1 Introduction

1.1 Overview

This report summarises the methodological aspects of the third Australian Social Cohesion Survey funded by the Scanlon Foundation and undertaken by a consortium involving the Scanlon Foundation, Monash University and the Social Research Centre. The 2010 Social Cohesion Survey builds on the success of both the inaugural 2007 and of the 2009 survey.

This report provides:

- a detailed record of survey procedures;
- commentary and analysis on the efficacy of the survey procedures; and
- aims to consolidate assorted project information.

The report is structured as follows:

- Section 2 provides details of the sampling process and call procedures;
- Section 3 provides an overview of the questionnaire design and testing process;
- Section 4 details interviewer training and quality control procedures;
- Section 5 reviews the call results, response rate and the efficacy of the call procedures; and
- Section 6 details data preparation procedures.

Detailed reports, source documents and reference information are appended.

1.2 Project background

The Social Cohesion Survey forms part of the Scanlon Foundation Social Cohesion Research Program (SCRP). The SCRP commenced in 2007 with a six project program under the direction of the Monash Institute for the Study of Global Movements (MISGM) and the Australian Multicultural Foundation (AMF). The initial six project program, funded by the Scanlon Foundation, was completed in 2007. A key aspect of the SCRP was the conduct of a landmark Australian Social Cohesion Survey in 2007.

The aims of the 2010 survey were to:

- look at current attitudes towards social cohesion, and
- assess changes over time by comparing results obtained in 2010 to those obtained in both 2009 and in 2007.
1.3 Survey overview

As with the previous surveys, the in-scope population for the Social Cohesion Survey 2010 was persons aged 18 years and over who were residents of private households in Australia. Data collection was by Computer Assisted Telephone Interviewing (CATI).

The 2010 survey followed the model introduced in 2007, that is a national survey of 2,000 adults (aged 18 years and over), stratified by state/territory and capital city / non-capital city. Local level surveys were not completed in this survey, unlike the 2009 survey.

Due to advances in sampling technology, the sampling frame for 2010 was slightly different from the previous surveys. In 2010, sample was obtained from the company Sampleworx. This company has the technology to generate and test all possible numbers within an exchange block. The number is confirmed to be either working or not working by sending a signal to the exchange rather than to the number itself (see section 2.2 for further discussion). This method of sampling ensures that the number of unproductive numbers in the sample are greatly reduced, thus providing efficiency in the use of the sample overall.

Approach letters introducing the survey were mailed to all households where randomly generated telephone numbers could be matched to a confirmed address.

Respondents were selected using the “next birthday” method and a range of strategies were adopted to maximise response, including repeated call backs to establish contact, the operation of a 1800 number by the Social Research Centre, and interviewing in languages other than the English (LOTE).

Table 1 provides a summary of project statistics. The interview length is longer than the previous studies as the 2010 survey included more questions. It should also be noted that, towards the end of the 2010 fieldwork period, a change of Prime Minister occurred – on the 24th June Julia Gillard replaced Kevin Rudd as Prime Minister.

2. Sample Design & Survey Procedures

2.1 Sample design

The 2010 Survey was a repeat of the 2007 National Benchmarking Survey and used a random sampling methodology stratified by geographic location. The sample was stratified by state / territory, with a minimum quota of 200 interviews per state / territory to be achieved (i.e. a sub-total of 1,600 interviews). The remaining 400 interviews were allocated across the five most populous states (NSW, Vic, Qld, WA and SA) on a probability proportional to size basis. The interviews in each state were allocated to Capital City / Rest of State in proportion to the population. This approach ensured that the final sample composition was geographically representative of the Australian adult population while, at the same time, ensuring a sufficiently large sample in each state/territory to support analysis at that level.

2.2 Sample generation

The sample for the survey was generated using the company Sampleworx and their generation of random digit dialling (RDD).

Sampleworx offers a technology-based, as opposed to a list-based, solution to the generation of working landline random digit dial numbers. The building block for the Sampleworx product is the Australian Communications and Media Authority (ACMA) exchange prefix listing (not a directory listing). All possible numbers within an exchange block are generated and tested (i.e. confirmed as working or non-working phone numbers) by sending a signal to the exchange rather than having to send a signal down the line to the number itself. This means that all working numbers across all ACMA exchange blocks are identified and included in the sample frame. Each number generated is assigned a “best estimate” postcode, based on exchange district and charge zone, which can be used for apriori allocation of numbers to a geographic stratum.

The main advantage of the Sampleworx approach is that it is exchange-based, and that working telephone numbers have been pre-identified, leading to a higher connection rate and improved fieldwork efficiency.

A total of 10,643 records were randomly selected from Sampleworx. These numbers were matched against current address information held by commercial list providers. Table 2 (column C) shows the Sampleworx address match rate was 55% and Column E shows that an up-to-date address listing could be obtained for 43% of the numbers generated. These are the records (n=4,539) which were sent a primary approach letter. This equates to 38% more letters sent using Sampleworx sample than in 2009 when we used the traditional “list based” RDD method.

For those records that could not be sent a primary approach letter in advance, letters were available upon request (and additional information was available via the Social Research Centre’s web-site and 1800 number).

### 2.3 Primary Approach Letter

The approach letter, on Monash University letterhead, addressed to “The Householder”, was the same version used in the 2009 and 2007 surveys, and was sent to all records for whom an up-to-date address could be sourced (see Appendix 6). The main body of letter was in English, with translated summaries on the reverse side (Arabic, Turkish, Simplified Chinese and Vietnamese). These languages were chosen as they are the most commonly spoken languages nationally.

The approach letter introduced the survey, encouraged participation and provided telephone numbers, email addresses and website details to sample members to assist with query resolution.

As part of the data collection procedures arrangements were put in place to send (additional) approach letters to sample members upon request. In such cases a letter was dispatched to the household the next day and an appointment made to call back the household in 5 days. In total, 18 approach letters were e-mailed as a result of this process.

No action was taken for return-to-sender approach letters on the basis that the telephone number associated with that address may still be active and should be called regardless of whether or not the approach letter reached the intended household.
2.4 Scope status and respondent selection

The in-scope population for the 2010 Survey was the non-institutionalised population of Australia aged 18 years or over. As such the in-scope population excluded:

- Residents of institutional quarters (prisons, nursing homes, etc) and military bases;
- Persons incapable of undertaking the interview due to a physical or mental health condition (including too old / frail);
- Persons under the influence of drugs or alcohol,
- Non-English speaking persons outside of the six target LOTE communities targeted for this survey (see Section 2.6), and
- Households with no person aged 18 years or over in residence.

The next birthday method was used to select the person 18 years or older in the household to be interviewed. No substitution of individuals within households was allowed.

2.5 Call procedures

A 15-call protocol was used for the study, whereby up to six attempts were made to establish contact with the selected household, and upon making contact, up to a further nine attempts were made to achieve an interview with the selected respondent.

This call regime was adopted to help improve the representativeness of the achieved sample. Previous experience suggested that the representation of groups such as young persons, males and working persons is improved by using an extended call cycle.

Initial contact attempts were made between 4.30 pm and 8.30 pm on weekdays, and 10.00 am and 4.00 pm on Saturdays and 11.am and 4.00pm on Sundays. Appointments were made for any time within the hours of operation of the call centre.

2.6 Procedures for interviewing in languages other than English

Non-English language interviewing was limited to the six most commonly spoken community languages nationally: Vietnamese, Chinese (Cantonese and Mandarin), Italian, Greek, Arabic (inc. Lebanese) and Turkish.

Where the preferred language of interview of the selected sample member was identified as one of those for follow up, initially these records were stockpiled until a reasonable workload for a bi-lingual interviewer was reached.

Where the preferred language could not be immediately identified a call-back was made in the hope that another household member may be available to assist with the request for interview. Where the preferred language was not one of the six target languages, the record was assigned the code “language difficulty, no follow up” and no further call attempts were made.

Bi-lingual interviewers annotated their own questionnaires (one for each target language) with key words and concepts translated. Bi-lingual interviewers then read the questions from their hard copy
translated / annotated version of the questionnaire and recorded answers directly into the English language CATI script as normal.

A total of 36 interviews were conducted in one of these six languages, a similar proportion as collected in the national survey in 2009 (27 LOTE interviews).

