IF YOU DON’T LIKE IT, CHANGE IT.

For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.

We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world.

That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

Monash student Matilda Anastasya, Bachelor of Arts (2019)
Monash University is truly a global university. Our main base is in Australia, but our presence extends to locations in China, Malaysia, Indonesia, Italy and India. We also deliver awards in partnership with many international teaching institutions. Through our shared values, experiences and goals, we are more connected now than ever.

Each Monash campus has its own personality, and all are friendly, welcoming communities where you’ll feel at home.

### ITALY

**Prato**

In the heart of Tuscany and close to Florence, Prato is our European base where eight of our faculties offer units covering design, law, business and more.

### MALAYSIA

**Kuala Lumpur**

Monash University Malaysia is our third-largest campus, with more than 1000 students undertaking courses offered across seven schools.

### INDONESIA

**Jakarta**

Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders – those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

### MELBOURNE

**Clayton**

Our biggest campus, home to 38,000 students and nine of our ten faculties. Everything you need is on campus – food outlets, sporting facilities, health services and more.

**Caulfield**

Our Caulfield campus hosts 19,000 students and is our base for Art, Design and Architecture, and Monash Business School as well as some Arts and IT courses.

### PENINSULA

A coastal home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education and select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

### INDIA

**Mumbai**

Bustling Mumbai is home to the IITB-Monash Research Academy, a collaboration that gives PhD students opportunities to work closely with industry to find solutions to global problems.

### CHINA

**Suzhou**

The Southeast University-Monash University Joint Graduate School offers masters and PhD study options in areas ranging from industrial design and IT to business.

**Suzhou**

### INDONESIA

**Jakarta**

Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders – those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

### MELBOURNE

**Clayton**

Our biggest campus, home to 38,000 students and nine of our ten faculties. Everything you need is on campus – food outlets, sporting facilities, health services and more.

**Caulfield**

Our Caulfield campus hosts 19,000 students and is our base for Art, Design and Architecture, and Monash Business School as well as some Arts and IT courses.

**Parkville**

Our dedicated Pharmacy and Pharmaceutical Sciences campus hosts 2000 students and is part of Australia’s leading health and biomedical precinct.

**Peninsula**

A coastal home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education and select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

FROM DAY ONE, A MONASH EDUCATION SETS YOU ON THE PATH TO FUTURE CAREER SUCCESS.

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills, and gain a competitive edge in the graduate employment market.

CAREER CONNECT

Our Career Connect program gives you access to experienced coaches and industry-based professionals. Take part in employability workshops, small-group career conversations and, in your final year, one-on-one coaching.
monash.edu/career-connect

STUDENT FUTURES

Our Student Futures platform allows you to collate the real-life skills that will show employers you have what they’re looking for, taking into account not just your university activities, but those that are part of your ‘outside’ life – paid work, family responsibilities, and contributing to your community.
monash.edu/student-futures

DEVELOP LEADERSHIP

While studying, you’ll be encouraged to foster the skills for effective leadership that will enable you to positively influence the University, your community and, eventually, the world.
monash.edu/students/leadership

MENTORING

Throughout your studies, you’ll have the opportunity to be a mentor or be mentored. You can share or gain insights about life at university, career planning, building employability, as well as future goals.
monash.edu/mentoring

WORK-INTEGRATED LEARNING

Incorporate professional experience into your studies through clinical placements, fieldwork, study tours, placements, or internships.

SCHOLARSHIPS TO UNLOCK YOUR TALENT

At Monash, we believe in unlocking your potential to make a difference in the world.

MONASH INTERNATIONAL LEADERSHIP SCHOLARSHIP

If you...
Are an academic high-achiever able to demonstrate your potential to be an ambassador for the University.

The offer
Tuition fees are paid until the minimum number of points for your degree are completed.

Assessment
You’re assessed on a separate scholarship application containing a personal statement that must be submitted once you’ve received a full unconditional Monash course offer. Some courses and qualifications are excluded.

MONASH INTERNATIONAL SCHOLARSHIP FOR EXCELLENCE

If you...
Are one of the top 10 students to achieve an ATAR of 98 or above through the International Baccalaureate or Australian Year 12 systems in 2021.

The offer
A$10,000 per 48 credit points (up to A$40,000) for the duration of your course.

Assessment
No applications necessary. You’ll be automatically assessed for this scholarship.

For a complete list of scholarships offered by Monash University, including honours and research scholarships, scholarships for current students, faculty and donor scholarships, visit [monash.edu/international-scholarships](http://monash.edu/international-scholarships).
STUDY GRANTS

At Monash, we’re committed to helping you make change to the world we live in. With International Study Grants valued at up to AUD$10,000, as a credit towards your tuition fees, we’ll help you reach your full potential and achieve your career goals and aspirations.

As an international student applying to study an undergraduate course at Monash University in Australia, you’ll automatically be assessed for a Monash University International Study Grant offer.

• You’ll need to have a conditional or full offer letter to study at a Monash Australia campus.
• Study Grants are offered at either AUD$5000 or AUD$10,000 (depending on the outcome of your assessment).
• Depending on the offer amount, this is paid in either one or two payments of AUD$5000 per semester (and the value is credited against your tuition fees).
• You must study a minimum 12-credit-point load per semester to maintain your grant.
• You can defer your grant. However, to remain eligible, you must take it up again in the same calendar year it was offered.

Please note that Monash University International Study Grants are limited, so we encourage you to apply early.

