

UNPAID INTERNSHIP APPOINTMENT AND CONDITIONS PROCEDURE

SCOPE

Undergraduate and postgraduate students.

PROCEDURE STATEMENT

Monash University offers unpaid Internships to undergraduate or postgraduate students who are required to undertake a work experience placement as part of the curriculum of their course. The Internship is offered as a work experience placement only. The Intern will receive no payment for performing any work during the Internship and will not for any purpose become a staff member of Monash University ('us', 'our' or 'we') as a result of undertaking the Internship.

The Internship is to be for no more than the maximum period as required by the curriculum of the course and during the unpaid placement students will be given practical experience, relevant to their course of study, in a work environment to gain practical knowledge in a range of professional duties and will be supervised by professional staff.

1. Objectives

1.1 When considering offering an Internship placement the following basic principles apply:

- The objectives of the program include encouraging undergraduate or postgraduate students to experience a range of contemporary issues in their area of study through practical work experience activities.
- Students undertaking an Internship are expected to gain valuable work experience in their chosen field of study under the guidance of the supervisor.
- Internships should only be made available in departments where students are likely to have significant opportunities to practice professional workplace skills and to gain an increased understanding of work principles and practices.

2. Expected student outcomes

2.1 The Internship should provide the opportunity for students to:

- gain insights into the general organisation and operation of a typical work environment in their field of study;
- apply theory to practice in a practical and disciplined manner;
- develop capacity to initiate their own professional activities, including the ability to seek feedback and supervision effectively;
- develop an understanding of professional work goals and practice;

3.4 The Interns are to confirm with their home university that appropriate personal accident insurance and public liability insurance are held, covering bodily injury or property damage, whilst participating in the Internship.

3.5 Interns are responsible for arranging their own travel and accommodation throughout the duration of the placement.
