

DOCTOR OF PHILOSOPHY

Do you want to become a researcher who shapes the future of healthcare? Monash Nursing & Midwifery is home to internationally recognised researchers leading transformative work across nursing, midwifery, and healthcare.

Our PhD program builds your capacity to think deeply, generate new knowledge, and translate research into meaningful change across policy, education, and clinical practice.

You'll work with expert supervisors and a vibrant research community while developing advanced skills in critical thinking, research design, leadership, and scholarly communication. Your thesis will make a significant, original contribution to nursing or midwifery research and scholarship, preparing you for a career that reaches well beyond the degree itself.

What you'll gain

- Research training - Design and conduct rigorous, original research.
- Scholarly leadership - Produce and disseminate high-quality research outputs.
- Critical evaluation skills - Appraise your own and the work of others, strengthening your capacity to lead, mentor, and engage in scholarly conversations.
- Professional development - Build transferable skills for careers in academia, healthcare practice, and/or education.

COURSE CODE

0047

CRICOS CODE: 041047A

STUDY MODE

On campus (Clayton, Peninsula)
Multi-modal (Clayton, Peninsula)

INTAKE

Throughout the year

DURATION

Full time: 3-4 years
Part time: 6-8 years

RENEE MOLLOY

PhD CANDIDATE

"My PhD journey has completely transformed how I think and work. Through the tailored guidance of my supervisors, I have the autonomy to drive my own research while receiving support and constructive feedback. This has given me the confidence to trust my instincts and grow as an independent researcher."