AM I ELIGIBLE?

You must first apply for a Monash course. Monash University International Study Grants are awarded based on select eligibility criteria including:

• Study level – new commencing students undertaking undergraduate degrees are eligible.
• Academic criteria – you must meet our academic entry requirements and have a conditional or full offer letter to study at a Monash Australia campus.
• Citizenship – Monash is committed to providing equitable access to education from under-represented regions and countries. We’re also dedicated to building a diverse student body cohort across our course offering.

For further information, visit monash.edu/study/fees-scholarships/international-study-grants

1 Study grants are offered at the discretion of Monash University Australia. Grants are limited.
2 The amounts, eligibility and conditions specified here are for international students commencing study in 2021. Amounts, eligibility and conditions for entry in 2022 may differ.
3 Please note that these Study Grants are not available for TNE or sponsored students.
4 Some courses may be excluded. Please contact the university to find out more.
Our Australian base is a vibrant, multicultural city that offers an abundance of cultural festivities, international sporting events, cafes and restaurants with cuisines from around the world, beautiful parks and beaches, and an eclectic mix of music and arts. You couldn’t pick a better place to live.

As one of the world’s most liveable cities, you can expect excellence in public transport and healthcare, as well as opportunities for casual work while studying. Plus, Melbourne is renowned as a welcoming environment for international students, providing a home away from home.

1 Economist Intelligence Unit 2019.
ON-CAMPUS ACCOMMODATION

On-campus accommodation is supported by live-in staff and student leaders, making campus life a breeze. There’s also 24-hour security on campus, and a thriving events and activities program to help you settle into your new community.

Prices for on-campus accommodation range from approximately $240 to $306 per week. Applications are free and open in September. You can choose from traditional halls of residence, self-contained studio apartments or shared apartments.

With students from over 70 countries and a wide range of facilities on your doorstep, discover why on-campus accommodation is much more than just your room.

monash.edu/accommodation

Cost of living

Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget.

Here are some costs associated with living and studying in Australia, and should be used as an approximate guide. These figures are estimates only, and may vary depending on your location and lifestyle. Rent, for example, is more expensive in some areas of Melbourne than others. You may also need spending money for things such as medication and other personal items, such as clothes. All costs are subject to inflation. Depending on your chosen degree, additional costs may apply for class materials and other course requirements. Please make sure you check any additional costs for your course before commencing your studies.

OFF-CAMPUS ACCOMMODATION

• Hostels and guesthouses $90 to $150 per week
• Shared rentals $85 to $215 per week
• Homestay2 $378 per week
• Rental $165 to $440 per week
• Boarding schools $11,000 to $22,000 per year

OTHER LIVING EXPENSES

• Groceries and eating out $80 to $280 per week
• Gas and electricity $35 to $140 per week 1, 3
• Phone and internet $20 to $55 per week 3
• Public transport $15 to $55 per week
• Car (after purchase) $150 to $260 per week
• Entertainment $80 to $150 per week

1 The fees for living on campus at Monash University vary depending on the type of accommodation. On-campus accommodation costs include gas, water, electricity, internet, residential parking permit and laundry. Details: monash.edu/accommodation/accommodation/pricing
2 Any student under the age of 18 who chooses to stay in homestay must use the Monash Homestay Accommodation Service (HAS). monashcollege.edu.au/life-at-monash-college/accommodation/homestay
3 Prices shown here are based on a typical three-bedroom house.

During your studies, you may need to use public transport to travel to and from your classes and other activities. Monash University offers a wide range of transport options, including buses, trains, trams and ferries. You can also purchase a Monash University SuperPass, which provides unlimited travel within the Monash University transport network for a fixed price.

monash.edu/transit

LIVING ON CAMPUS

Start with a short stroll to class before lunch. Study on the lawns in the afternoon. Gyms, sports fields and even restaurants – they’re all on your doorstep if you live on campus.

Scan here for an interactive tour of our Clayton campus.

Peninsula campus’ Gillies Hall is the largest commercial Passive House building in Australia, and is the most energy-efficient structure Monash has built. Gillies Hall won gold in the Architecture – Multi Residential – Constructed category at the 2019 Melbourne Design Awards for its green credentials.
Monash College offers two academic pathways into Monash University undergraduate degrees: Monash University Foundation Year, and Monash College diplomas. All you need to do is decide which is best for you.

Both options:
- offer international students guaranteed entry into their chosen degree at Monash University
- demonstrate our teaching style
- have multiple intakes throughout the year to align with your high school exams
- use technology to make learning more interesting and practical
- have proven success in developing high-performing graduates.

FOUNDATION YEAR
Prepare for success at Monash University with direct entry into undergraduate degrees from all 10 faculties. The Monash University Foundation Year is a pre-university program that will help you develop the academic and English skills to the level expected of Monash University students, while studying subjects that get you ready for your future undergraduate course.

At a glance
- University entry: first-year Monash University
- Location: Docklands
- International locations: Indonesia, Malaysia, Sri Lanka, China
- Duration: 12 months (alternative entries available)
- Intake: January and July
- Contact hours: five hours a week per unit
- Entry requirements: see page 92.

Benefits of the Foundation Year program
- You have flexibility to choose your subjects
- There are no subject prerequisites for entry
- You can enter into any of the 10 faculties at Monash University
- It’s the only pathway into courses in medicine, nursing, health sciences, pharmacy, music and law.