2.7 Leaving messages on answering machines

A pre-scripted messages was left on answering machines if there had been no previous ‘personal’ contact made with a household. Refer questionnaire at Appendix 4 for the full message script.

The CATI system automatically scheduled a call back in six day’s time the first time such a message was left and for five days hence on the second such occasion.

Messages were not left on answering machines in any other circumstance.

2.8 1800 number operation

Monash University provided a telephone number that respondents could call to verify the survey and find out additional information about why the survey was being conducted. The Social Research Centre operated a 1800 number throughout the study period to handle any questions about participation in the survey (setting an appointment time, requesting an interpreter, refusing to participate etc.).

2.9 Sundry response maximisation procedures

In addition to providing a 1800 number, offering to send an introductory letter and arranging for interviews in the agreed languages, the other response maximisation procedures that applied to the project included:

- Referring sample members to the Monash University number on an “as required” basis;
- Hosting a web-page containing responses to frequently asked questions on the Study for Global Movements (Monash University) website; and
- Ensuring appropriately trained interviewers worked on the survey (see also Section 4.2).
3. Questionnaire Design

3.1 Questionnaire overview
The questionnaire for the Social Cohesion 2010 survey largely reflected the content of the 2009 survey with deletions and additions summarised in Appendix 2. The main change to the 2010 questionnaire was the inclusion of Module G which focussed on future population growth in Australia.

3.2 Questionnaire pilot testing
A pilot test comprising 30 interviews was undertaken. A multi-stage approach to pilot testing was adopted with 15 interviews completed on 27th May followed by minor questionnaire revisions. A further 15 confirmatory interviews were conducted on 28th May.

Standard operational testing procedures were utilised to ensure the CATI script truly reflected the agreed “hard copy” questionnaire.

Sequencing, order, wording amendments and question deletions to the draft questionnaire were agreed throughout the pilot testing process. Please refer to Appendix 3 for a detailed list of issues raised during pilot testing. The final main study questionnaire is provided at Appendix 4.

Pilot test data was not included in the main data set.
4. Data Collection & Quality Control

4.1 Ethical consideration

The questionnaire and survey methodology were approved by the Monash University ethics board (project number 2007/0319).

Other ethical considerations for the Social Cohesion Survey included:

- Ensuring informed consent
- Ensuring the voluntary nature of participation was clearly understood, and
- Protecting the privacy and confidentiality of respondent information.

Safeguards regarding the above were covered by the Social Research Centre’s contract with Monash University and by the appropriate privacy laws. In addition, the Social Research Centre is bound to adhere to ASMRO Privacy Principles and the AMSRS Code of Professional Behaviour.

4.2 Field team briefing

All interviewers selected to work on the Social Cohesion Survey attended a comprehensive briefing session which covered:

- Project background, objectives and procedures
- All aspects of administering the survey questionnaire, including specific data quality issues
- Overview of respondent liaison issues, including refusal avoidance techniques, and
- Practice interviewing.

The briefing sessions were delivered by the Social Research Centre project manager and supervisory staff. A total of 40 interviewers were briefed.

Consistent with the “specialist team” policy for the Social Cohesion survey, just under two thirds of the interviewing (62%) was completed by 14 members of the interviewing team. The briefing notes are provided at Appendix 5.

Additional briefing procedures for LOTE interviewing also covered:

- Establishing scope status;
- Tone and delivery;
- Reviewing the questionnaire for instances where word-for-word translations may lose their exact meaning or context.
4.3 Fieldwork quality control procedures

The in-field quality monitoring techniques applied to this project included:

- Validation of interviews in accordance with ISO Standard 20252;
- Maintenance of an “interviewer handout” document addressing respondent liaison issues and tips for refusal avoidance;
- Examination of verbatim responses to “other specify” questions; and
- Monitoring (listening in) by the Social Research Centre project managers and departmental supervisors.
5. Call Results & Analysis of Response

5.1 Call results

A total of 41,436 calls were placed to achieve 2,021 completed surveys. This equates to an interview every 20.5 calls and average of 4.5 calls per sample record.

The most commonly occurring call outcome was no answer (40.5%), and there were also a high number of soft appointments (19.7%) which were made but unable to be resolved before the end of fieldwork.

</table>

* Consists mainly of ill health / disability / unable to do survey
Table 4 shows the final call results for the survey. As can be seen, an interview was achieved at just over a fifth (21.8%) of number to which calls were initiated. Just less than a quarter of the numbers (23.9%) were unusable. Just over a quarter (27.2%) were unresolved at the end of the call cycle (non-contacts or unresolved appointments) and 6.0% were indentified as out of scope. Refusals were encountered at a fifth (20.9%) of the numbers to which calls were initiated.

5.2 **Response rate**

For the purposes of this report, and to enable comparisons with 2007 and 2009, the response rate has been defined as interviews as a proportion of interviews plus refusals. On this basis the final overall response rate for the 2010 survey was 51%, a direct comparison with the 2009 national survey and a substantial improvement on the 2007 survey response rate of 44%.

The highest response rates were achieved in Western Australia (69%) and the ACT (62%) followed by Tasmania (55%).

</table>

*Note 159 cases were not given a postcode and so were not included in this analysis

5.3 **Review of call cycle**

As was the case in the previous surveys (2007 and 2009) an extended call cycle (i.e. 15 calls) was used for the Social Cohesion Survey in order to ensure as representative a sample as possible was achieved.

The value of this extended call cycle (a six call cycle being more typical) is evident from the results presented in Table 6 which shows that 12% of interviews were achieved on the seventh or more interview attempt. Importantly, the extended call cycle also improved the representation of persons aged 18 to 34 years and those in employment. A similar pattern was apparent in both 2007 and 2009.

5.4 Achieved sample profile

Table 7 compares the achieved sample profile (using unweighted data) with that of the general population (based on 2006 Census data). It can be seen there is a skew towards older people. There is also a skew towards females and tertiary educated respondents. These results are consistent with other like surveys conducted by the Social Research Centre. All of these factors were taken into account in the weighting procedure (refer to Section 6.2).

¹ Age, gender and birth place figures taken from ABS 2006 Census data. Employment status taken from ABS July 2007 Labour Force publication and educational attainment taken from ABS Work May 2006 Education and Work. Please note that the latter two publications include Australians aged 15 years or more. Also note that the weighting for the 2010 survey used more up-to-date (2009) population statistics from the ABS rather than the 2006 Census data.
5.5 **Reason for refusal**

Reason for refusal was captured, wherever possible, from either the phone answerer (household refusal) or the selected sample member (respondent refusal).

As can be seen at Table 8, of those cases that had a reason for refusal recorded, the main reasons were; “too busy” (54%), “no comment / just hung up” (20%) and “not interested” (20%).

6. Data Outputs & Reporting

6.1 Treatment of responses to open ended / other specify questions

Code frames, with details of proposed extensions (for questions with "other specify" option) and back coding rules, were developed by the Social Research Centre. To enable comparison over time, coding rules and extensions were consistent with those developed for the 2009 and 2007 surveys.

6.2 Weighting

For the 2010 survey data a “rim weighting” approach was used to adjust for differential survey response rates across age, gender and educational attainment and, where necessary, to also adjust for disproportionate aspects of the sample design (e.g.: disproportionate geographic distribution). Where possible, proportions were taken from the 2009 ABS population statistics rather than the 2006 data used in the previous surveys.

“Rim weighting” was used to create weights which adjusted the data in-line with Australian Bureau of Statistics counts on these variables. The weights are created using a statistical regression approach which seeks to achieve the “best fit” possible with the population proportions specified by the weighting variables while disturbing the overall data as little as possible.

The algorithm used for this purpose was provided in the Social Research Centre’s Quantum analysis software to develop sample weights which incorporate the variables state, age, gender, country of birth and educational attainment. These weights were applied to all data prior to reporting and have been included in the electronic data files provided as outputs from the survey.

Appendix 1 provides the population matrices used for weighting purposes and the differences between 2010 and the previous surveys. Detailed explanatory notes on the weighting process were previously supplied to Monash University and the Scanlon Foundation in the 2009 technical report.

