DEVELOP YOUR ADVANCED NURSING SKILLS

This masters course will provide you with expertise and skills for roles in management, education and disaster nursing and with Commonwealth Supported Places available, there’s never been a better time to further your nursing career.

Develop advanced practice knowledge and leadership in specialist practice including skills to plan, implement, coordinate, and evaluate health care, as well as the ability to formulate policy for a diverse and multicultural society. Graduates are employed in a range of general and specialist clinical, educational and healthcare environments in senior positions and contribute to the health of individuals, families and communities.

Specialisations:
- Advanced nursing
- Disaster nursing
- Nursing education
- Nursing leadership and management

In the Master of Advanced Nursing you will:
- Be prepared for leadership roles in management, education, and disaster nursing
- Develop advanced practice knowledge and leadership in specialist practice
- Gain skills to plan, implement, coordinate and evaluate health care
- Develop the ability to formulate policy for a diverse and multicultural society.

COURSE STRUCTURE

**SPECIALIST NURSING PRACTICE STUDIES**

**PART A** - These studies draw on best practices within your chosen nursing specialisation for the development of advanced knowledge and skills.

**RESEARCH AND ADVANCED SCHOLARLY PRACTICE**

**PART B** - The focus of these studies provides you with the opportunity to pursue advanced specialist study in your chosen specialisation through either coursework or a research focus.

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma in Advanced Nursing if the award requirements have been met.

Visit monash.edu/study/course/m6006 to see what you’ll learn in the Master of Advanced Nursing.

“Since completing the nursing education specialisation, I feel my clinical practice has benefited, I have become more analytical and my critical thinking skills have improved. I am able to understand how important current research is in the field of nursing.”

Cedric Saldanha
Master of Advanced Nursing - Nursing Education graduate (2020)
ELECTIVES

As part of this Master’s degree, you’ll have the opportunity to customise your degree around your interests, with a choice of electives. You can pick nursing electives, or even units from another area of study (with the permission of the course convenor).

Explore a list of approved electives at handbook.monash.edu/current/courses/M6006

If you’re studying the on-campus mode, you’ll attend your nominated campus during Part A, and then attend both the Clayton and Peninsula campuses for Part B.

RESEARCH PATHWAY

Monash is recognised globally for research excellence. As part of the Master of Advanced Nursing, you may have the opportunity to work on a nursing research project, with one of our expert supervisors. Completing this can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.

WHY CHOOSE MONASH?

- Content developed and delivered by recognised experts
- Flexible learning delivery modes – study on campus or online
- Study by all coursework or combine coursework and a minor thesis
- Specialisations and elective units allow you to meet your career aspirations
- Network with like-minded nurses wanting to advance their careers
- Ranked #15 in the world for Nursing (QS World University Rankings 2021)
- COMMONWEALTH SUPPORTED PLACES (CSP) AVAILABLE - this means your fees could be partially covered by the Federal Government