DIPLOMA
Specialise from day one with a Monash College diploma and fast-track into second year. Our diploma program offers international students guaranteed entry into the second year of their destination Monash undergraduate degree. All you need to do is pass all of your units and meet the set entry requirements.

At a glance
- University entry: second-year Monash University
- Location: Docklands
- International locations: Sri Lanka, Indonesia, India
- Duration: Part 1: four to eight months, Part 2: four to 12 months
- Intake: February, June and October
- Contact hours: five to seven hours a week per unit
- Entry requirements: see page 92.

Benefits of the diploma program
- Specialise from day one – only study subjects related directly to your degree
- Flexible entry and exit points
- Fast-track your studies by studying three trimesters a year
- Direct pathway into the second year of art design and architecture, arts, business, education (double degrees only), engineering, information technology and science
- Prepare for university teaching style with a combination of interactive lectorials and small tutorial classes.

1 Provided that you meet the set entry requirements and prerequisites.
2 New campus opening 2021, subject to regulatory approval.
3 Entry requirements into Monash College and Monash University apply.
4 Standard intakes.
We offer three English language courses; the one that’s right for you will depend on your level of English and your chosen Monash degree. When you apply, we’ll provide you with an offer for the best English course for you.

**Monash English**
This course helps improve your English language skills to prepare you for entry into Foundation Year, Monash English Bridging or Monash University.

**Monash English Bridging**
A 10, 15 or 20-week program that’s ideal if you’ve met the academic requirements for Monash but have narrowly missed the English language requirements. Monash English Bridging prepares you for the English language and academic expectations for both diplomas and for Monash University.

**Introductory Academic Program**
A five-week program for students who’ve received a full offer to Monash University. The Introductory Academic Program provides academic skills training to give you a head-start in your university career.

**Why study English at Monash?**
- Courses designed for students going to Monash
- Qualified teachers who understand the needs of students going to university
- Make friends and settle in before you start at Monash University.

**English pathway for VCE English as an Additional Language (EAL)**
If you’re a VCE international student and your VCE EAL score is between 25 and 29 or between 30 and 34, you may still be eligible for entry to Monash University by completing the Monash English Bridging program. Email study@monash.edu to find out more about your study options.

---

**CHOOSE YOUR ENGLISH LANGUAGE PATHWAY**

- **Enter with a full offer to Monash University**
- **Introductory Academic Program**
- **Monash English Bridging**
- **Monash English**
- **Monash English Bridging**
- **Monash University**

---

1. This is only applicable to Monash University undergraduate courses with lower English language requirements that require a VCE EAL study score of 25 for direct entry.
2. This is only applicable to Monash University undergraduate courses with higher English language requirements that require a VCE EAL study score of 25 for direct entry.
3. Monash English Bridging is not accepted for entry into all Monash University undergraduate courses.
Monash Arts’ international educational experiences give you the chance to get your hands dirty. When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective.

Many programs are supported by generous scholarships and assistance packages.

Semester exchange
Choose from more than 150 partner institutions in Asia, Africa, Europe and the Americas, gaining credit towards your degree while seeing the world.

Global study tours
Complete a unit overseas in two to four weeks. You’ll learn from inspiring academics and classmates in places as diverse as China, Fiji, France, Chile, Indonesia or Rwanda.

Global work-integrated learning
Rub shoulders with US Congress, or intern with Oxfam in South Africa. Placements and industry projects are offered for credit as part of most degrees.

Swap your seasons
Make the most of your semester break. Travel to a vibrant city abroad and complete a short study program for credit.

Try Malaysia
Experience our Malaysia campus on the Global Intercampus Program (GIP). You’ll also get the benefit of funding packages and in-country support services.

Italy awaits
Spend four to 12 weeks in Prato, Italy, completing a wide range of unit offerings such as Italian, law or criminology.

Funding while abroad
By applying for courses overseas, you’re automatically considered for a share of more than $2 million in scholarships.

Go global
Build a professional network while you’re still studying. Our Global Discovery Program taps into the expertise of some of our brightest alumni – students have previously travelled to cities such as London and New York. Learn more at monash.edu/global-discovery.

Change how you learn.

STUDY ABROAD.

When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective.

1 Due to the Covid-19 pandemic, international travel restrictions are in place at the time of printing. Consequently, our offer of study abroad programs will be dependent on and subject to international travel restrictions. For further information please visit monash.edu/study-abroad/study-abroad.
In this video, two professors at different universities join forces to demonstrate quantum physics:

At Monash we offer a mix of both in-person and online learning. Some Monash courses are fully offered online, while others provide the opportunity to undertake some studies online and some on campus. We also offer online learning if you’re unable to attend on-campus due to current travel restrictions. While travel restrictions are in place you can commence and continue your studies fully supported by our education technologies and academic staff. Once you’re able to travel, you can transition to on-campus programs.

Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you’ll be listening to livestreams of lectures, attending virtual tutorials via Zoom, and attending virtual tutorials via Zoom; in others you’ll be watching chemistry prac recorded by our lecturers and teachers.

At Monash, we want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning. These include Moodle, Echo360, Panopto, and Zoom.

**Moodle**

Moodle is an essential go-to point for:
- Course content
- Reading lists
- Assessment and study requirements
- Assignment uploads
- Discussion forums
- Contact information for tutors and lecturers.

**Echo360 and Panopto**

You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

**Zoom**

Zoom is a technology used to facilitate meetings and online classes. These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.
University study takes commitment and drive, especially if you’re moving to a new city or country.

