of university life, including study skills, mentoring support, health and wellbeing services, financial aid, technology assistance, education and professional goals, and more.

We can also put you in touch with like-minded people to share information, build networks and get the support you need throughout your Monash studies. We recognise the richness and depth of our Monash community, and are committed to diversity and inclusion.

Visit monash.edu/students/support to learn more about:
• Monash Connect (support with enrolment, fees, accommodation and more)
• Career Connect (career, leadership and volunteer opportunities)
• cultural inclusion
• clubs and associations
• safety and security
• student news
• the William Cooper Institute – a hub for Aboriginal and Torres Strait Islander study, learning and engagement
• events and activities
• study programs
• self-development
• medical, dental, counselling and other health services
• disability support
• LGBTIQ support
• child care and parenting rooms.

We also have a peer mentoring program, to help you adjust from high school to university. Every first-year student will receive mentoring from a senior student in the same faculty. Details: monash.edu/about/mentoring

Industrial design: industrial designer, digital product designer, experience designer, product and packaging designer, design consultant, furniture designer, lighting designer, public transport designer, automotive designer, service designer.

Spatial design: interior designer, experience designer, museum and exhibition designer, stage and production designer, visual merchandiser.

**Collaborative design**

service designer, design strategist, interdisciplinary designer, social innovator, design entrepreneur, design researcher as well as many careers that haven’t yet been imagined.

---

Bachelor of FINE ART

**Course Code:** F2003

- **Caulfield**
- 3 years
- February

**DEGREE AWARDED**

Folio and written statement for the fine art specialisation only.

Our Fine Art degrees are unique, multi-disciplinary, studio-based courses that provide you with the options to explore the world of contemporary fine art. You can focus your studies through a hands-on practice-based approach or develop your knowledge as a specialist in art history and curating.

We’ll foster your education and knowledge, and introduce you to key figures in the local and international art worlds to help you grow as a contemporary and future-forward artist.

**Specialisations**

- Art history and curating – develop a specialised knowledge of the art world and excellent communication skills.
- Fine art – where you can develop your contemporary art practice and complement your studies through a double degree.

**Entry requirements**

**COURSE CODE:** A2008

**Clayton** | **3 years → February and July**
---|---

**Bachelor of Criminology**

Criminology is the study of crime and social control. Crime – how we define it, how we understand its causes and the ways we respond to it – provides a window into society’s challenges, values and aspirations.

This course opens students to a world-leading program delivered by a team of outstanding teachers and researchers. You’ll consider the local, national and global aspects of crime and justice, and become familiar with a range of lenses for understanding and assessing the impact of society’s changing responses to crime and justice.

You’ll gain an understanding of victimisation and perpetration, inequality and its impacts, and approaches to understanding crime. Throughout the course you’ll develop your capabilities via the key themes of expert knowledge, global reach and focus, and collaboration and innovation.

**The Global Immersion Guarantee**

You’ll also have the opportunity to be part of the ground-breaking Global Immersion Guarantee fieldwork trip, see page 20 for more information.

---

1. Eligibility requirements apply. From year students in a Monash Arts single or double degree in arts, who undertake 24 points of study in arts units and have passed all their arts units.

2. The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2021 or an estimate (E). RC – Range of criteria.

3. This guarantee does not apply to the Law Pathway which requires an ATAR of 90+.

4. For double degree courses you must meet the prerequisites for both courses. See pages 12-13 for a full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/study.

5. This double degree is not available with all specialisation laws, see monash.edu/study for full details.

6. Also available as an extended major.
Bachelor of GLOBAL STUDIES

**COURSE CODE:** A2001

Clayton  3 years  →  February

Designed for students who aspire to be leaders in creating social change, you’ll learn how to critically analyse global challenges facing cultures and communities throughout the world.

This course has a number of exciting features that set it apart. Core units provide leadership development, and project-based learning includes the opportunity to work in collaboration with global organisations and non-government organisations (NGOs).

This course is available as part of a bachelor’s/master’s program, allowing high-achieving students to graduate with both degrees in just four years. Refer to page 20 for further information.

**Specialisations**
- Cultural competence
- Human rights
- International relations
- International studies.

**The Global Immersion Guarantee**
You’ll also have the opportunity to be part of the ground-breaking Global Immersion Guarantee fieldwork trip, see page 20 for more information.

Bachelor of COMMUNICATION

**COURSE CODE:** A2002

Clayton  3 years  →  February and July

The Bachelor of Media Communication addresses the growing demand for graduates with new and diverse skills in communication, and a critical understanding of how media influences our lives. You’ll learn to focus on new ways of doing things, to challenge convention, and devise solutions that will take us into the future.

This course includes a core program of professional communication practice based in the multimillion-dollar Monash Media Lab, and culminates in a final-year media project or industry internship. This course is available as part of a bachelor’s/master’s program, allowing high-achieving students to graduate with both degrees in just four years. Refer to page 20 for further information.

**Specialisations**
- Journalism
- Media
- Public relations

Advertising creative, broadcast presenter, communications manager, content producer, content writer, digital communications strategist, film director, journalist, location manager, media analyst, media content coordinator, movie critic, publisher, public relations professional, radio broadcaster, researcher, social media manager, television presenter, video producer, and much more.

---

Bachelor of MUSIC

**COURSE CODE:** A2003

Clayton  3 years  →  February and July

Monash’s Sir Zelman Cowen School of Music and Performance has one of the most comprehensive music programs in the country, excelling in classical, jazz and popular music performance.