6.3 Data file provision

The Social Research Centre provided two clean SPSS data files – one for the 2010 data and one showing the data from all surveys (2207/2009/2010). The data files included several derived variables:

- ASGS – postcode data in concordance with the Australian Statistical Geography Standard published by the ABS
- SEIFA – postcode data in concordance with the index of relative socio-economic disadvantage, created from ABS census data.
- Diverse – A postcode index developed by the SRC to indicate the number of immigrants living in a particular area compared with other areas in Australia.

It should also be noted that State and postcode variables reflect responses provided during the interview and therefore final numbers in each State vary slightly from the original quotas set (as quotas were deemed to be met based on the \textit{apriori} allocation of records to States / Territories).

Appendix 4: Final Questionnaire
Appendix 4: Main survey questionnaire

Social Cohesion Research Program

2010 SURVEY – Version 7.0 (Final v2)

Questionnaire Structure

Modules

Screening and Introduction
A: Economic
B: Voluntary work and political
C: Socio-Cultural
D: Discrimination
E: Reflective
F: Neighbourhood
G: Future Growth (NEW 2010)

Demographics

Call outcome codes (SMS screen) (no change from 2009)

1. No answer
2. Answering machine (no message left)
3. Answering machine (left message 1)
4. Answering machine (left message 2)
5. Fax machine / modem
6. Engaged
7. Appointment
8. Stopped interview
9. LOTE – No follow up
10. Named person not known
11. Telstra message / Disconnected
12. Not a residential number
13. Too old / deaf / disabled/health/family reasons
14. Claims to have done survey
15. Away for duration
16. (SUPERVISOR USE ONLY) Refused prior (eg. phoned 1800 number to refuse participation after receiving letter)
17. Remove number from list
INTRODUCTION

*(ALL)
Intro   Good morning/afternoon/evening. My name is (...) and I am calling on behalf of
Monash University researchers from the Social Research Centre.

We’re conducting an important study on the attitudes of Australians. The results
from the survey will be used to get a better understanding of life in Australia.

1  Continue
2  HH LOTE - Cantonese, Mandarin, Vietnamese, Italian, Greek, Arabic, Lebanese, Turkish
   (language follow up) (GO TO LOTE)
3  HH LOTE – Other language identified (no language follow up) (RECORD ON SMS)
4  HH LOTE – Language not identified (make appointment) (RECORD ON SMS)

S1   Most households will have received a letter from Monash University about the study. As
     the letter says, to help with this important study we’d like to arrange a short
     interview with the person aged 18 or over who is going to have the next birthday.

     May I speak to that person please?

1  Start survey (GO TO S2)
2  Stop interview, make appointment (RECORD NAME AND ARRANGE CALL BACK)
3  Household refusal (ATTEMPT CONVERSION / RECORD REASON) (GO TO RR1)
4  HH LOTE - Cantonese, Mandarin, Vietnamese, Italian, Greek, Arabic, Lebanese, Turkish
   (language follow up) (GO TO LOTE)
5  HH LOTE – Other language identified (no language follow up) (RECORD ON SMS)
6  HH LOTE – Language not identified (make appointment) (RECORD ON SMS)
7  Queried about how telephone number was obtained (DISPLAY ATELQ)
8  No one in household over 18 (TERM1)
9  Wants a copy of the letter (ALET)
10  Return to SMS

**(SELECTED RESPONDENT)**

S2   REINTRODUCE AS NECESSARY

This interview should only take about 15 minutes and all information you give us will
be strictly confidential. Participation in this study is voluntary and you can stop the
interview at any time. If you have any concerns I can give you contact names and
numbers.

[READ OUT CONTACT DETAILS IF REQUESTED]

Questions about who is conducting the study and how your telephone number was
obtained - The Social Research Centre, ph: 1800 023 040
Concerns or complaints about how the study is being conducted – Monash University
ethics Project Number: (2007/0319), ph: 03 9905 5490, Email:
muhrec@adm.monash.edu.au
Questions about the purpose of the research and why it is being conducted –
Professor Andrew Markus, Tel: 03 9903 5009, Email:
Andrew.Markus@arts.monash.edu.au

Is it convenient to talk now or would you like to make an appointment?

1 Continue   (GO TO S3)
2 Appointment   (MAKE APPOINTMENT)
3 Respondent Refusal   (GO TO RR1)
4 QR LOTE - Cantonese, Mandarin, Vietnamese, Italian, Greek, Arabic, Lebanese, Turkish (language follow up) (GO TO LOTE)
5 QR LOTE – Other language identified (no language follow up) (RECORD ON SMS)
6 QR LOTE – Language not identified (make appointment) (RECORD ON SMS)
7 Queried about how telephone number was obtained (DISPLAY ATELQ)
8 Wants a copy of the introductory letter (ALET)

*(ANSWERING MACHINE SCRIPT)
ANSM1.Good morning/afternoon/evening. My name is <…> calling on behalf of Monash University from the Social Research Centre.
We are telephoning households across Australia to conduct an important study about life in Australia.
If you would like to participate in this study, please call our hotline number: 1800 023 040 and we will call you back at a time that is convenient to you. Thank you.”
*PROGRAMMER NOTE: SET AS APPOINTMENT FOR TIME OF CALL PLUS 5 DAYS PLUS 1 HOUR

*(ANSWERING MACHINE SCRIPT)
ANSM2.Good morning/afternoon/evening. My name is <…> calling on behalf of Monash University from the Social Research Centre.
We left a message recently on your answering machine regarding an important study about life in Australia.
If you would like to participate in this study, please call our hotline number: 1800 023 040 and we will call you back at a time that is convenient to you. Thank you.”
*PROGRAMMER NOTE: SET AS APPOINTMENT FOR TIME OF CALL PLUS 6 DAYS PLUS 1 HOUR
*(QUERIED HOW TELEPHONE NUMBER WAS OBTAINED)*
ATELQ Your telephone number has been chosen at random from all possible telephone numbers in your area. We find that this is the best way to obtain a representative sample of all Australians for our study.

*(WANTS TO RECEIVE A COPY OF THE LETTER)*
ALET RECORD ADDRESS DETAILS TO SEND COPY OF LETTER

(RECORD NAME AND VERIFY ADDRESS DETAILS FROM SAMPLE / COLLECT ADDRESS DETAILS)

*PROGRAMMER NOTE RE ALET: WILL NEED TO BE ABLE TO TRACK INTERVIEWS RESULTING FROM SENDING A COPY OF THE LETTER]*

*(ALL)*
S3 This call may be monitored for training and quality purposes. Is that OK?

1 Monitor
2 Do not monitor

*PROGRAMMER NOTE: PLEASE SHOW THE OUTCOME OF THIS ON SCREEN*
MODULE A: ECONOMIC

*PROGRAMMER NOTE: RECORD ORDER OF MENTIONS.

*(ALL)

AN1 To start with, what do you think is the most important problem facing Australia today? And what do you think is the NEXT most important problem facing Australia?

(DO NOT READ OUT; MAXIMUM OF TWO RESPONSES ONLY)

1. Too many Asylum Seekers/refugees / boat people (negative comment)
2. Poor treatment of Asylum Seekers/refugees / boat people (sympathetic comment)
3. Crime/ law and order
4. Economy
5. Education/ schools
6. Employment/ jobs/ unemployment
7. Environment/ climate change/ water shortages
8. Family/ child-care
9. Government/ quality of/ politicians
10. Health/ medical/ hospitals
11. Housing shortages/ affordability/ interest rates
12. Illegal immigrants
13. Immigration
14. Indigenous people (health, poverty, etc)
15. Population growth/ over-crowding/ ageing of the population
16. Poverty/ welfare issues
17. Public transport
18. Racism
19. Social Issues – other (drug use, family breakdown, lack of personal direction, etc)
20. Technology issues (overuse of computers, internet, computer privacy, etc)
21. Nothing
22. Other (do not specify)
23. Don’t know
24. Refused
A1. I'd like you to tell me your views on various economic and social issues. To what extent do you agree or disagree with the following statements.

(PROBE: Is that agree or strongly agree / disagree or strongly disagree?)

(STATEMENTS)

a. People living on low incomes in Australia receive enough financial support from the government.
b. In Australia today, the gap between those with high incomes and those with low incomes is too large.
c. Australia is a land of economic opportunity where in the long run, hard work brings a better life.