We can help you settle into university life by providing an extensive range of support programs and services. And to help you maintain the momentum, we’ll put you in touch with like-minded people to share information, build networks and get the support to keep you going. We recognise the richness and depth of our Monash community, and are committed to diversity and inclusion.

Details: monash.edu/study/student-life

Campus security

While Melbourne is considered one of the world’s most liveable cities¹, at Monash we always look out for our students’ welfare. We provide a range of security services to ensure our students are safe at all times. These include 24-hour security patrols, security escorts, and an evening security bus between our Clayton and Caulfield campuses.

Details: monash.edu/about/safety-security

Monash Connect

Monash Connect Student Service Centres are located on each Australian campus, making it easy for you to understand administrative processes and access information. Staff can assist with your questions about admissions, enrolment, fees, student visas, accommodation, language support, academic support, graduates, scholarships and finding your way around campus. We now offer ‘live chat’ to new and existing students.

It’s just another way we’re making it easier to find out what you need to study at Monash. Details: monash.edu/connect

Airport pick-up

Monash University welcomes all new international students with a free airport pick-up service to take you to your accommodation. To arrange a pick-up, you must submit an airport pick-up request form at least three working days before you arrive in Australia.

Details: monash.edu/study/international/preparing/reception

Monash Professional Pathways

Offering a 12-week internship and work-readiness training, the Professional Year Program from Monash Professional Pathways helps you obtain the skills and experience that employers demand. Details: monashprofessional.edu.au

Disability support services

If you have a disability, medical or mental health condition that may impact on your study, Disability Services can support you. Registered students can access services such as academic support, assistive software and equipment loans.

Details: monash.edu/disability

Wellbeing

Monash offers expert health and wellbeing counsellors, medical practitioners and multi-faith chaplains to support you in all facets of your life. Information is provided on orientation on a wide range of topics, including settling into life in Australia, healthcare, transport, student visas, safety, getting connected, and opportunities to make new friends. We also have an informative handbook specifically for new Muslim students studying in Victoria. You can download a copy of the Salaam Monash handbook in English, Bahasa Indonesia or Arabic from monash.edu/salaam-monash

It will provide information about adjusting to life in Australia and studying at Monash, including campus maps, lists of social groups, and a directory of halal outlets. Alternatively, you can pick up a copy of the handbook from Monash Connect on your campus.

Details: monash.edu/health

Clubs and societies

More than 100 student-run clubs and societies organise activities, events, competitions, productions, get-togethers, seminars, camps, conferences and more for our 10,000-plus student members. There’s a wide variety of clubs on offer – academic, cultural, spiritual and special interest – to put you in touch with like-minded people. Our involvement in more than 50 sports means it’s easy to get involved – try our athletics, table tennis, dance, badminton, basketball or soccer clubs.

Details: monash.edu/study/student-life/clubs-and-societies

Family support

If you have children or other family commitments, Monash provides advice regarding childcare, primary school, playgroups, school holiday care, and other child and family support matters. We have arrangements with childcare centres at our Clayton, Caulfield and Peninsula campuses. Social events for international students with families are also held throughout the year.

Details: monash.edu/childcare

Conversational English Programs

We offer a range of free programs to help you become savvy in Australian culture, further develop your English language skills and engage with students from all over the world. Let’s Chat programs are fun, obligation-free group conversation sessions. Peer Support provides one-on-one assistance with written English. No assessment, no homework, no pressure – all you need is your enthusiasm to participate in practical sessions designed to refine your conversation skills in a supportive environment.

ART, DESIGN AND ARCHITECTURE

Bachelor of ARCHITECTURAL DESIGN

**COURSE CODE:** P2001  **CRICOS CODE:** 019372G

Progressive, dynamic and regarded by industry as a champion of change, Monash Architecture places you in a position to imagine the new environments of the future and shape the way we live and interact with one another – from our houses and workplaces to our neighbourhoods and cities.

Monash Architecture is all about the bigger picture, and gives you the knowledge to contribute to the common good of society, and a sustainable and equitable world.

In this studio-based course, you’ll study all aspects of architecture. For more than half of your course, you’ll be participating in studio learning, guided by Monash academics and industry experts. You’ll collaborate with peers in small groups to develop responses to a wide range of social and spatial issues.

Studio learning replicates the way many architectural and design practices operate. You’ll learn how to effectively communicate your ideas and responses – to clients, communities and/or policy-makers – through developing skills in visualisation, model making, digital fabrication and live presentation.

You’ll learn to use the latest architectural software to ensure that you are prepared and ready to begin your professional practice.

**Work-integrated learning**

Our architecture studios are taught by industry professionals who’ll provide you with insights and connections.

You’ll meet local and international architects, designers and industry professionals. You may learn and work in an architect’s or design professional’s office, or on-site realising actual projects.

**Why no folio?**

There is no need to have previously studied any design subjects as our first year has been developed to ensure all students gain the necessary foundation skills in freehand and computer-aided drawing to be successful in the course and in architectural practice.

**Entry requirements**

2022 ATAR for international students 75

GCE A Level 8

All India Senior School Certificate 70%

Indian School Certificate Examination 65%

Advanced Placement, America 6

ACT, America 25

SAT, America (Total score out of 1600) 1160

College Scholastic Ability Test 310

High School Diploma, Republic of Korea 72%

High School Diploma, Vietnam 8.14

Hong Kong Diploma of Secondary Education 17

International Baccalaureate IB Diploma 26

Ontario Secondary School Diploma – Grade 12 78.50%

SMAS, Indonesia – 10-point scale (6 pass) 8

Monash College Diploma Part 2 63.50%

For information on ‘How to calculate your entry score for the listed qualifications in the guide’ go to page 46.