As well as receiving individual instrumental teaching, you’ll collaborate with international artists, learn from accomplished teaching staff, study and perform in New York and Prato, Italy, and perform to audiences across the country with an ensemble or orchestra.

This course is available as part of a bachelor’s/master’s program, allowing high-achieving students to graduate with both degrees in just four years. Refer to page 20 for further information.

**Specialisations**
- Composition and music technology
- Music performance
- Popular music.

**The Global Immersion Guarantee**
You’ll also have the opportunity to part of the Global Immersion Guarantee, see page 20 for more information.

- IB: English: Level 1. For prerequisite subject requirements, please refer to page 46.

**Selection requirements**
You must complete an audition/composition. For more information, visit arts.monash.edu/music/audition-information

**Career options**
Accompanist, artist manager, audio engineer, broadcast presenter, communications manager, composer, conductor, critic, DJ, editor, festival producer, film scorer, music therapist, music writer, musicologist, performer, teaching and much more.

---

Bachelor of POLITICS, PHILOSOPHY AND ECONOMICS

**COURSE CODE:** A2010

Clayton  3 years  →  February

Developed by Monash’s world-renowned politicians, philosophy and economics professors, this elite program is designed for deep thinkers who want to have a real impact.

You’ll study at the creative intersection between politics, philosophy and economics, developing your ability to think critically about analysts, strategy and leadership as you learn to transform big ideas into tangible results.

With access to the award-winning, funded Global Immersion Guarantee and exclusive global study tour and internship opportunities, you’ll gain real-world experience and shape your professional networks before you’ve even graduated.

This course is available as part of a bachelor’s/master’s program, allowing high-achieving students to graduate with both degrees in just four years. Refer to page 20 for further information.

**Specialisations**
- Politics and governance
- Philosophy
- Economic analysis.

**The Global Immersion Guarantee**
You’ll also have the opportunity to part of the Global Immersion Guarantee, see page 20 for more information.

- English: Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL, Maths: Units 3 and 4: a study score of at least 22 in one of Mathematical Methods or Specialist Mathematics; or at least 25 in Further Mathematics.
- IB: English: Level 1. Maths: Level 2. For prerequisite subject requirements, please refer to page 46.

**Selection requirements**
You’ll also need to complete a supplementary form providing information about your interests.

**Career options**
Advocacy, banking and finance, business management, civil society leadership, consulting, diplomacy, economics, government, international relations, lobbying, policy analysis, politics, public affairs and more.

---
Accounting is more than a numbers game, and it’s vital to business success. In this course, you’ll gain solid technical skills across key areas such as information systems, corporate finance, auditing and assurance, financial reporting and data analysis.

As the largest business school in Australia, we can equip you with the broader business and advisory skills needed to build a successful accounting career.

Depending on your electives, this course could prepare you to meet the accounting accreditation requirements of:
- CPA Australia
- Chartered Accountants Australia and New Zealand
- The Institute of Public Accountants
- The Chartered Institute of Management Accountants
- The Association of Chartered Certified Accountants.

IB

English: Level 1. Maths: Level 3. For prerequisite subject requirements, please refer to page 46.

Career options

Accounting, banking, broking, consulting, financial forecasting, funds management, insurance.

Few things impact our society more than the exchange of money. The way we earn, spend, save, borrow and invest money – both as individuals and as a collective – is reflected in everything from interest rates to property prices. You’ll develop the skills you need to manage money well, whether for big corporations, small businesses or governments.

As the largest business school in Australia, we offer innovative teaching facilities. As part of this course, you can access our Simulated Teaching and Research Laboratory (STARLab), and use market simulation programs to enhance your decision-making ability.

QS World University Rankings by Subject 2020

Caulfield 3 years February and July

Develop the creative and technical insights you need to help businesses build their brand. This course will give you a combination of technical, practical and analytical skills, from understanding buyer behaviour to building social campaigns—everything you need to think and act as a professional marketer.

Marketing employers around the world recognise the quality of a marketing qualification from Monash and the solid grounding in business that it offers. This makes our graduates sought-after nationally and internationally.

Prerequisite studies

VCE

English: Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL. Maths: Units 3 and 4: a study score of at least 22 in one of Mathematical Methods (any) or Specialist Mathematics, or 25 in Further Mathematics.

IB

English: Level 1. Maths: Level 2. For prerequisite subject requirements, please refer to page 46.

Career options

Accounting, consultancy, human resources, marketing.

1 The course provided is to be used as a guide only, and are either the lowest selection rank to which an offer was made in 22/21 or an estimate (E).

2 For double degree courses you must meet the prerequisites for both courses. See pages 52-55 for a full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/study

3 This is dependent on international travel restrictions.

Bachelor of EDUCATION (Honours)

COURSE CODE: E3001

Clayton, Peninsula

DEGREE AWARDED

The degree you’ve awarded will reflect your chosen specialisation.

Clayton, Peninsula

4 years February

Are you ready to change the world through education? Do you want to be the teacher your students remember? Choose to specialise in early childhood, primary or secondary education—or a combination of these—and graduate ready for a successful career.

Specialisations

Choose one of the following specialisations:

- Early childhood and primary education
- Primary education – studied as a single or double degree
- Primary and secondary education
- Primary and secondary inclusive education
- Primary and secondary health and physical education
- Secondary health and physical education
- Secondary education – studied as a double degree only.

Whatever specialisation you choose, you’ll graduate with an honours degree. This will give you a higher-level qualification and a deeper understanding of your own professional practice. The degree you’re awarded will reflect your chosen specialisation.

Double degrees

A double degree is a great option if you’re interested in teaching but also want to gain expertise in another discipline. At Monash, you can choose from the following double degrees with either the Primary or Secondary Education specialisation: arts, business, fine art, music and science.