(RESPONSE FRAME)

1. Strongly agree
2. Agree
3. (Neither agree nor disagree)
4. Disagree
5. Strongly disagree
6. (None of the above/ Don’t know)
7. (Refused)

A5. Now a question about your own financial circumstances. How satisfied or dissatisfied are you with your present financial situation?

(PROBE: Is that satisfied or very satisfied / dissatisfied or very dissatisfied?)

1. Very satisfied
2. Satisfied
3. (Neither satisfied nor dissatisfied)
4. Dissatisfied
5. Very dissatisfied
6. (Don't know)
7. (Refused)

AN6. Do you think the level of personal taxation in Australia is too high, about right or too low?

(PROBE: Is that much too high or too high / too low or much too low)

1. Much too high
2. Too high
3. About right
4. Too low
5. Much too low
6. (Don't Know)
7. (Refused)
**MODULE B: POLITICAL**

*(ALL)*

**B1** The next two questions are about unpaid voluntary work. By this I mean any unpaid help you give to the community in which you live, or to an organisation or group to which you belong.

It could be to a school, a sporting club, the elderly, a religious group or people who have recently arrived to settle in Australia.

Have you done any unpaid voluntary work of this kind in the last 12 months?

1. Yes  
2. No  
3. (Don't know)  
4. (Refused)

(Photo undertakes volunteer work) (B1=1)

**B2new** How often do you participate in this sort of voluntary activity? Is it...

(READ OUT)

1. At least once a week  
2. At least once a month  
3. Three to four times a year  
4. At least once a year  
5. Less often than once a year  
6. (Don't know)  
7. (Refused)
B4. Now some questions about different forms of political action people can take. Please tell me which, if any, of the following you have done over the last three years or so?

(READ OUT) (ACCEPT MULTIPLES)

1 Voted in an election
2 Signed a petition
3 Written or spoken to a Federal or State Member of Parliament
4 (deleted)
5 Joined a boycott of a product or company
6 Attended a protest, march or demonstration
7 (deleted)
8 (deleted)
9 (None of the above) ^s
10 (Don’t know) ^s
11 (Refused) ^s

*(ALL)*

B6a. How often do you think the government in Canberra can be trusted to do the right thing for the Australian people? Would you say ...

(READ OUT)

1 Almost always
2 Most of the time
3 Only some of the time, or
4 Almost never
5 (Don’t know)
6 (Refused)
*(ALL)*

**C7.** To what extent do you take pride in the Australian way of life and culture? Would you say …

(READ OUT)

1. To a great extent
2. To a moderate extent
3. Only slightly, or
4. Not at all
5. (Don’t know)
6. (Refused)

*(ALL)*

**C8.** And to what extent do you have a sense of belonging in Australia? Would you say …

(READ OUT)

1. To a great extent
2. To a moderate extent
3. Only slightly, or
4. Not at all
5. (Don’t know)
6. (Refused)

*(ALL)*

**C9.** Do you agree or disagree with the following statement? “In the modern world, maintaining the Australian way of life and culture is important”.

(PROBE: Is that agree or strongly agree / disagree or strongly disagree?)

1. Strongly agree
2. Agree
3. (Neither agree nor disagree )
4. Disagree
5. Strongly disagree
6. (Don’t know)
7. (Refused)
*(ALL)*

C1. Now some questions about immigration. What do you think of the number of immigrants accepted into Australia at present? Would you say it is …

(READ OUT)

1 Too high
2 About right, or
3 Too low
4 (No opinion/ don’t know)
5 (Refused)

*(ALL)*

C2. Do you agree or disagree with the following statements…

(PROBE: Is that agree or strongly agree / disagree or strongly disagree?)

(STATMENTS)
a) Accepting immigrants from many different countries makes Australia stronger
b) Ethnic minorities in Australia SHOULD be given Australian government assistance to maintain their customs and traditions

(RESPONSE FRAME)

1 Strongly agree
2 Agree
3 (Neither agree or disagree)
4 Disagree
5 Strongly disagree
6 (None of the above/ Don’t know)
7 (Refused)
PROGRAMMER NOTE: SELECT RANDOMLY ONE COUNTRY FROM EACH OF a), b), c) and d) ALSO ROTATE SET A, B, C, D– THAT IS FOUR COUNTRIES PER RESPONDENT. EACH COUNTRY SHOULD BE ASKED OF AN APPROXIMATELY EQUAL NUMBER OF RESPONDENTS (~667)

*(ALL)*

CN2intro: I’m now going to ask about your feelings towards immigrants from four different countries. To begin with …

CN2 Would you say your feelings are positive, negative or neutral towards immigrants from [COUNTRY]?

(PROBE: Is that very or somewhat positive/negative?)

(STATEMENTS)

SET A
1. ENGLAND
2. NEW ZEALAND
3. USA (AMERICA)

SET B
4. ITALY
5. GREECE
6. GERMANY

SET C
7. CHINA
8. VIETNAM
9. INDIA

SET D
10. LEBANON
11. EGYPT
12. IRAQ

(RESPONSE FRAME)

1  Very positive
2  Somewhat positive
3  Neutral
4  Somewhat negative
5  Very negative
6  (Don’t know)
7  (Refused)
Next I would like to ask how you feel about different types of people coming to live in Australia as permanent or long-term residents.

[1st: Do you feel positive, negative or neutral about] [STATEMENT] / [2nd-4th: And what about] [STATEMENT] coming to live in Australia as permanent or long-term residents?

(PROBE: Is that very or somewhat positive/negative?)

(STATEMENTS)

a) Skilled workers (e.g Doctors or Nurses, plumbers etc)  
b) Those who have close family living in Australia (i.e parents or children)  
c) Refugees who have been assessed overseas and found to be victims of persecution and in need of help  
d) Young people who want to study in Australia

(RESPONSE FRAME)

1. Very positive  
2. Somewhat positive  
3. Neutral  
4. Somewhat negative  
5. Very negative  
6. (Don't know)  
7. (Refused)
CN4  What do you think is the main reason that asylum seekers try to reach Australia by boat?

(PROBE: What else? Anything else?)

(DO NOT READ OUT) (ACCEPT MULTIPLES)

1. Are in fear of their lives
2. Are facing persecution
3. Are living in poverty
4. Are queue jumpers
5. Are wealthy and can afford
6. For a better life
7. Desperation/Desperate
8. Other (please specify)
9. (Don’t know)
10. (Refused)

CN5  Which of the following four statements comes closest to your view about the best policy for dealing with asylum seekers who try to reach Australia by boat? (READ OUT ALL FOUR OPTIONS, INCLUDING THE “A”, “B”, “C” AND “D”, BEFORE ACCEPTING A RESPONSE)

a. They should be allowed to apply for permanent residence
b. They should be allowed to apply for temporary residence only
c. They should be kept in detention until they can be sent back
d. Their boats should be turned back.

1. They should be allowed to apply for permanent residence
2. They should be allowed to apply for temporary residence only
3. They should be kept in detention until they can be sent back
4. Their boats should be turned back
5. (Don’t know)
6. (Refused)
CN6 What do you think of how the government is handling the asylum seeker issue? Overall do you think they are doing a good job, an average job or a poor job? 

(PROBE: Is that very good or good/ poor or very poor) 

1. Very good 
2. Good 
3. Average job 
4. Poor 
5. Very poor 
6. Don’t know 
7. Refused 

PROGRAMMER NOTE: DO NOT ROTATE STATEMENTS. USE 1ST SENTENCE FOR FIRST ITERATION AND 2-4TH SENTENCE FOR ALL OTHER ITERATIONS

CN7 intro Next I would like to ask you about your attitude towards different religious groups and non-believers.

CN7 [1st Is your personal attitude positive, negative or neutral towards] / [2nd-4th And what about] [STATEMENT]?

(PROBE: is that very or somewhat positive/negative?)

(STATEMENTS)

a) Christians 
b) Buddhists 
c) Muslims 
d) Non believers or atheists 

(RESPONSE FRAME)

1. Very positive 
2. Somewhat positive 
3. Neutral 
4. Somewhat negative 
5. Very negative 
6. (Don’t know) 
7. (Refused)
*(ALL)*

**CN8** How important is it to you that the main religion in Australia continues to be Christianity? Would you say it is important or unimportant?