**Prerequisite subject levels**

English (Australian Year 12 equivalent). VCE, IB, GCE A Levels, Advanced Placement

English: Level 1. For prerequisite subject requirements for the above level (and other qualifications), refer to pages 88-89.

**Monash English language level**

Level A (see page 91).

**Professional accreditation**

Our Monash Master of Architecture is validated and recognised in:

- Malaysia (Board of Architects Malaysia)
- Singapore (Singapore Board of Architects)
- Architects Accreditation Council of Australia (AACA)
- Australian Institute of Architects.

---

1. See pages 142-145 for the full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/apply

2. The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2023 and are applicable to specific Diploma programs only. Refer to monashcollege.edu.au/missions/diplomas for more information.

---

**DID YOU KNOW?**

Guaranteed entry for Monash students into Master of Architecture.

Monash students who have successfully completed our Bachelor of Architectural Design are guaranteed entry into our two-year Master of Architecture, which is the required pathway to become a registered architect.

---

**Careers Options**

Architectural and engineering graduates find employment as urban designers and planning consultants, town planner, urban design consultant, landscape architect, heritage and planning consultant, property developer, conservationist, interior design consultant, urban informatics designer.

---

**Jean-Christophe Olivier-Petite**

Bachelor of Architectural Design and Master of Architecture

I fell in love with Australia and chose Monash because my high school mentor recommended the University to me because of its teaching and culture. One of my favourite aspects of studying architecture at Monash was the range of architectural practices I could learn about and work with on projects that dealt with real-life issues. Throughout my studies I worked on a few landscape and water-sensitive projects which allowed me to graduate with a job at a landscape architecture firm.”

---

2. The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2023 and are applicable to specific Diploma programs only. Refer to monashcollege.edu.au/missions/diplomas for more information.
BACHELOR OF DESIGN

COURSE CODE: F2010
CRICOS CODE: 08534E

Learn how to think like a designer to solve complex problems with curiosity, agility, experimentation and creativity.

Being a design professional is a creative and varied career with endless opportunities to work with different clients and projects, and at Monash you’ll receive a design education that will enable you to make a sustainable difference and have impact. Apply for the Bachelor of Design then choose your specialisation.

You’ll start in a common first semester, which includes a foundation studio and drawing unit. There is also a Theory of Design sequence of study and a professional practice unit in your final semester to prepare you for your career.

Design studio-based learning

In our interdisciplinary based studios you’ll gain the knowledge, skills and capability to create imaginative and effective solutions and design new possibilities.

Professional recognition

Our four specialisations build a high level of design expertise and you’ll graduate with a degree recognised by the Design Institute of Australia (DIA).

Design industry placement

With our ‘industry placement’ elective, you’ll gain invaluable real-world design experience working in a small or large-scale design practice relevant to your discipline. You’ll build contacts and confidence while gaining on-the-job practical experience.

Entry requirements

- For 2022 AAT for international students: 70
- GCE A Level: 7
- All India Senior School Certificate: 66%
- Indian School Certificate Examination: 60%
- Advanced Placement, America: 8
- ACT, America: 25
- SAT, America: Total score out of 1600 = 1120
- College Scholarships-Ability Test: 500
- High School Diploma, Republic of Korea: 67%
- High School Diploma, Vietnam: 8
- Hong Kong Diploma of Secondary Education: 16
- International Baccalaureate: IB Diploma: 25
- Ontario Secondary School Diploma – Grade 12: 75.4%
- SMA1, Indonesia – 3-point scale (8 pass): 2.7
- STPM, Malaysia: 7.3
- UEC, Malaysia: 6
- Monash University Foundation Year (commencing MSIF in 2022): 63.75%
- UNE2 Foundation Studies: 6.5
- University of Melbourne, Trinity College Foundation Studies: 67%
- Monash College Diploma Part 1: 75%
- Monash College Diploma Part 2: 50%

Prerequisite subject levels

English (Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

For prerequisite subject requirements for the above level’s (and other qualifications), refer to pages 88-89.

Monash English language level

Level A (see page 91).

Specialisations

Communication Design

In our Communication Design studios, you’ll learn how to use both hand-generated techniques and computer-aided design applications like Photoshop, Illustrator and InDesign, developing technical ability in these essential design applications. You’ll be encouraged to experiment with image-making, typography, analogue and digital media, UX, motion design and more, as ways to solve an array of design challenges. In the workshops you’ll learn how to work with different materials and learn how to use digital tools like laser-cutters, 3D printers, robotics, coding and animation software.

Group design projects will teach you how to think like a designer, developing the strategic skills to identify design problems and working your way through the design process. Working with a range of industry clients on real projects, you’ll gain first-hand experience and build a portfolio of work that will support your entry into a design career.

Industrial Design

From developing cutting-edge transport solutions to designing new furniture and lighting design, and improving medical equipment and products that aid developing countries – the work of industrial designers advances the human experience, making a better life for us all.

You’ll be guided by Monash academics, practicing industrial designers and top researchers as you learn to use design as a problem-solving tool in hands-on, practical studios.