Pathways into Education

If you’re narrowly missed the entry requirement for direct entry into an education degree, you can consider a pathway program such as the Diploma of Tertiary Studies or Diploma of Higher Education. On successful completion you can gain up to one year of credit towards a range of Monash education degrees.

Professional experience – local or global

Put your learning into practice by completing at least 80 days of professional experience during your course. You can stay local, breadth rural or overseas. You can be in a classroom or an integral part of a community program. Build your confidence and gain real-world experience so you’re ready to teach when you graduate.

Career options

Community education, corporate training, curriculum development, health and fitness coaching, student welfare, school leadership, teaching.

Prerequisite studies

VCE

- English: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL. Maths: Units 1 and 2: satisfactory completion of two units any study combination of General Mathematics, Mathematical Methods or Specialist Mathematics, or Units 3 and 4: any mathematics.

IB

- English: Level 1. Maths: Level 2. For prerequisite subject requirements, please refer to page 46.

Non-academic selection requirement – CASPer

All applicants are required to complete a mandatory online 90-minute computer-based test called CASPer, as part of the application process. For more information, visit monash.edu/education/takecasper

Post-enrollment requirements

During your degree you’ll be required to meet some extra requirements:

- Working with Children check
- Literacy and Numeracy test.

1 The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 22/21 or an estimate (E). Range of criteria.

2 For double degree courses you must meet the prerequisites for both courses. See pages 52-55 for a full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/study

3 This double degree is only available with the Fine Art specialisation.
Engineers are collaborative and creative problem-solvers who design technology and develop innovative solutions across a vast range of areas including: advancing technologies for clean water, green energy, high-speed communications and transportation, advanced healthcare devices, reliable autonomous systems and safe, smart sustainable products, homes and cities, and more.

At Monash, one of Australia’s leading engineering schools, you’ll apply maths and science in a practical way, and work in teams to develop new technologies and improve existing ones.

You’ll also have access to our new interactive and collaborative learning spaces, including the Monash Makerspace and the smart technology-enabled Woodside Building for Technology and Design.

At Monash, we’ve created an engineering program that gives you maximum choice and flexibility. You’ll study a common first year, where you’ll get a taste for each of the 10 specialisations Monash offers before deciding which one to pursue from your second year.

You’ll also have the opportunity to choose from a range of minors from emerging engineering fields, such as artificial intelligence and smart manufacturing, to complement your specialisation and expand your career opportunities.

**Specialisations**

- Aerospace engineering
- Biomedical engineering
- Chemical engineering
- Civil engineering
- Electrical and computer systems engineering
- Environmental engineering
- Materials engineering
- Mechanical engineering
- Robotics and mechatronics engineering
- Software engineering.

The degree you’re awarded will reflect your chosen specialisation.

**Prerequisite studies**

**VCE**

- Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL
- Mathematics: Units 3 and 4: a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics

**Science**

- Level 3 and 4: a study score of at least 35 in Chemistry or Physics.

**IB**

- English: Level 1: Math: Level 3. Science: Chemistry or Physics only.

For prerequisite subject requirements, please refer to page 46.

**Career options**

- Advanced manufacturing, aerospace, automation, defence, design and construction, energy and power generation, environment and sustainability, financial services, food and agriculture, infrastructure, management consulting, medical equipment and device design, mining, renewable energy, research and development, robotics and autonomous systems, software systems and IT services, start-up technology development, sustainability, traffic and transport, tunneling, unconventional resources, water management and recycling.

**Biomedical Engineering**

New in 2021, you can now design the future of healthcare by choosing Biomedical Engineering as one of your specialisation options.

**Co-operative Education Program**

Complete a three, six or 12-month paid Co-operative Education Program internship to kick-start your engineering career. Learn practical engineering skills, gain real-life insights into the workforce, build industry connections and graduate job-ready.

---

1 Please note the July intake admission into the Robotics and mechatronics specialisation will require that you undertake a bespoke course progression due to sequencing. The department course adviser will work with you to formulate a progression to suit your academic preparation.
2 The career path is not available for the Biomedical engineering specialisation. See website for the Bachelor of Biomedical Engineering if you intend to choose this specialisation.
3 Please refer to monash.edu/study for full details. Course codes and CRICOS codes for double degrees are available at monash.edu/study.
4 The accelerated master’s pathway is not available with all specialisations.

---

**Bachelor of COMPUTER SCIENCE**

**Course Code:** C2001

Clayton 4 years → February and July

**DEGREE AWARDED**

The degree you’re awarded will reflect your chosen specialisation.

Computer scientists drive everything from search engines to daily weather reports, animation, cybersecurity and scientific discoveries. When you study computer science, you’ll develop the skills to design data structures, develop algorithms, and create software to solve real-world computational challenges.

**Specialisations**

- Advanced computer science
- Data science.

---

**Gain real-world industry experience**

The industry-based learning program offers a unique opportunity for all undergraduate IT students to enhance their education through a practical placement with one of our leading global or Australian industry partners. Apply key concepts from class in a practical, corporate setting and develop sought-after skills through a industry placement that counts towards your degree.
Bachelor of INFORMATION TECHNOLOGY

COURSE CODE: C2000

Clayton  3 years  →  February and July

IT is everywhere, but its power comes from the experts who create the IT systems upon which we all rely. This highly practical course gives you the problem-solving skills to drive the ongoing revolution in the way we communicate, conduct business and experience the world.

At our leading IT faculty, you’ll learn from the best in an innovative environment. Our comprehensive range of majors, minor and double degrees give you the flexibility and choice to develop your strengths and explore new areas.