(PROBE: Is that very important/ important or unimportant/ completely unimportant?)

1. Very important
2. Important
3. Neither important nor unimportant
4. Unimportant
5. Completely unimportant
6. (Don’t know)

**MODULE D: DISCRIMINATION**

Intro: Now thinking about any discrimination you may have personally experienced.

**D5** Have you experienced discrimination because of your skin colour, ethnic origin or religion over the last 12 months?

1. Yes
2. No (GO TO DN9)
3. (Refused) (GO TO DN9)

*(HAS EXPERIENCED DISCRIMINATION) (D5=1)*

**D2.** Please tell me which of the following best describes how often this discrimination occurred over the last 12 months. Would you say …

(READ OUT)

1. Daily / all of the time
2. Once or twice a week
3. Once or twice a month, or
4. Once or twice a year
5. (Don’t know)
6. (Refused)

*(ALL)*

**DN9** Do you think the level of racial prejudice in Australia now is more, less or about the same as it was 5 years ago?

(PROBE: Is that much more or more/ much less or less)

1. Much more now
2. More now
3. About the same
4. Less
5. Much less
6. (Don’t know)
7. (Refused)
*(ALL)

Intro: Next I’d like to ask your opinion on some more general issues.

E1. Generally speaking, would you say that most people can be trusted or that you can’t be too careful in dealing with people?

(PROBE IF NECESSARY: Is that can be trusted / can’t be too careful?)

1 Can be trusted
2 Can’t be too careful
3 (Can’t choose/Don’t know)
4 (Refused)

*(ALL)

E2. Taking ALL things into consideration, would you say that over the last year YOU have been …

(READ OUT)

1 Very happy
2 Happy
3 (Neither happy nor unhappy)
4 Unhappy, or
5 Very unhappy
6 (Don’t know)
7 (Refused)

*(ALL)

E3. In three or four years, do you think that your life in Australia will be…

(READ OUT)

1 Much improved
2 A little improved
3 The same as now
4 A little worse, or
5 Much worse
6 (Don’t think will be living in Australia) (GO TO F1)
7 (Cannot predict / Don’t know)
8 (Refused)
*(LIVING IN AUSTRALIA IN THREE OR FOUR YEARS) (3E NOT 6)*

E4. Compared with your life, do you think that the lives of today’s children will be …

(READ OUT)

1. Much better
2. A little better
3. The same as now
4. A little worse, or
5. Much worse
6. (Cannot predict / Don’t know)
7. (Refused)
MODULE F: NEIGHBOURHOOD

Intro: And now thinking about your local neighbourhood.

*(ALL)
F1 What proportion of all the people in your local area, that is within 15 to 20 minutes walking distance of where you live, are of the same national or ethnic group as you? Would you say…

(READ OUT)

1 All the same
1 More than half
2 About a half
3 Less than half
4 Much less than half
5 (Don't know)
6 (Refused)

*(ALL)

PROGRAMMER NOTE: ONLY SHOW CODE 6 FOR STATEMENT B

F2 Do you agree or disagree with the following statements …

(PROBE: Is that agree or strongly agree / disagree or strongly disagree?)

(READ OUT)

(STATEMENTS)
a) People in your local area are willing to help their neighbours?
b) Your local area (IF NECESSARY that is within 15 to 20 minutes walking distance of where you live) is a place where people from different national or ethnic backgrounds get on well together?

(RESPONSE FRAME)

1. Strongly agree
2. Agree
3. (Neither agree nor disagree )
4. Disagree
5. Strongly disagree
6. (There are not enough immigrants in my neighbourhood to have any impact)
7. (Don’t know)
8. (Refused)
F3 In general, what has been the impact of immigration on daily life in your local area? Would you say it has been…

(READ OUT)

1 Very positive
2 Somewhat positive
3 Neither positive nor negative
4 Somewhat negative, or
5 Very negative
6 (There are not enough immigrants in my neighbourhood to have any impact)
7 (Don't know)
8 (Refused)

F5 To the best of your knowledge, in the last 12 months would you say the level of immigration into Australia has increased, decreased or is unchanged?

1 Increased
2 Decreased
3 Unchanged
4 (Don't know)
5 (Refused)

F6 Which of the following two statements is closest to your view? It is better for a country if [PAUSE] different racial or ethnic groups maintain their distinct customs and traditions OR [PAUSE] if these groups adapt and blend into the larger society.

1 Better if different racial or ethnic groups maintain their distinct customs and traditions.
2 Better if these groups adapt and blend into the larger society.
3 (Agree with both)
4 (Don't know)
5 (Refused)
And now turning to another issue, your sense of personal safety.

How safe do you feel walking alone at night in your local area? Would you say you feel …

(READ OUT)

1. Very safe
2. Fairly safe
3. A bit unsafe: or
4. Very unsafe
5. (Neither safe nor unsafe)
6. (Never walk alone at night)
7. (Don't know)
8. (Refused)

Thinking about all types of crime in general, how worried are you about becoming a victim of crime in your local area? Would you say you are…

(READ OUT)

1. Very worried
2. Fairly worried
3. Not very worried
4. Not at all worried
5. (Don't know)
6. (Refused)
G1 And now, thinking about the size of Australia’s future population. Have you seen or heard anything in the media about the size of Australia’s future population?

1. Yes
2. No
3. (Don’t know)
4. (Refused)

G2 It has been predicted that Australia’s population will reach 36 million by the year 2050? In your view, would an Australian population of 36 million by then be [too large, too small or about right]?

(PROBE: Is that much too large or too large/ too small or much too small?)
[Interviewer Note: If asked, the current Australian population is slightly over 22 million]

1. Much too large
2. Too large
3. About right
4. Too small
5. Much too small
6. (Don’t know)
7. (Refused)
G3 and G4 probably to be asked of a sample subset – number of responses approximately 200 for each question

*PREG3 IF G2 = 1 OR 2 (POPULATION WOULD BE MUCH TOO LARGE OR TOO LARGE) OTHERS GO TO PREG4

*(BELIEVES POPULATION WOULD BE TOO LARGE OR MUCH TOO LARGE)
G3 Why do you say that?

**Economic/Cost of Resources**
1. High cost of WATER
2. High cost of ENERGY (electricity, gas, oil/petrol)
3. Lower standard of living/ High cost of providing for larger population
4. Unemployment/Not enough jobs

**Overcrowding/Lack of Infrastructure**
5. Pressure on HOUSING (multi-storey apartments, etc)
6. Pressure on TRANSPORT SYSTEM (road, rail, public)
7. Pressure on HEALTH SYSTEM
8. Cities will be too big
9. Overcrowding/Lack of infrastructure (general)

**Lack of Resources**
10. Lack of WATER
11. Lack of FOOD
12. Lack of ENERGY RESOURCES (oil, gas, etc)
13. Lack of other resources (general)

**Environmental Damage**
14. Pollution/Waste disposal
15. Australia’s environment cannot sustain/Environmental damage (general)
16. Loss of farming land/ no room for primary industries

**Other**
17. Other (specify …)
18. (Don’t know)
19. (Refused)
* PREG4 IF G2 = 3, 4 OR 5 (POPULATION IS ABOUT RIGHT, TOO SMALL OR MUCH TOO SMALL) OTHERS GO TO G5

*(BELIEVES POPULATION WOULD BE ABOUT RIGHT, TOO SMALL OR MUCH TOO SMALL)

G4 What advantages do you think there are if Australia has a population of about 36 million?

1. More economic growth/stronger economy
2. More employment opportunities
3. More support for the housing industry/house prices
4. More people/bigger workforce/more taxes to support ageing population
5. Easier to defend Australia/Make Australia more secure
6. Greater cultural diversity
7. Gives Australia more say/higher profile in world affairs
8. Other (specify…)
9. None
10. (Don’t know)
11. (Refused)

*(ALL)

G5 How would you rate the record of the current federal government in providing the roads, railways, and housing needed for future population growth? Is it…

(READ OUT)

1. Very good
2. Good
3. Neither good nor poor
4. Poor
5. Very poor
6. Don’t know
7. Refused
G6  Thinking about public transport, is over-crowding on public transport a problem for you?

