AMREP IMMUNOLOGY SEMINAR SERIES
Monday 4th July 4:00pm
5th Floor Lecture Theatre, Alfred Centre

Dr James Beeson
Head, Centre for Immunology, Burnet Institute

"Immunity to malaria: targets, mechanisms, and vaccines"

James Beeson is an ARC and NHMRC research fellow and heads the malaria clinical and translational research group in the Centre for Immunology at the Burnet Institute. His work is largely focused on clinical and population studies of malaria in Africa, Asia and Papua New Guinea and primarily aims to understand human immunity to malaria and develop vaccines against malaria.

Please join us after the seminar for refreshments and immunological networking!

Upcoming in the AMREP IMMUNOLOGY SERIES:
August 1st Amanda Gavin

Seminar Co-ordinators: Rose Ffrench (Burnet Institute) ffrench@burnet.edu.au
Graeme Lancaster (Baker IDI) Graeme.Lancaster@bakeridi.edu.au
Mark Wright (Monash Immunology) Mark.Wright@med.monash.edu.au