- Maths: Units 1 and 2:
  - Level 1. For prerequisite subject requirements, please refer to pages 52-55 for a full list of double degree prerequisites.

IB

- English: Level 1. For prerequisite subject requirements, please refer to page 46.

Career options

- Animator, business analyst, cloud architect, computer forensic investigator, cybersecurity specialist, games/interactive media developer, project manager, web developer.

Industry-based Learning

Apply for our Industry-based Learning program and gain professional experience with industry placements that count towards your degree.

Bachelor of LAWS (Honours)

COURSE CODE: L3001

Clayton  4.25 years  →  February

Whether you aspire to work in a top-tier law firm, in a multinational corporation or as an advocate for justice, take the first step with Monash Law. Law teaches you how to think critically, analyse complex problems and articulate solutions. These skills are demanded by employers across multiple roles and industries. Monash Law graduates are among the highest-earning and most employable professionals in Australia and around the world.

At Monash, we have the largest range of elective units of any law school in Australia so you can customise your degree and pursue areas of study that you’re passionate about.

Entry requirements

COURSE  ATAR1  IB1  MG

Bachelor of Laws (Honours)  4.25  97  38  94

Double degree 2 with:

- Arts  5  97  38  94
- Biomedical Science  5  97  38  94
- Commerce  5  91.10  38  94
- Computer Science  5  97  38  94
- Criminology  5  97  38  94
- Engineering (Honours)2  6  97.05  38  94
- Global Studies  5  97  38  94
- Information Technology  5  97.65  39  94
- Music  5  97 RC  38 RC  94 RC
- Politics, Philosophy and Economics  5  97.05  38 RC  94 RC
- Science  5  97  38  94

1 The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2021 or an estimate (E). RC – Range of criteria.
2 This course requires a level 3 academic qualification; see monash.edu/study for full details.
3 Only available with some specialisations; see monash.edu/study for full details.

Prerequisite studies

VCE

- English: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

IB

- English: Level 2. For prerequisite subject requirements, please refer to page 46.

Career options

- Barrister, solicitor, legal roles within national, international and boutique law firms, in-house legal counsel in major corporations, non-profits and start-ups across all industries.

Guaranteed clinical placements

At Monash Law, you’re guaranteed the opportunity of a clinical legal education experience. This is your chance to work hand-in-hand with expert lawyers on real cases, handling real clients, and learning how to be a great lawyer. And it all counts as credit towards your Laws degree.
By studying biomedical science, you’ll explore the various body systems and the interactions between organs, tissues, and cells, as well as the complex processes that occur to allow us to function and develop normally. You’ll also learn how disruption of these processes can lead to disease and you’ll gain an understanding of how this knowledge fits into the big picture of human health.

Design your own degree: you’ll complete a specialised program and explore electives based on your interests, in areas like biochemistry, immunology and physiology. You can even choose subjects in business or law, to diversify your degree.

**IB English:** Level 2. Science: Higher score in Chemistry only. For prerequisite subject requirements, please refer to page 46.

**Career options**

Clinical research, dietetics, forensic sciences, government, health education, healthcare marketing, health promotion, nursing, occupational therapy, public health, social work.

---

**Bachelor of MEDICAL SCIENCE AND DOCTOR OF MEDICINE**

**COURSE CODE:** MG011

**Clayton** 5 years → February

Monash is the only Victorian university to offer two entry points for students considering a career in medicine – one directly from school, and a graduate-entry pathway. For school-leaver entry, the first two years are largely campus-based, although some city and rural clinical placements are possible. Interdisciplinary units introduce the basic medical and behavioural sciences of anatomy, biochemistry, genetics, immunology, microbiology, pathology, pharmacology, psychology and sociology.

If you’re considering graduate-entry into Medicine, please go to our website for further information monash.edu/study

- IB English:** Level 1. Maths: Level 1. For prerequisite subject requirements, please refer to page 46.

**Extra requirements**

- Mandatory immunisation requirements
- National Police Records Check (annual requirement)
- Working with Children Check
- Awareness of drugs administration policy relevant to your particular year of study
- Fieldwork/clinical expenses.

**Career options**

Acute hospital care, aged care, community-based care, medical and surgical, mental health, rehabilitation, palliative care, paediatrics and other specialties.

---

**Bachelor of Nursing Scholars Program**

The Bachelor of Nursing Scholars Program has been designed for high-performing students interested in nursing. The point of difference from the Bachelor of Nursing is the additional engagement in an academic support program.
Bachelor of NURSING AND MIDWIFERY (Honours)

**Course Code:** M3007

**COURSE CODE:** Nursing and Midwifery (Honours) 4 91.40 RC 33 RC 82 RC

Prerequisite studies

- VCE: Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL. Maths: Units 1 and 2: satisfactory completion in two units (any subject combination) of General Mathematics, Mathematical Methods or Specialist Mathematics; or Units 3 and 4: any mathematics.

IB

Extra requirements

- Mandatory immunisation requirements
- National Police Records Check (annual requirement)
- Working with Children Check
- Awareness of drugs administration policy relevant to your particular year of study.

Career options

Acute hospital care, aged care, community-based care, mental health, rehabilitation, midwifery (including antenatal, birth and postnatal care).

Bachelor of NUTRITION SCIENCE

**Course Code:** M2001

**COURSE CODE:** Bachelor of Nutrition Science, or Bachelor of Nutrition Science (Scholars Program)

In this course you’ll explore the multi-faceted discipline of human nutrition, gain an appreciation of the broad scope of food in society, develop an in-depth knowledge of nutritional and biomedical science, and understand the role of nutrition in health and disease. As you progress through the course you’ll have the opportunity to undertake a work placement in a nutrition-related industry, work alongside nutrition researchers on a project, or apply for the opportunity to study nutrition overseas at a partner university.