(PROBE IF “YES”: Is that very serious, somewhat serious or only a slight problem?)

1. Very serious problem
2. Somewhat serious problem
3. Slight problem only
4. No, not a problem
5. (Do not use public transport)
6. (Don’t know)
7. (Refused)

G7  And what about today’s road conditions. Is traffic congestion on the roads a problem for you?

(PROBE IF “YES”: Is that very serious, somewhat serious or only a slight problem?)

1. Very serious problem
2. Somewhat serious problem
3. Slight problem only
4. No, not a problem
5. (Do not use the roads/Don’t drive)
6. (Don’t know)
7. (Refused)

G9  And are you concerned about climate change and the environment?

(PROBE IF “YES”: Is that very, fairly or only slightly concerned?)

1. Very concerned
2. Fairly concerned
3. Slightly concerned
4. No, not concerned
5. (Don’t know)
6. (Refused)
DEMOGRAPHIC INFORMATION

*(ALL)
DEM1a
We’re nearly finished now. Just a final few questions to make sure we’ve spoken to a good range of people.

Can I ask, how old were you last birthday?

1    Age given (RECORD AGE IN YEARS (RANGE 18 TO 99) (GO TO DEM2)
2    (Refused)

*(REFUSED AGE DEM1a=2)
DEM1b Could you please tell me which of the following age groups are you in? (READ OUT)

1    18 - 24 years
2    25 - 34 years
3    35 - 44 years
4    45 – 54 years
5    55 – 64 years
6    65 – 74 years, or
7    75 + years
8    (Refused)

*(ALL)
DEM2. RECORD GENDER

1    Male
2    Female

*(ALL)
DEM3. Which of the following best describes your current marital status? Are you…

(READ OUT)

1    Married
2    Living with a partner
3    Widowed
4    Divorced
5    Separated, or
6    Never married
7    (Don’t know)
8    (Refused)
PROGRAMMER NOTE: ONLY SHOW STATEMENT B IF DEM 3=CODE 1 OR 2 (MARRIED OR LIVING WITH PARTNER)

ONLY DISPLAY CODE 32 FOR STATEMENTS C AND D)

ONLY DISPLAY CODE 33 FOR STATEMENTS B, C AND D)

*(ALL)

DEM15 In which countries were you and your family members born?

(STATEMENTS)

a) Starting with yourself
b) Your spouse?
c) Your mother?
d) And finally, in which country was your father born?

(RESPONSE FRAME)

1 Australia
2 Canada
3 China (excluding Taiwan)
4 Croatia

31 Other (please specify)
32 (Not applicable)
33 (Don’t know)
34 (Refused)

PREDEM16 IF DEM15a=CODE 1 OR 34 (BORN IN AUSTRALIA OR REFUSED) GO TO DEM7, OTHERS CONTINUE.

*(IF DEM15a=2-33 NOT BORN IN AUSTRALIA)

DEM16 In what year did you arrive in Australia?

1 Response given (SPECIFY ___ ) (ALLOWABLE RANGE 2010 LESS AGE OF RESPONDENT)
2 (Don’t know)
3 (Refused)
*(ALL)*

**DEM7. What is your first language?**

1. English (GO TO DEM6)
2. Arabic
3. Lebanese
4. Australian Indigenous Languages
5. Cantonese
6. Mandarin
7. Croatian
8. Greek
9. Hindi
10. Italian
11. Macedonian
12. Spanish
13. Turkish
14. Vietnamese
15. Other (Specify)
16. (Don’t know)
17. (Refused)

*IF DEM7=2–17 ENGLISH IS A SECOND LANGUAGE*

**DEM8. (Please bear with me as we ask this question of everyone), how well, would you say you SPEAK English?**

1. Very well
2. Well
3. Not well, or
4. Not at all
5. (Can’t say)
6. (Refused)

*(ALL)*

**DEM6. Are you an Australian citizen?**

1. Yes
2. No
3. (Don’t know)
4. (Refused)
*(ALL)*

**DEM10** What is the highest level of education you have completed?

1. Primary school
2. Year 7 to Year 9
3. Year 10
4. Year 11
5. Year 12
6. Trade/apprenticeship
7. Other TAFE/Technical Certificate
8. Diploma
9. Bachelor Degree
10. Post-Graduate Degree
11. Other (Specify)
12. (Refused)

*(ALL)*

**DEM11** Which one of these BEST describes your employment situation? Are you …

(READ OUT)

1. Employed
2. Unemployed
3. Retired
4. Student
5. Home duties, or
6. Something else (Specify)
7. (Don’t know)
8. (Refused)

**PREDEM13** IF DEM11=CODE 1 (EMPLOYED) CONTINUE. OTHERS GO TO PREDEM13a

*(EMPLOYED IF DEM11=1)*

**DEM13** What is your current occupation?

(PROBE: Main duties and job title)

1. Managers
2. Professionals
3. Technicians and trades workers
4. Community and personal service workers
5. Clerical and administrative workers
6. Sales workers
7. Machinery operators and drivers
8. Labourers
9. Other (specify) (Probe for job title and main duties)
10. (Don’t know)
11. (Refused)
*(ALL)
DEM13b Which of the following terms best describes your financial circumstances today? Would you say you are

(READ OUT)

1 Prosperous
2 Living very comfortably
3 Living reasonably comfortably
4 Just getting along
5 Struggling to pay bills
6 Poor
7 (Don’t Know)
8 (Refused)

*(ALL)
DEM17new What is your religion, even if you are not currently practicing?

1 Catholic
2 Anglican (Church of England)
3 Uniting Church
4 Presbyterian
5 Greek Orthodox
6 Baptist
7 Lutheran
8 Islam
9 Buddhist
10 Judaism
11 Hinduism
12 Christian (no further information)
13 No religion
14 Other (SPECIFY)
15 (Don’t know)
16 (Refused)

PREDEM19 IF DEM17new=12 (CHRISTIAN NFI) CONTINUE OTHERWISE GO TO PREDEM20

*(CHRISTIAN) (DEM17NEW=12)
DEM19 Is that (or most closely) (READ OUT)

1 Catholic
2 Anglican (Church of England)
3 Uniting Church
4 Presbyterian
5 Greek Orthodox
6 Baptist
7 Lutheran, or
8 Something else (SPECIFY)
9 (Don’t know)
10 (Refused)
PREDEM20 IF DEM17new – 1 to 12 or 14 CONTINUE OTHERWISE GO TO PREDEM22)

*(SPECIFIED A RELIGION) (DEM17new= 1 TO 12 or 14)

DEM20 How important is religion in your life today? Is it...

(READ OUT)

1 Very important
2 Somewhat important
3 Neither important not unimportant
4 Not very important
5 Not at all important
6 (Don’t know)
7 (Refused)

*(SPECIFIED A RELIGION) (DEM17new= 1 TO 12 or 14)

DEM21 In the past 12 months, how often did you participate in religious activities or attend religious services or meetings – with other people – other than for events such as weddings and funerals? Was it ..

(READ OUT)

1 At least once a week?
2 At least once a month?
3 At least 3 times a year?
4 Once or twice a year?
5 Not at all?
6 (Don’t know)
7 (Refused)

*PREDEM22 – IF DEM6=1 CONTINUE OTHERWISE GO TO PREDEM18)

*(CITIZEN) (DEM 6=1)

DEM22 And to finish up just one question about voting intentions. If there was a Federal election held today, for which party would you probably vote?

1 Labour Party
2 Liberal Party
3 National Party
4 Greens
5 Independents
6 Other (Specify) _________________
7 (Don’t Know)
8 (Refused)

DEM18 And finally, can I have your postcode please?

9 Response given (SPECIFY___) (Allowable range: 800 - 9729 )
10 (Don’t know)
11 (Refused)
Thank you for your help. Just in case you missed it my name is (...) and this survey was conducted on behalf of Monash University.

If you have any queries or concerns about the survey, I have a number I can give you if you like…..

