MASTER OF ADVANCED CLINICAL NURSING

DEVELOP YOUR ADVANCED CLINICAL NURSING SKILLS

Develop advanced knowledge and skills in your chosen specialisation to contribute to the health of individuals, families and communities in addition to the development and advancement of the nursing profession. And with Commonwealth Supported Places available, there’s never been a better time to further your nursing career.

Develop advanced practice knowledge and leadership in specialist practice including skills to plan, implement, coordinate, and evaluate health care, as well as the ability to formulate policy.

Specialisations:
- Emergency nursing
- Intensive care nursing
- Medical surgical nursing
- Mental health nursing
- Nurse Practitioner
- Paediatric nursing
- Perioperative nursing

In the Master of Advanced Clinical Nursing you will:
- Prepare you for leadership roles and develop advanced practice knowledge in your chosen clinical specialisation
- Gain skills to plan, implement, coordinate and evaluate health care
- Develop the ability to formulate policy for a diverse and multicultural society.

You will need to be employed as a registered nurse in the specialist clinical area of study.

COURSE STRUCTURE

SPECIALIST NURSING PRACTICE STUDIES

PART A - These studies draw on best practices within your chosen nursing specialisation for the development of advanced knowledge and skills.

RESEARCH AND ADVANCED SCHOLARLY PRACTICE

PART B - The focus of these studies provides you with the opportunity to pursue advanced specialist study in your chosen specialisation through either coursework or a research focus.

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma in Advanced Clinical Nursing if the award requirements have been met.

Visit monash.edu/study/course/m6031 to see what you’ll learn in the Master of Advanced Clinical Nursing.

Course code
M6031

Study mode
On-campus (Clayton, Peninsula)
Multi-modal (Clayton, Peninsula)

Intakes
First semester: February
Second semester: July

Durations
Full time: 1 or 1.5 years
Part time: 2 or 3 years

“Undertaking this course has given me a much broader understanding of critically unwell patients and the skill set to be able to care for them independently. I have been able to work in leadership and mentor roles, share my passion for emergency nursing, and ultimately have a positive contribution to the service we provide.”

Olivia Green
Master of Advanced Clinical Nursing student
ELECTIVES

As part of this Master’s degree, you’ll have the opportunity to customise your degree around your interests, with a choice of electives. You can pick nursing electives, or even units from another area of study (with the permission of the course convenor).

Explore a list of approved electives at handbook.monash.edu/current/courses/M6031

If you’re studying the on-campus mode, you’ll attend your nominated campus during Part A, and then attend both the Clayton and Peninsula campuses for Part B.

RESEARCH PATHWAY

Monash is recognised globally for research excellence. As part of the Master of Advanced Clinical Nursing, you may have the opportunity to work on a nursing research project, with one of our expert supervisors. Completing this can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.

WHY CHOOSE MONASH?

- Content developed and delivered by recognised experts
- Flexible learning delivery modes – study on campus or online
- Study by all coursework or combine coursework and a minor thesis
- Specialisations and elective units allow you to meet your career aspirations
- Network with like-minded nurses wanting to advance their careers
- Ranked #15 in the world for Nursing (QS World University Rankings 2021)
- COMMONWEALTH SUPPORTED PLACES (CSP) AVAILABLE - this means your fees could be partially covered by the Federal Government.