As the only Australian course accredited by the UK Association for Nutrition, our graduates can register and pursue international professional nutrition careers in the UK.

A pathway to graduate studies

Both the Bachelor of Nutrition Science (Scholars Program) and Bachelor of Nutrition Science provide a pathway to our Master of Dietetics which is accredited by Dietitians Australia and enables graduates to apply for accreditation as dietitians.

Entry requirements

**COURSE** | **ATAR** | **IB** | **MG**
--- | --- | --- | ---
Nutrition Science | 3 | 76.50 | 26 | 70
Nutrition Science (Scholars Program) | 3 | 92.10 | 34 | N/A

Prerequisite studies

- VCE: Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL. Science: Units 3 and 4: a study score of at least 25 in Chemistry or Biology.

IB

- English: Level 1. Science: Chemistry or Biology only. For prerequisite subject requirements, please refer to page 46.

Extra requirements

- Working with Children Check.

Career options

Dietetics, food industry, food science, government and non-government agencies, nutrition research, public health nutrition, sports nutrition.

Scholars Program for high achievers

If you’re a high-achieving student, you can apply for access to our Scholars Program, which provides a range of extracurricular opportunities to engage with research staff and guaranteed entry to the 1.5-year Master of Dietetics if you maintain a grade average of 60 per cent or above.

Bachelor of OCCUPATIONAL THERAPY (Honours)

**Course Code:** M3001

**COURSE CODE:** Bachelor of Occupational Therapy (Honours)

Occupational therapists help people participate to their fullest potential in self-care, play, leisure, education, work, sleep or social activities, as well as promote health and wellbeing.

Our course is accredited by the Occupational Therapy Council Limited, and is recognised by the World Federation of Occupational Therapy which can open up doors for you to work in other countries (each country has its own registration requirements for overseas graduates).

Entry requirements

**COURSE** | **ATAR** | **IB** | **MG**
--- | --- | --- | ---
Occupational Therapy (Honours) | 4 | 85.10 | 30 | 78

Prerequisite studies

- VCE: Units 3 and 4: a study score of at least 20 in English (EAL) or 25 in English other than EAL. Maths: Units 3 and 4: a study score of at least 22 in one of Mathematical Methods (any) or Specialist Mathematics, or 25 in Further Mathematics.

IB

- English: Level 1. Science: Level 2. For prerequisite subject requirements, please refer to page 46.

Career options

Addiction services, aged care, early intervention programs, education, ergonomics, hand therapy, mental health, neurology, oncology, orthopaedics, paediatrics, primary health care, private practice, public health, research, palliative care, rehabilitation, vocational rehabilitation/return-to-work.

Did you know?

If you’re a high-achieving undergraduate student, you’ll have the potential to enrol in our Honours research stream, which provides you with the opportunity to engage with research staff and complete a thesis.

A pathway to graduate studies

We offer the only paramedic course from a Group of Eight University. Following the completion of your degree, you’ll have the opportunity to undertake the Master of Specialist Paramedic Practice. Monash University has been a leader in graduate education and training for the intensive care paramedic role, as well as within the field of aeromedical retrieval.

1. The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2021 or an estimate (EAL, RC – Change of eventName).
2. In addition to meeting the VCE English prerequisite, applicants must demonstrate English language proficiency either by providing a written declaration that English is their primary language or evidence that they have achieved the minimum English language test results as specified in the Faculty of Nursing and Midwifery of Australia’s Diploma English Language skills registration standard. Information on this requirement can be found at monash.edu/ib.
3. You’ll need to undertake some online assessments throughout the course. To access these courses you’ll need to download specific software that requires a webcam. If you don’t have a webcam available, you will need to undertake the online assessments on campus or at the computer lab or library.

1. The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2021 or an estimate (EAL).
2. While not prerequisite subjects, it’s recommended that you undertake VCE Units 3 and 4 of at least two of the following: biology, chemistry, geography, health and human development, psychology or physical education. 3. Underage applicants who are unable to meet the mandatory compliance requirements, due to their age by the time of the first placement are not eligible for an offer. Please refer to the mandatory compliance webpage for details.
** Bachelor of PHYSIOTHERAPY (Honours)**  
**COURSE CODE:** M3002  
**Peninsula**  
4 years  
February

Prepare to flourish in one of the most in-demand healthcare professions. A degree in physiotherapy prepares you to work independently or as part of a team of healthcare professionals. You’ll gain the skills to practise as a physiotherapist, using exercise, movement analysis, manual therapy and specialist techniques to restore, improve and promote health. After completing your degree, you’ll be eligible to apply for registration to the Physiotherapy Board of Australia.

**Entry requirements**

- **Course:** Physiotherapy (Honours)
- **ATAR:** 4
- **IB:** 96.20
- **MG:** 37

**Prerequisite studies**

**VCE**  
- **English:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.  
- **Science:** Units 3 and 4: a study score of at least 25 in two of Biology, Chemistry, Mathematical Methods (any), Specialist Mathematics or Physics.  
- **IB:**  
  - **English:** Level 2. **Science/Maths:** two of chemistry, biology, physics or Level 3 maths. For prerequisite subject requirements, please refer to page 46.

**Extra requirements**

- Mandatory immunisation requirements
- National Police Records Check (annual requirement)
- Working with Children Check

**Career options**

Public health, private practice, sports physiotherapy, rehabilitation, paediatrics, research.