In our Industrial Design studios you’ll be introduced to the fundamental principles of understanding and controlling 3D form. You’ll build your knowledge of how things work and understand more clearly, the processes of iteration, refinement and manufacturing.

In your final year, you’ll develop your own project from concept to prototype and present your work at our end-of-year graduate exhibition.

Spatial Design

The work of spatial designers surrounds us – from corporate and domestic interiors, retail outlets, restaurants, entertainment venues and exhibitions, to virtual worlds and vast public spaces activated by interactive technologies.

You’ll be guided by Monash academics, practicing spatial designers and top researchers to learn how to conceptualise and design objects, spaces and experiences at a range of scales, working on projects across architecture, urban spaces, performance and events, virtual environments, museums and galleries.

In our Spatial Design studios, you’ll develop the technical interior and exterior spatial and structural knowledge and learn how to combine that with a new approach to designing for people and places that engages immersive technologies, user experience and influences human behaviour.

You’ll work on projects ranging from intimate private spaces to large public structures, you’ll have the opportunity to learn from up-and-coming designers and established industry practitioners.

Collaborative Design

This opportunity within the Bachelor of Design is answering an increasing need for design professionals with blended skill sets, underlined by a single discipline, creating new career opportunities.

These areas include service design, experience design, and co-design where designers are intersecting their skills with community engagement, entrepreneurial mindsets and the skills from a range of other design project participants.

This course structure allows you to acquire a range of design capabilities and understandings from each studio, which can then intersect and be built upon in your final year.

WHY NO FOLIO?

With no folio entrance requirement, this degree is open to anyone who is curious and passionate. You’ll learn the technical capabilities in free hand drawing and computer-aided design and strategic skills to be a successful designer.
Bachelor of FINE ART
Realise your artistic ambitions with the support of a community of creative practitioners.

Highly regarded by the Australian arts industry and internationally recognised, Monash Fine Art is a dynamic and culturally diverse community that encourages freedom of expression.

Monash Fine Art is distinctive in its establishment of a cross-disciplinary foundation for your first-year studies. You’ll work and collaborate within and across established and emergent disciplines and technologies.

Our lecturers are nationally and internationally recognised practitioners, artists, historians and cultural commentators. They are passionate about teaching contemporary art, bringing their innovative contemporary art practice and industry experience to your education.

Our Bachelor of Fine Art has two specialisations which you select when you apply:

- Fine Art
- History and Curating.

Specialisations
Fine Art
COURSE CODE: See page 94 CRICOS CODE: 05751N

With dedicated art studies and workshops, you’ll have access to the resources and expertise you need to focus and expand your passions and develop your artistic practice.

Studio classes will build your skills, knowledge and experience of the art world, as you meet artists, curators and writers, and learn about the art industry through visits to galleries, exhibitions, art studios and biennales.

You’ll develop skills and capabilities across a range of art practices, including painting, drawing, photography, sculpture, jewellery, glass and printmaking, as well as studying video art, film, installation practices and 3D printing and modelling for artists.

Absorbed in the making, exploration, conceptualisation and analysis of contemporary art for the duration of your course, you’ll graduate with a critically informed studio practice, a unique body of work and the confidence and knowledge needed to succeed as a professional artist.

Art History and Curating
COURSE CODE: See page 94 CRICOS CODE: 05802G

With interest in galleries and museums growing, the art sector is seeking people with a strong visual language, specialised knowledge of the art world and excellent communication skills. Our unique Bachelor of Art, History and Curating will equip you with these skills and help you succeed in a creative and influential career as a curator, researcher, or writer.

Co-located with the nationally significant Monash University Museum of Art (MUMA), you’ll learn about the history of art from foremost scholars and art writers, and acquire skills in the theory and practice of curating from leaders in the field.

In the core and elective units, you’ll explore many different periods and places, including Italian Renaissance and Baroque art, modern and contemporary art, photography, film and Indigenous art. Through this study, you’ll develop a broad base of knowledge that sets you up for a career in Australia or abroad.

Internship Opportunities
Our Fine Art internships connect you with key industry figures and creative organisations through real-world work experiences. You’ll develop a deeper understanding of workplace culture and increase your network of contacts.

2 The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2023 and are applicable to specific Diploma programs only. Refer to monash.edu/degree-plans/diploma-plans for more information.
3 International students applying through VTAC must submit a digital folio and refer to statement. See monash.edu/media/apply

Hindsight by Bachelor of Fine Art student Jacinta Lead
is a series of seven oil paintings that explore the ideas of concealment and abstraction of truth. Jacinta is the winner of the 2020 Tolarno Hotel Award for her graduate work.
BACHELOR OF ARTS

Learn to think critically, apply reason and solve complex problems.

The Bachelor of Arts is designed to give you maximum flexibility and choice. You can choose from over 30 areas of study to build a genuinely transformative experience.

The course is built around deeply enriching experiences, and via your elective units, offers you four professional avenues through which to develop your unique career pathway. You can choose from local and international internships, professional engagements and entrepreneurial opportunities, and the choice of more than 50 global immersion programs, preparing you to live and work in complex and culturally diverse environments, while building a community of like-minded peers.

The Global Immersion Guarantee

As a Bachelor of Arts student, you’ll have access to our award-winning Global Immersion Guarantee.

Designed for both Australian and international students, and with flights, accommodation, and local travel all paid for, in this fixed-unit you’ll be placed at the intersection of society, technology and environment. Travelling to China, Italy, India, Indonesia or Malaysia, you’ll think about the human impact on the environment, and how to balance environmental protection and sustainability within economic and social development.