Questions about who is conducting the study and how your telephone number was obtained - The Social Research Centre, ph: 1800 023 040
Concerns or complaints about how the study is being conducted – Monash University ethics Project Number: (2007/0319), ph: 03 9905 5490, Email: muhrec@adm.monash.edu.au
Questions about the purpose of the research and why it is being conducted – Professor Andrew Markus, Tel: 03 9903 5009, Email: andrew.markus@arts.monash.edu.au

INT1 Record language
1 English
2 Cantonese
3 Mandarin
4 Vietnamese
5 Italian
6 Greek
7 Arabic
8 Lebanese
9 Turkish

INT2 Was this interview …
1 Normal
2 Refusal conversion
*(REFUSED)*
RR1  OK, that's fine, no problem, but could you just tell me the main reason you do not want to participate, because that's important information for us?

1. No comment / just hung up
2. Too busy
3. Not interested
4. Too personal / intrusive
5. Don't like subject matter
6. Letter put me off
7. Don't believe surveys are confidential / privacy concerns
8. Silent number
9. Don't trust surveys / government
10. Never do surveys
11. 10 minutes is too long
12. Get too many calls for surveys / telemarketing
13. Too old / frail / deaf / unable to do survey
14. Not a residential number (business, etc)
15. Language difficulty
16. Going away / moving house
17. No one 18 plus in household
18. Other (SPECIFY_______)

*(REFUSED)*
RR2  RECORD RE-CONTACT TYPE

1. Definitely don’t call back
2. Possible conversion

Termination scripts

*(NOT ONE IN HOUSEHOLD OVER 18)*
TERM1  Thanks anyway, but for this survey we need to speak to people aged 18 or more. Thanks for being prepared to help.

ALLTERM

S4=4 Household refused (refused at intro)
s1=3 Household refusal
s1=8 No one in household over 18 (TERM1)
s2a=3 Respondent Refusal
Appendix 5: Interviewer Briefing Notes
SOCIAL COHESION SURVEY
MAIN STUDY BRIEFING NOTES
(PR0653, June 2010)

Prepared for:

scanlon foundation

THE SOCIAL RESEARCH CENTRE
Agenda

- Project background and survey procedures
- Detailed questionnaire run-through
- Practice interviewing
- Interviewing
The project is being undertaken by the Scanlon Foundation, Monash Institute for the Study of Global Movements (MISGM) and the Australian Multicultural Foundation (AMF)

Current study is part of a multi stage research program
- The National Benchmark Study was conducted by SRC in 2007 (and again in 2009)
  - 80% of questions retained from 2009/2007 survey, with one new ‘section’

Pilot run successfully – everything is working well
About the Scanlon Foundation

- The Scanlon Foundation was established in 2001
- Their mission is: “to support the creation of a larger Cohesive Australian society”
- Primarily interested in cultural diversity and social cohesion
- Provides grants for further research into these two areas
The Scanlon Foundation

- The Scanlon Foundation believes that the future prosperity of Australia, underpinned by continued population growth, will depend on our ability to maintain social cohesion in a society with even more cultural diversity than we have successfully accommodated historically.

- The Foundation, in seeking to create awareness and knowledge based discussion about Australia's population growth and its relationship to social cohesion, has provided substantial funding grants in research.
Overview of questionnaire topic

- Screening and Introduction
- A: Economic
- B: Voluntary Work & Political
- C: Socio-Cultural
- D: Discrimination
- E: Reflective (reflection of current life in Australia)
- F: Neighbourhood
- G: Future Growth – NEW SECTION
- Demographics
Survey overview

- Main study = 2,000 interviews across Australia (from 1st June)
  - Main general community survey
  - 18 years +
  - Next birthday method of selection

- 20 minute interview length
Pilot test objectives

- Estimate the length of the survey
- Test CATI functionality
  - Sample / quota management
- Get a feel for how the questionnaire performs
  - flow / wording
Pilot test procedures

- Will be run in concordance with 2009 survey
  - Important to maintain continuity of how questionnaire is administered

- No LOTES in pilot test

- RDD sample (from Sampleworx)
  - A lot less unproductive numbers (around 14% compared to 50% currently)
  - We have to pay for it so we need to take much more care with the sample

- No appointments beyond Thursday 27th May
Main study procedures

- Will be run in concordance with 2009 survey
  - Important to maintain continuity of how questionnaire is administered

- RDD sample from Sampleworx
  - A lot less unproductive numbers (around 14% compared to 50% currently)
  - We have to pay for it so we need to take much more care with the sample

- 15 call protocol
- Leaving messages on answering machines
  - Up to two messages
- LOTE interviewing essential
Approach Letter

- Matched – letter will be sent for the Main survey
  - the RDD number has been matched to the EWP – We can now match around 85% of numbers so most households will get a letter

- Unmatched - no letters will be sent
Respondent universe

- The population aged 18 years and over in Australia who reside in a private dwelling

- Code to “out of scope”
  - Residents of institutional quarters (prisons, nursing homes, etc)
  - Residents of military bases
  - Are incapable of undertaking the interview due to a physical health condition
  - Do not have the cognitive capacity (dementia, intellectual disability)
  - Are under the effect of drugs or alcohol (interviewer judgement call!)
  - Households where no adults 18 plus are usually resident
Respondent selection

- Respondent selected using the “next birthday” method

- May need to be explain (to some respondents) that in to achieve a representative sample we can only interview the randomly selected person in the household.

NOBODY OTHER THAN THE ‘NEXT BIRTHDAY ‘PERSON IN THE HOUSEHOLD CAN BE INTERVIEWED
Call procedures

- Calls will only be initiated between 4.30 pm and 8.30 pm weekdays and 10.00 am and 4.00 pm on Saturdays and 11.00 am and 4.00 pm on Sundays
  - Appointments can be made for any time the call centre is operational

- Up to 15 calls to each household to establish contact and determine that it is a live residential number. In order to make initial contact – the system will automatically spread these call attempts over different days and time of day

- Once contact has been made and the respondent has been selected, further calls will be attempted to interview to the selected respondent
Appointments

- Distinguish between “hard” and “soft” appointments
  - “Hard” appointments for “on the hour”, “on the half hour” (e.g., 6.00 pm)
  - “Soft” appointments for just after (e.g., 6.02 pm - so that the “hard” appointment will always come up first in CATI)

- You don’t always need to speak to the QR to make a hard appointment

- If you call to honour a hard appointment and no contact is established….
  - Convention is to re-appoint as “soft” for 10 minutes and note the call outcome from the appointed time in the appointment notes
Appointments

- Take care with the expectations you create by making appointments
  - Call back between specified times rather than at a specific time

- Use standard conventions:
  - ST (Spoken to)
  - NST (Not spoken to)
  - QR (Qualifying respondent)
Non-English speaking respondents

- Coding of call results for LOTEs
  - LOTE follow up (Arabic, Lebanese, Cantonese, Mandarin, Greek, Italian, Vietnamese, Turkish)
  - LOTE other language – no follow up (specify language)
  - LOTE (language unknown) - unsure of the language spoken - make an appointment. If still can’t identify language at call-back, code to “LOTE other language -no follow up”
Recording of reason for refusal

- Refusals recorded “internally” (not at SMS screen)
- Household refusal
  - Occurs before you have gone through the next birthday selection process
- Respondent refusal
  - Directly from the selected respondent
- Record reason for refusal in the usual way
- Differentiate between “hard” and “soft” refusals
  - Record “definitely don’t call back” or “possible conversion”
Minimising mid-survey terminations

- Use item level refusal option
  - “if there are any questions you don’t want to answer…”
  - Stress voluntary nature of survey

- Don’t dwell on item level refusals - move on!
  - “That’s ok” and get on with next question!

- Reiterate confidentiality provisions whenever necessary (even if not scripted)
  - Explain that we are bound by the provisions of the Commonwealth Privacy Act
Response rates

- Response rates are crucial to the success of this project. It is therefore critical that call outcomes are meticulously and correctly recorded.

- High response rates are largely dependent on:
  - Confident explanations of the importance of the survey
  - Simple refusal conversion techniques
  - Persistence in making contact with selected residents
Interviewing skills

- Reading skills
  - Read the whole question
  - Read with meaning, using appropriate stress / intonation, for example, to define the reference period or get across key definitional issues
  - Pause to let respondent “catch up”

- Listening skills
  - Listen for a full and complete answer that is relevant to the question
  - Listen for main points before recording response / using “other specify”
  - Acknowledge what has gone before / what the respondent has already told you
  - This may involve using “just to confirm” or “bear with me for a moment, I have to ask all the questions exactly as they are scripted”
Interviewing skills

- Neutral and non-leading clarifying probing
  - Repeat the question, if necessary, with appropriate intonation and stress
  - Use definitions as provided in the script
  - If no definition provided - “it’s your perception…”
  - Go back and fix previous responses if necessary

- Accuracy of recording (particularly questions requiring a numeric response)
Privacy and confidentiality

- Our contract with the Scanlon Foundation explicitly prohibits us from passing on information to a third party.

