

Course progression map for 2027 commencing students

This course map is a guide only and does not substitute for the required units outlined in the course 'Requirements' section of the Handbook. Units can be rearranged if applicable prerequisite requirements are met. This map applies to students commencing in the standard annual intake. When planning your course, check with Faculty Student Services, including for advice if commencing mid-year (where relevant), and refer to the Handbook entry for each unit before the start of each semester. Unit offering information is correct at the time of publication; however, changes may occur.

B2052 Bachelor in Actuarial Analytics (Malaysia)

Year 1 Semester 1	ACW1120 Financial accounting 1	ECM1953 Principles of economics	ETM1015 Calculus 1	ETM1030 Mathematical statistics