MONASH CASH DIPLOMA
The Bachelor of Media Communication addresses the growing demand for graduates with new and diverse skills in communication, and a critical understanding of how media influences our world.

You’ll develop your practical experience and work-ready skills to build a portfolio of real work throughout your course. The result is tangible pieces of work you can present to potential employers.

Monash Media Lab
The multimillion-dollar Monash Media Lab is one of Australia’s most advanced media facilities allowing you to build your portfolio of work from day one. Used for teaching as well as production/commercial use, the facilities include:
• a full broadcast TV and video production studio
• radio/sound production studios
• an open-plan newsroom
• additional teaching and learning laboratories.

Specialisations
Journalism
This specialisation gives you the sharp and creative skills required to excel in a rewarding journalism career. Gain expertise in bringing together journalism practice, theory and research, with advanced skills in writing and communication for professional practice.

Media
This specialisation will give you a strong, grounded understanding of contemporary media. You’ll gain in-depth knowledge of media studies as a discipline, and develop skills in media analysis that have applications across social media strategy in organisations, to media management and communication and media policy.

Public relations
In this specialisation you’ll learn the theories of public relations and communication, understand the importance of the management of stakeholder relationships and reputation, acquire skills in public opinion analysis, learn to identify and manage organisational issues, and develop a crisis management plan.

Screen
Screen industries, technologies and cultures are changing faster than ever. This specialisation gives you the knowledge to understand these transformations, navigating how film, television and newer screen formats have led to, and function within, contemporary media ecologies.

Bachelor of MUSIC

The Global Immersion Guarantee
As a Bachelor of Music student, you’ll have access to our Global Immersion Guarantee. Designed for both Australian and international students, with flights, accommodation, and local travel all paid for, in this fieldwork unit you’ll be placed at the intersection of society, technology and environment. Travelling to China, Italy, India, Indonesia or Malaysia, you’ll think about the human impact on the environment, and how to balance environmental protection and sustainability within economic and social development.

Bachelor of ACCOUNTING

**Course Code:** B2020 CRICOS Code: 097256G

Accounting plays a critical role in society and provides a strategic function in all organisations.

Accounting is more than a numbers game, and it’s vital to business success. In this course, you’ll gain solid technical skills across key areas such as information systems, corporate finance, auditing and assurance, financial reporting, and data analysis. You’ll learn to interpret data and develop insights that will help organisations effectively allocate resources and make better business decisions.

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis to communication and professional judgement. Because of this, it’s perfect if you’re set on a career in accounting, or looking to complement another skill set with accounting expertise.

As the largest business school in Australia, we can equip you with the broader business and advisory skills needed to build a successful accounting career. You’ll also gain enterprise skills to prepare you for work as we know it today and adapt for success into the future.

Gain professional recognition and, in some cases, the right to practice. If you’ve completed the required units, you’ll be eligible to apply for provisional membership with:

- CPA Australia
- Chartered Accountants Australia and New Zealand (CA ANZ)
- Association of Chartered Certified Accountants (ACCA)
- Chartered Institute of Management Accountants (CIMA).

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis to communication and professional judgement. Because of this, it’s perfect if you’re set on a career in accounting, or looking to complement another skill set with accounting expertise.

Bachelor of ACTUARIAL SCIENCE

If you’re big on numbers and the role they play in our day-to-day lives, actuarial science can help you turn your curiosity into a promising commercial career. Actuaries play major roles in a range of organisations, and are often considered the backbone of financial security. You’ll learn to apply mathematical concepts to real-life scenarios, and use your analytical skills to help companies plan for the future. You’ll learn to identify, analyse and assess risk in a range of business areas – including insurance, superannuation, business and financial services, scientific and social research, and engineering.

As you further develop your maths and analytical skills, you’ll start to use a range of concepts and data findings to solve real commercial problems.

Monash Business School has the only Department of Econometrics and Business Statistics in Australia. It also has the largest concentration of econometricians and statisticians in the region. This course was designed by actuaries to help students gain professional accreditation and be qualified to work as an actuary according to international standards.

Components of your study can be used to apply for recognition of Part 1 of the additional study required by the Institute of Actuaries of Australia. Parts 1 and 2 are required to become an Associate of the Institute of Actuaries Australia.

I’ve had an interest in maths since high school and the idea of applying maths to evaluate the risks associated with business has always been interesting to me. As part of my degree, I’ve gained insight into the industrial application of actuarial models. From health insurance to superannuation, it’s fascinating to see how the topics we study translate into a market of products that serve clients’ needs.

Most of my teachers have had years of experience in the actuarial industry, which has given me real-world examples of how theory is applied in practice.

The course is giving me a taste of everything Actuarial Science has to offer, so I can pursue related roles in the future.”

ARNAV PRASAD
Bachelor of Actuarial Science and Bachelor of Finance.
Bachelor of Banking and Finance

Course Code: B2042 CRICOS Code: 084684E

Examine the systemised movement and management of money.

From capital markets to financial forecasting – futures, derivatives, bonds, stocks and more – you’ll explore what makes banking and finance such a central part of the world and develop the skills to build a successful career.

You’ll focus on the key theories, practices and concepts that underpin the banking and finance sector, and the skills required for managing money in an institutional setting.