** Bachelor of PSYCHOLOGY (Honours)**  
**COURSE CODE:** M3005  
**Clayton**  
4 years  
February

Designed for those with a passion for understanding human cognition and behaviour, this course provides a comprehensive education in human psychology – from normal to abnormal psychology, and from the genetic/molecular level to the individual and group behavioural level. If you successfully complete the first three years (144 points) of the course but don’t meet the academic standard hurdle for the fourth year you’ll graduate with the Bachelor of Psychological Science. You may then apply for other fourth-year psychology programs at Monash, in particular, the Graduate Diploma in Professional Psychology or the Graduate Diploma in Psychology Advanced.

**Entry requirements**

- **Course:** Psychology Honours
- **ATAR:** 4
- **IB:** 87.40
- **MG:** 31

**Prerequisite studies**

**VCE**  
- **English:** Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL.
- **Maths:** Units 3 and 4: a study score of at least 22 in Mathematical Methods (any) or Specialist Mathematics, or a score of at least 25 in Further mathematics.

**IB**  
- **English:** Level 1. **Maths:** Level 2. For prerequisite subject requirements, please refer to page 46.

**Career options**

Clinical research, disease prevention, government services, health planning and management, health promotion, non-government organisations, practice and policy, social work.

** Bachelor of PUBLIC HEALTH**  
**COURSE CODE:** M2012  
**Clayton**  
3 years  
February

From promoting good health, through to preventing disease and managing illness and disability, public health focuses on populations and communities rather than on individuals. This course focuses on developing, implementing and evaluating programs and policies to promote health and prevent disease and injury, as well as undertaking public health research.

**Entry requirements**

- **Course:** Public Health
- **ATAR:** 89.70
- **IB:** 52
- **MG:** 75

**Prerequisite studies**

**VCE**  
- **English:** Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL.  
- **Maths:** Units 3 and 4: a study score of at least 22 in Mathematical Methods (any) or Specialist Mathematics, or a score of at least 25 in Further mathematics.

**IB**  
- **English:** Level 1. **Maths:** Level 2. For prerequisite subject requirements, please refer to page 46.

**Career options**

Clinical research, disease prevention, government services, health planning and management, health promotion, non-government organisations, practice and policy, social work.

** Bachelor of RADIATION SCIENCES**  
**COURSE CODE:** M2017  
**Clayton**  
3 years  
February

Radiation therapy is an exciting and engaging healthcare field that uses ionising radiation for the treatment of cancer and benign conditions. Studying radiation sciences at Monash allows you to combine scientific and technical knowledge with studies in health and patient care, and prepares you for an 18-month graduate master’s program in radiation therapy.

**Specialisations**

- Radiation Sciences
- Informatics – combines radiation sciences with IT application and knowledge

**Entry requirements**

- **Course:** Radiation Sciences
- **ATAR:** 86.40
- **IB:** 51
- **MG:** 80

**Prerequisite studies**

**VCE**  
- **English:** Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL.  
- **Maths:** Units 3 and 4: a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics.

**IB**  
- **English:** Level 1. **Maths:** Level 3. For prerequisite subject requirements, please refer to page 46.

**Extra requirements**

- Mandatory immunisation requirements
- National Police Records Check (annual requirement)
- Working with Children Check

**Career options**

Challenging and fulfilling opportunities await those who successfully complete the program. There’s an increasing demand for adaptable radiation therapists in response to the ageing population, expansion of services in regional Australia, and organic growth of the industry.

**Gain general registration as a radiation therapist**

If you’re interested in becoming a registered radiation therapist through the Medical Radiations Practice Board of Australia (MRPBA), you’ll need to complete additional studies – for example, Monash’s Master of Radiation Therapy. Once you’ve successfully completed this master’s, you’ll then be eligible to register with the MRPBA.

For more information, visit monash.edu/study/courses/find-a-course/2020/radiation-therapy-m6004

1. Students must normally complete 144 credit points and achieve a minimum of a distinction (70 per cent) average in PSY3041, PSY3051, PSY3032 and PSY3062 in order to proceed to the fourth year of study.
2. The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2021 or an estimate (E).
3. Some options may require additional study.
This course is designed to develop expert skills to become a registered radiographer, enabling patient diagnosis and management by using X-rays—containing CT scanning, ultrasound and magnetic resonance imaging (MRI)—to create diagnostic images for analysis and interpretation.

Radiographers are also responsible for implementing best-practice imaging protocols. The program is designed to allow closely related integration between the classroom and the clinical workplace.

---

This advanced version of the Bachelor of Pharmaceutical Science has been tailored for high-achieving students. You’ll learn how to develop reliable, accessible and effective medicinal products, and translate new drug targets into treatments for patients. The third year of the course includes an extended placement in one of our pharmaceutical research groups, which will give you the skills and independence to conduct a substantial research project in your fourth (honours) year.

Community pharmacy, government, hospital pharmacy, pharmaceutical industry, public health, regulatory bodies, research and clinical trials.
Bachelor of
APPLIED DATA SCIENCE

We live in a time where information and knowledge have never been more abundant. The decisions that shape our future will rely on graduates who can extract meaning from large volumes of data and transmit it to community and industry leaders.

The Bachelor of Applied Data Science is a program of study that equips you with the skills necessary to provide solutions to a wide range of problems. You’ll bring together key skills in information technology and mathematics, and apply these to real-life projects.

This unique blend of skills will empower you to apply data science to a wide range of industries, making you a highly desirable problem-solver.

