BE PART OF BUILDING A HEALTHIER WORLD

Are you looking for a career in health, but want time to explore your options? Combine a solid foundation in health with a flexible curriculum, empowering you to pursue the areas of health that most inspires you.

Our Bachelor of Health Sciences provides you with a broad overview of health, health care delivery and research. This training prepares you for a range of jobs in the health industry, or to tackle graduate study needed for pursuing a clinical role.

You’ll learn from world-leading health researchers, with many of our teaching staff holding dual roles at the Alfred Hospital. Whether your interests are research or clinical, they’ll share the information and skills you’ll need to succeed.

In the Bachelor of Health Sciences you will:
- Gain a solid scientific foundation in human systems including physical, biomedical, mathematical and behavioural sciences, along with emerging fields such as health data.
- Discover how to identify, investigate, analyse and assess health issues.
- Build skills for success in communication, teamwork, critical thinking, ethical and legal issues and reflective practice.

COURSE STRUCTURE

Course code
M2014
CRICOS code: 068365J

Study mode
On-campus (Caulfield)

Intakes
First semester: February
Second semester: July

Durations
Full time: 3 years
Part time: 6 years

“I love this course because it provides me with the opportunity to explore my different interests, on top of my passion for public health. I’ve studied electives in Korean, international business and digital audio and video.”

Cindy Leung
Bachelor of Health Sciences student
DESIGN YOUR OWN DEGREE

Our flexible degree structure allows you to pursue your passion for health and still explore other subjects that interest you. Design your own degree with a choice of electives from diverse areas, such as bioethics, business, communication and media studies, international relations, psychology or even a language.

CAREER OPPORTUNITIES

Studying a Bachelor of Health Sciences opens the door to a broad range of career opportunities in health. The job market in clinical health, policy development, advocacy, occupational health and education is expanding rapidly. Career opportunities can include:

- Clinical research
- Healthcare marketing
- Government
- Health education
- Health promotion
- Forensic sciences

FURTHER STUDY

Once you’ve completed a Bachelor of Health Sciences, you’ll have a solid foundation to build on. You could use your degree as a pathway to a clinical career or deepen your knowledge of the health system, by completing graduate study such as:

- Doctor of Physiotherapy
- Master of Nursing Practice
- Master of Occupational Therapy Practice
- Master of Public Health
- Master of Social Work
- Master of Nutrition and Dietetics

You could also choose to complete an honours year, as a pathway towards a career in health research.