- Details kept strictly confidential and used for research purposes only.

- Data analysed at an aggregated (not individual) level.

Data quality issues

- Read the question exactly as scripted
  - In order to maintain continuity and comparability with 2007/2009 survey

- All questions with unfolding ‘agree / disagree’ scales remember to read out ‘PROBE’, not codeframe
  - “is that agree or strongly agree / disagree or strongly disagree”

- When reading a list of statements or a long list of response options, allow the respondent to answer each one individually
  - Don’t read out all the options, then wait for a response
Data quality issues

- Questions with statements
  - Be sure to read out all of the statements before getting an answer

- ‘Do not read out’ questions
  - Ensure you code to code frame before putting the response in Other
  - If you need to put the response in Other – ensure that you are giving the coder enough context to code the information

- Intro
  - Use Monash University as a selling point
  - “Community attitudes in Australia”
Data quality issues

- **AN1** “What do you think are the most important problems facing Australia?”
  - Order of mention recorded
  - Ensure you code the correct response for Asylum seekers vs illegal immigrants

- **C2** “Do you agree with the following statements? Australian government should give assistance to maintain customs and traditions”
  - Whatever the respondent thinks assistance means – could be monetary or non monetary…

- **CN2** “Feelings towards immigrants from four different countries”
  - Rotation of countries – England, New Zealand, America, Italy, Greece, Germany, China, Vietnam, India, Lebanon, Egypt, Iraq.
Data quality issues

- **CN4** “What are the main reasons asylum seekers leave their homeland and try to reach Australia”
  - Order of mentions recorded

- **CN5** “Best policy for dealing with asylum seekers”
  - Read out letters before the statements to allow respondents anonymity from the statement

- **F6** “Which of the following two statements is closest to your view? It is better for a country if [PAUSE] different racial or ethnic groups maintain their distinct customs and traditions OR [PAUSE] if these groups adapt and blend into the larger society.”
Data quality issues

- **G8** “Australian house prices have increased over the last year or so”
  - Order of mentions recorded
  - If respondent says Greed – probe it out – what do they mean by that?
    - Real estate agents? Foreign investors?

- **DEM15** “Where were you born”
  - Long list of countries – use the handout to help

- **Dem17** “Religion”
  - Christian NFI – Then gets probed. If still NFI say DK
Respondent queries

- Monash University

Appendix 6: Primary Approach Letter
Dear Householder

My name is Andrew Markus and I am a professor in the Faculty of Arts at Monash University. I am writing to ask for your help with an important Australian study being undertaken by researchers at Monash University. This project aims to obtain people’s views on Australian society and its future, with a focus on social cohesion and population issues.

Why were you chosen to participate?
Monash University has contracted the Social Research Centre to conduct the telephone interviews required for this study. Your household has been selected on a random basis to take part, along with many others across Australia. Any information provided will be treated in the strictest confidence by The Social Research Centre. Monash University will not receive any information from the survey that could identify you or your household.

Possible benefits
This project will provide government and the Australian public with information on social cohesion and immigration issues in Australian society. In doing so the project will make an important contribution to public discussion and planning.

What does the research involve?
The study involves your response over the telephone to a set of questions.

How much time will the research take?
The questionnaire will take approximately 15 minutes of your time.

Inconvenience/discomfort
The survey will not intrude into your privacy: you may decide not to answer some of the questions.

Payment
There is no payment for participation.

Can I withdraw from the research?
Participation is entirely voluntary. If you do agree to participate, you may withdraw at any time.

Confidentiality
Your responses to the survey questions will be entirely anonymous.

Storage of data
Storage of the data will be undertaken under University regulations. The anonymous responses will be kept on secure computers on University premises for a minimum of five years.

Use of data for other purposes
Data resulting from the survey will be reported nationally and will be accessible to researchers.

Results
Once the project is completed the key findings will be accessible for five years on the project website. The results of the 2009 survey are at http://www.globalmovements.monash.edu.au/news/.

Further questions
If you have any questions about your participation in the survey or would like to make a time for an interviewer to call you, please call The Social Research Centre on 1800 023 040 (a free call).

If you would like to contact the researchers about any other aspect of this study, please contact the Chief Investigator:

Professor Andrew Markus, School of International, Historical Studies, and Philosophical Studies, Faculty of Arts, Monash University, Clayton, Victoria 3800
Tel: 03 9903 5009
Email: Andrew.Markus@arts.monash.edu.au

If you have a complaint concerning the manner in which this research project (2007/0319) is being conducted, please contact:

Human Ethics Officer, Monash Research Office, Building 3E, Room 111, Monash University, Clayton VIC 3800
Tel: 03 9905 5490
Email: muhrec@adm.monash.edu.au

Thank you in anticipation of your voluntary co-operation in this important survey. Your views are valuable and important in helping us understand Australian society and its future development.

Professor Andrew Markus
Andrew Markus,我是蒙纳士大学历史研究系的教授。给您写信，目的是请您配合蒙纳士大学开展澳大利亚的一项重要研究项目。本次研究内容涉及澳大利亚的各类社会事务。

蒙纳士大学委托社会研究中心开展本次研究所需的电话采访工作。我们随机抽选了您的家庭和澳大利亚境内众多家庭一同参加。您所提供的全部资料都将得到社会研究中心最严格的保密。蒙纳士大学不会得到本次调查中任何可能泄露您或您家庭身份的信息。

本次问卷调查约需15分钟，是否参加完全自愿；若同意参加，您也可以随时退出。您的回答将完全匿名。

在此预先感谢您在您这项重要调查中的配合。

您的观点非常宝贵和重要。

---

**Sosyal Uyum Araştırması Projesi**

Monash Üniversitesi araştırması için gerekli olan telefon mıtakatlarının yürütmesi için Social Research Centre (Sosyal Araştırmalar Merkezi) ile anlaşması bulunmaktadır. Hanenize yaşıyan kömürler, Avustralya çapındaki çoğal kömürler gibi sanna bağlı olarak seçilmiştir bulunmaktadır. Sağlanan bilgiler Social Research Centre tarafından tamamen gizli tutulacaktır.

Monash Üniversitesi yapılan anketle sizin veya hanenizdeki bireylerin kimliği açığa vuracak herhangi bir bilgi elde etmeyecektir.

Bu önemli araştırmaya gönülü olarak katıldığınız için şimdiden teşekkür ederim. Görüşleriniz bizim için değerli ve önemlidir.

---

**Dự án Nghiên cứu về Gắn bó Xã hội**

Tên tôi là Andrew Markus. Tôi là giáo sư giảng dạy tại Khoa Sư học, Trường Đại học Monash. Tôi viết thư này mong được sự giúp đỡ của quý vị cho một chương trình nghiên cứu quan trọng của Trường Đại học Monash, Công trình nghiên cứu này sẽ xem xét nhiều vấn đề xã hội ở Úc.

Trường Đại học Monash đã kí hợp đồng giao cho Viện Nghiên cứu Xã hội tiến hành các cuộc phỏng vấn qua điện thoại cán thiết cho Nghiên cứu này. Tình cờ gia đình của quý vị đã được chọn tham gia Dư án, cũng như nhiều gia đình khác trên khắp nước Úc. Mọi thông tin thu thập sẽ được Viện Nghiên cứu Xã hội bảo mật tuyệt đối. Trường Đại học Monash sẽ không nhận được bất kỳ thông tin nào từ cuộc khảo sát này, mà qua đó có thể xác định được tình hình gia đình của quý vị.

Chúng tôi rất cảm ơn nếu quý vị vui lòng tự nguyện hợp tác với chúng tôi trong cuộc khảo sát quan trọng này. Vậy, quý vị sẽ rất giá trị và quan trọng cho dự án của chúng tôi.