Entry requirements

COURSE ATAR IB MG
Applied Data Science 3 84-40 30 75

Prerequisite studies

VCE
English: Units 3 and 4: a study score of at least 27 in English (EAL) or 25 in English other than EAL. Maths: Units 3 and 4: a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics.

IB
English: Level 1. Maths: Level 3. For prerequisite subject requirements, please refer to page 46.

Career options

Business intelligence analyst, data architect, data mining engineer, data scientist.

Bachelor of
APPLIED DATA SCIENCE ADVANCED (Honours)

We live in a time where information and knowledge have never been more abundant. The decisions that shape our future will rely on graduates who can extract meaning from large volumes of data and transmit it to community and industry leaders.

The Bachelor of Applied Data Science is a program of study that equips you with the skills necessary to provide solutions to a wide range of problems. You’ll bring together key skills in information technology and mathematics, and apply these to real-life projects.

The advent of big data is creating the need for a unique set of skills. This advanced program is designed to equip you with the necessary skills to provide solutions to a wide range of problems. This four-year specialist course will develop your technical know-how in approaching these challenges. A new and specially designed stream of units will harness core skills in data science and mathematics for a series of authentic, interdisciplinary problem-solving challenges.

From the first year of the course, you’ll also complete a series of studio-based units where you’ll apply the knowledge you’ve developed to real-world projects. In the final year, you’ll synthesise the knowledge acquired during the program in an individual research project.

ADMISSIONS AND APPLICATIONS

HOW TO APPLY

Semester 1 entry – apply through VTAC

If you’re aiming for semester 1 entry into undergraduate courses at Monash, you must apply via the Victorian Tertiary Admissions Centre (VTAC) at www.vtac.edu.au, unless specified in this course guide. VTAC applications open in August each year.

Semester 2 entry – apply to Monash University

If you’re applying for mid-year entry, you must apply directly to Monash.

Requirements

To be considered for an undergraduate course, you need to meet Monash’s entry and course-specific requirements, as well as the English language minimum prerequisites. Some parts of these, such as VCE study scores and extra requirements, are subject to change, so check the Monash website for the most up-to-date information on the course for which you’re applying. Meeting the minimum requirements doesn’t guarantee entry to a course, as there may be more applicants than places available.

monash.edu/study

FEES

We’re committed to providing you with an ever-evolving, modern, student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.

We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities. We embrace the opportunities offered by technology and innovation, and embed them in our teaching, in order to prepare you for any career you pursue, including those that aren’t yet created.

Our blended learning environment – physical, digital and virtual – prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underlines our philosophy that the Monash experience extends far beyond university.

In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitor pricing. We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs mirror the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

Commonwealth Supported Places

In the Australian higher education system, Australian citizens, New Zealand citizens and Australian permanent visa holders who undertake a course of study in Australia are considered domestic students and are eligible for a Commonwealth Supported Place (CSP).

A CSP is a subsidised enrolment where the government pays for part of your course and you only have to pay the Student Contribution Amount (SCA).

Each unit of study is classified into a student contribution band, depending on the study area of the unit (this may be different from the study area of your course). The amount you pay for your unit of study is usually the maximum allowed by the government for that band.

Eligible CSP students may use a HECS-HELP loan to pay for all or part of the SCA.

monash.edu/enrolments/government-loans/commonwealth-supported-place

Student Services and Amenities Fee (SSAF)

Students enrolled at Monash University in a CSP are also charged a Student Services and Amenities Fee (SSAF).

In 2021, the maximum SSAF was $313; this fee may differ in 2022.

Eligible students may use a SA-HELP loan to pay for all or part of the SSAF.

monash.edu/fees/fee-types/amenities
ACADEMIC PREREQUISITE LEVELS

All Monash undergraduate courses require you to have previously studied and achieved required standards in certain specified subjects.

1. Duration is based on a standard full-time load of 48 credit points per annum.
2. Science approved for VCE Biology, Science, Environmental Systems and Societies (SESS), Further Mathematics (4 unit), Geography, Mathematics, Mathematics Analysis and Approaches (4 unit), Mathematics Applications and Interpretations (5 unit), and Physics (5 unit).
3. Indicative – The scores provided are to be used as a guide only, and are either the lowest selection rank or a vehicle to which a specified score is added (e.g., 30+ in VCE or an equivalent 5) for Science, or other criteria applied to the listed, the overall QCE (or an equivalent 5) for Science, or other criteria applied to the listed.
4. Study of English language may be required, depending on your choice of double degree.
5. This guarantee does not apply to the Laws pathway, which requires an ATAR of 90+.
6. When taken as part of a double degree, the location will be at Clayton.
7. The Bachelor of Education (Honours) is an accelerated course where you must complete the standard annual load of 48 credit points per year in two and/or three years in order to complete the course in three calendar years.
8. The accelerated master's pathway is not available for all specializations. Please see monash.edu/ke/for more information.
9. The Bachelor of Laws (Honours) is an accelerated course where you must complete the standard annual load of 48 credit points per year in two and/or three years in order to complete the course in three calendar years.
10. The third part of this course is Semester 3, and it requires a minimum ATAR of 75.

DOUBLE YOUR OPTIONS WITH A DOUBLE DEGREE

A Monash double degree course allows you to study towards two degrees at the same time.

What is a double degree course?
Monash offers two types of double degrees: a double undergraduate degree and an undergraduate/graduate double degree. A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. You’ll be awarded with two testamurs, one for each degree completed.

