Welcome to the first Monash Update for 2019, a monthly newsletter dedicated to keeping you up to date on all things Monash. We look forward to another productive year working with you and your students.

This issue contains key dates, including the upcoming Peninsula Careers Practitioners Seminar and Monash Information Evenings. There are also a number of updates from faculties.

Kind regards,
Domestic Student Recruitment team

**KEY DATES**

- Peninsula Careers Practitioners Seminar
  > 7 March

- Monash Information Evening - Mildura
  > 19 March

- Inside Monash - Business
  > 27 March

- Inside Monash - MD & Biomedical Science
  > 3 April

**GENERAL UPDATE**
Registrations for our 2019 Monash Information Evenings are now open. MIEs provide your students and their parents with the opportunity to discover everything they need to know about undergraduate study at Monash.

Your students can get the inside story of what it's really like to study at Monash at our Inside Monash Seminar Series. They'll hear from a current student, a graduate and an academic from each of our study areas.

WE'RE MAKING SOME CHANGES TO OUR SCHOOL VISITS IN 2019

We are committed to providing prospective students with opportunities to experience our facilities and meet our staff and students.

In 2019, we’re increasing the number of interest-specific events that will replace some of our school visits.

We’ve introduced new metro Monash Information Evenings, and an on-campus visit and tour week. These initiatives complement our existing range of events, activities and services.

Questions? Contact us via the button below.

PENINSULA CAREERS PRACTITIONERS' SEMINAR

This seminar gives you a fantastic snapshot of the courses available at our Peninsula campus, as well as provide you with access to key admissions and recruitment staff.

You’ll have the opportunity to attend a series of sessions run by our faculties represented at the campus as well as get a sense of what Peninsula has to offer.

Date: Thursday 7 March
Venue: Building C, Peninsula campus, Monash University, Frankston

ON-CAMPUS SCHOOL VISITS

If you’re keen to bring your students to see our world-class facilities, the Domestic Student Recruitment team are this year offering an opportunity to book in for a campus tour between 11-14 June.

As it can be difficult to secure facilities on campus due to university teaching priorities, we suggest that you book in for a tour during the dates allocated, as we may not be able to accommodate requests outside of this time.

There will be four sessions a day, each running for about 1.5 hours. Each session will start with a presentation followed by a tour of our Clayton campus.

Book Now

START A FREE ONLINE COURSE WITH MONASH

Monash has five popular short online courses starting in coming weeks.

The Psychology of Learning and Developmental Psychology both commence on 25 February (2 week courses).

Three courses start on 4 March: Mindfulness for Wellbeing and Peak Performance (4 weeks); Food as Medicine (3 weeks); and The Science of Medicines (6 weeks).

Monash short online courses are offered for free through the FutureLearn platform.

ACCOUNTING WEEK 2019 CASE COMPETITION

This is a team based competition for students studying Units 1-4 Accounting or IB Business and Management. There are two stages to this competition:

1. Submit a report addressing the provided real-world business case study from an accounting perspective
2. On 31 July, finalists will present their report to a panel of judges at the Clayton campus

The winning school will receive $1000 and each member of the winning team will be awarded a $200 visa prepaid gift card, certificate and trophy.

INFORMATION TECHNOLOGY

WOMEN IN STEM AND ENTREPRENEURSHIP - FREE WORKSHOPS!

Victorian schools are invited to nominate a team of four Year 10 female students to

INDUSTRY PLACEMENTS FOR IT STUDENTS

In January, 25 of our industry partners
participate in the Women in STEM and Entrepreneurship program. Participants will learn about connected technology, develop hands-on skills in IT coding and discover how to develop and pitch an entrepreneurial idea.

Teams will have the opportunity to choose a one-day workshop from a series offered in May and June at our Clayton campus, and two successful teams will win an immersive entrepreneurial experience to Silicon Valley!

Applications close 1 March or when places are filled.

Nominate Your Team

welcomed 117 Industry Based Learning (IBL) students to their organisation to start their IBL placement. The IBL Program allows students to complete a six month placement in industry, with a focus on applying the knowledge they have learnt through their academic studies in a high-level professional workplace setting.

With another IBL placement period in July, the Faculty of IT places over 200 students each year, allowing our graduates to be job ready!

ENGINEERING

MEET MEG, A NEW ENGINEERING PROGRAM FOR GIRLS

We’re excited to introduce our new engagement program for young women: Monash Engineering Girls (MEG).

MEG enables students to connect with Monash Engineering throughout senior secondary school and participate in a range of special activities and VIP events. They’ll explore the different fields of engineering, attend experience days and workshops, meet current female Engineering students and talented...

MONASH ENGINEERING GIRLS (MEG):
ENGINEERING 101

The first MEG event takes place on 11 April at our Clayton campus. Year 9 and 10 girls will get a taste of life as a student and explore the different fields of engineering. They’ll attend a lecture, get creative at hands-on workshops and even build a robot!

Students can register their interest in both Engineering 101 and the MEG program via the website.

For more information, contact Helen O’Keeffe.
academic staff, and develop a supportive community along the way.

It’s a great chance for girls who love maths, science and technology to find out whether a career in engineering is for them.

**MEDICINE, NURSING AND HEALTH SCIENCES**

**EXPERIENCE A DAY IN THE LIFE OF A MONASH MNHS STUDENT**

Want to show your students what it’s like to study medicine, biomedical science or nursing? Our new Day in My Life video series, hosted by some of our current students, takes you inside their lectures, placements and favourite places on campus to show what a typical day looks like.

**ARTS, HUMANITIES AND SOCIAL SCIENCES**

**WHERE WILL A BACHELOR OF**

**HIGHLIGHT ON INTERNATIONAL**
CRIMINOLOGY TAKE YOUR STUDENTS?

With a Bachelor of Criminology, students could work in a broad range of professional domains such as international criminal justice, anti-corruption or human rights organisations, the police force, courts system, Department of Justice, Attorney-General's departments, community legal centres, and organisations in which Criminology specialist skills provide a key competitive advantage.

Students can develop specialist knowledge in hate crime, serious and violent crime, cybercrime, and transnational and organised crime.

STUDIES

International studies at Monash offers an interdisciplinary focus on globalisation with four new thematic streams.

Once completing the core units, students can focus on one stream or take a mixture of units to complete their Arts major (8 units) or Global Studies specialisation (12 units including an overseas component): Global Health & Disease Environment, Cities & Sustainability Crisis, Conflict & Disaster Commerce, Technology & Consumption.

Many overseas study opportunities are also available.

JUST BACK FROM INDIA!