Double undergraduate degree
How long does it take?
A double undergraduate degree course takes two years less to complete than studying towards the two degrees separately. This is because the required units in one course count as electives in the other. For example, if you decide to take a Bachelor of Engineering (Honours) and a Bachelor of Commerce, if you take five years instead of seven. Therefore, you would take all the common core units for engineering as well as your 18 units of specialisation. You’ll also take all the prescribed core units in commerce as well as eight units that make up your commerce major. So not only will you save two years of time, you’ll also save two years of course fees.

Sample course map
Year 1
Semester 1 | Engineering | Engineering | Engineering | Engineering
Semester 2 | Engineering | Engineering | Commerce | Commerce
Year 2
Semester 1 | Engineering | Engineering | Engineering
Semester 2 | Economics | Engineering | Commerce | Commerce
Year 3
Semester 1 | Engineering | Engineering | Engineering
Semester 2 | Economics | Economics | Economics | Economics
Year 4
Semester 1 | Engineering | Engineering | Engineering
Semester 2 | Economics | Economics | Commerce | Commerce
Year 5
Semester 1 | Engineering | Engineering | Engineering
Semester 2 | Engineering | Engineering | Commerce | Commerce

Bachelor’s/master’s double degree courses
Some double degree courses incorporate both an undergraduate and graduate element. After five years you’ll graduate with both a bachelor’s and a master’s degree. These courses, covered entirely by Commonwealth Supported Place (CSP) funding, are:

+ Bachelor of Medical Science and Doctor of Medicine
+ Bachelor of Pharmacy (Honours) and Master of Pharmacy.

In addition, the Bachelor of Arts (page 20) and the Bachelor of Engineering (Honours) (page 30) offer accelerated master’s pathways that enable you to complete an expert master’s course with only one further year of study.

Sample course map – double arts bachelor’s/arts master’s accelerated pathway

Year 1
Semester 1 | Arts Major | Arts Minor 1 | Arts Elective 1 | Elective
Semester 2 | Arts Major | Arts Minor 2 | Arts Elective 2 | Elective

Year 2
Semester 1 | Arts Major | Arts Minor 3 | Arts Elective 3 | Elective
Semester 2 | Arts Major | Arts Minor 4 | Elective

Year 3
Semester 1 | Arts Major | Arts Major | Master Part B | Master Part B
Semester 2 | Arts Major | Arts Major | Master Part C | Master Part C

Year 4
Semester 1 | Master Part D | Master Part D |
Semester 2 | Master Part E | Master Part E |

Entry requirements
Some double degree courses may require you to study across two campuses in order to complete your course. To be eligible for admission to a double degree course, you’ll need to meet the academic entry requirements for both single degree courses. For example, if you’re applying for the Bachelor of Laws and Bachelor of Music double degree, you’ll need to satisfy the subject prerequisites for both courses as well as any range of criteria requirements that apply for either of the courses. The back tables in this brochure provide a guide to the overall score, or an estimate, required for admission in 2020. All scores are to be used as a guide only. See page 52 for full entry requirements.

1 Available only with the industrial design specialisation.
2 Available only with the formulation science specialisation.
**DO double degree courses at a glance**

Monash University has the largest offering of double degrees in Australia.

For admission to double degree courses, generally the higher requirements for the two component single degree courses is a good indicator of the likely requirements for the double degree course. Where there’s a range of criteria for one of the component courses, these criteria will still apply to the double degree course.

In each case you should expect to meet the entry level of each of the single degree courses. Some double degree courses may require you to study across two campuses in order to complete your course.

8 The Bachelor of Laws Honours is an accelerated course where you’re required to undertake more than the standard annual load of 40 credit points in your second year in order to complete this double degree course in five calendar years.
9 The Bachelor of Arts Honours is an accelerated course where you’re required to undertake more than the standard annual load of 40 credit points in your second year in order to complete this double degree course in five calendar years.
Universities use some words you might not be familiar with. So to make sure nothing is lost in translation, we’ve put together a list of explanations.

**Prerequisites**
Previous study or other criteria required to gain admission into a particular course or unit.

**Undergraduate course**
The first level of tertiary studies at university, including diploma or bachelor degree courses.

**Units**
Subjects that make up your course are known as units.

**Elective**
A unit where you choose what unit to study. The choice may be from a specified list of units, or it may be a free elective where you can choose any unit within Monash providing you have the necessary entry requirements and there are no restrictions on enrolment in the unit.

**Degree**
The academic title you get when you complete a course of study. For example: Bachelor of Arts, Master of Business.

**Double degree courses**
Two courses studied concurrently with required units in one course being counted as elective units in the other. A double degree takes fewer years to complete than if you studied one after the other.

**Comprehensive course**
These courses allow you to select from a wide range of subjects within a broad field of study. You have the option to choose your major immediately or later, and you'll try a range of subjects in your first year before narrowing your focus in year two – while still having the opportunity to try new things – before finally committing to your major area of study.

**Major**
The main area of study chosen in a comprehensive course, study in a single discipline, totalling 48 credit points (eight units) taken sequentially over three years. You don’t need to declare your major when you enrol.

**Extended major**
An extended version of your major requiring you to study 72 credit points (12 units) over three years.

**Minor**
Study in a single discipline, totalling 24 points (four units).

**Specialist course**
A structured course usually focused on developing the knowledge and skills needed for professional practice in a specific field or profession.

**Specialisation**
Taken in specialist courses, a specialisation is a minimum of 12 units in a particular discipline, and provides an in-depth education in your chosen field. You must choose your specialisation when you enrol.

**Honours**
Honours may be an extra year of study at the end of your undergraduate degree. All of our four-year undergraduate courses include honours in their structure.

**Graduate courses**
Further study completed after you graduate with a bachelor’s degree.