In fact, your entire course will be structured around building your knowledge and skills in this area – with a focus on corporate finance, commercial banking, equity markets, financial planning and investment banking.

You’ll also gain enterprise skills to prepare you for work as we know it today and also for success into the future.

As the largest business school in Australia, we offer innovative teaching facilities. As part of this course, you can access our Simulated Teaching and Research Laboratory and use market simulation programs to enhance your decision-making ability.

Bachelor of Business

Course Code: B12000 CRICOS Code: 056414D

Understand how the key elements of today’s business environments work together to make a company or organisation successful.

If you’re intrigued by what makes markets, brands and organisations function effectively, a business degree could be a perfect fit.

This is a wide-ranging course designed to give you the skills and experiences you’ll need for a career in business. You’ll also be prepared for roles with start-up and not-for-profits. You’ll start by studying the core units of accounting, marketing, business law, management, economics, business statistics and finance. Then, once you have a taste for each area, you’ll choose to major in one or two areas to develop deeper skills. In fact, your second major can be from within the business school or a different faculty.

You’ll also gain enterprise skills to prepare you for work as we know it today and also for success into the future.

As the largest business school in Australia, we offer more ways to combine overseas travel with study**, corporate projects and industry placements, and a range of interdisciplinary double degrees that can lead to the world’s best employment opportunities.

BACHELOR OF BUSINESS ADMINISTRATION
COURSE CODE: B2007 CRICOS CODE: 07904M

Entrepreneurial flair mixed with practical skills can turn a great idea into a booming business.

From bringing ideas to life to managing a team, doing a Bachelor of Business Administration is your chance to get a real-world understanding of the many factors that come together to make a business work.

Hands-on, yet commercially focused, this comprehensive course will teach you the fundamentals of business – from management to marketing and everything in between.

As you develop a strong foundational knowledge in business, you’ll start to focus on a specific area, choosing to major in accountancy, finance and economics, management practice, or marketing and communications. Alternatively, you can choose to major in business administration to gain a broad overview of business operations.

This course is located at our Peninsula campus, and features smaller classes that offer a supportive academic environment.

Real-world learning
Many learning opportunities are also available outside the classroom, all designed to get you career-ready. These opportunities include internships and industry projects, volunteering, studying abroad with partner universities, and employability programs.

COURSE CODE: B2001 CRICOS CODE: 01382G

Join the brilliant minds of the commercial world – the people taking an analytical approach to problem-solving and influencing change in commercial settings.

If you’re a clever thinker who likes to unpack problems and consider ideas from a fresh perspective, commerce presents a world of exciting career prospects.

This course has an analytical and mathematical focus. You’ll learn to think conceptually, solve problems analytically, and use data to make informed decisions. It’s the perfect foundation for a career in business.

You’ll start by studying a range of core units to get a sense of where your interests lie. You’ll then begin to build specialist skills, majoring in accounting, actuarial studies, behavioural commerce, business analytics, econometrics, economics, finance, management studies, marketing science, or sustainability. You can also choose to do a second major from within the business school or from another faculty.

This course could be for you if you have strong mathematical skills and enjoy analysing problems to find the best solutions. With 12 double degree options and 11 majors, our Bachelor of Commerce offers a huge amount of flexibility.

As the largest business school in Australia, we offer a wide range of interdisciplinary double degrees that can lead to employment opportunities in a number of industries around the globe.

At Monash Business School, our goal is to create graduates who look beyond their discipline to find innovative solutions for the world.

Bachelor of ECONOMICS

**Course Code:** B2031 CRICOS Code: 001447E

Explore the science of decision-making and the key to unlocking how the world works.

Explore the principles our economy is built on, and learn how they impact the way we spend, save, work and live. A Bachelor of Economics will teach you to think analytically, solve problems logically, and make informed decisions in a commercial context.

You’ll learn how to use data to make better business decisions, study the impact of individual economic choices, and build an in-depth understanding of the way local, national and global economies function.

You’ll study a broad range of areas – including human behaviour, development economics, politics and business – and learn to bring this information together to form valuable insights. You’ll further focus your studies by following one of these specialisations.

**Specialisations**

- **Economics and economic policy**
- **Mathematical economics and econometrics**
- **Mathematical economics and finance**

**Bachelor of FINANCE**

**Course Code:** B1203 CRICOS Code: 084667B

Develop the skills you need to manage money well, whether for big corporations, small businesses or governments.

Few things impact our society more than the exchange of money. The way we earn, spend, save, borrow and invest money – both as individuals and as a collective – is reflected in everything from interest rates to property prices.

You’ll learn how to manage and invest money in the form of assets, equity and liability. Your studies will also cover the financial policies and products that allow money to flow efficiently between individuals, businesses, government and other organisations. You’ll explore corporate finance, equities and investments, debt markets and fixed-income securities, financial modelling and international finance. You’ll also learn to develop financial policies and products, solve complex financial problems, and use mathematical models.

As the largest business school in Australia, we offer innovative teaching facilities. As part of this course, you can access our Simulated Teaching and Research Laboratory and use market simulation programs to enhance your decision-making ability.

With a finance degree from a world-renowned business school, you’ll be prepared for a career in just about any industry, anywhere in the world.

Monash English language level

Level A (see page 91).

Bachelor of MARKETING

COURSE CODE: B2036 CRICOS CODE: 084650

Discover how the world’s most valuable brands build global recognition by using marketing as a competitive advantage.

Develop the creative and technical insights you need to help businesses build their brand.

This course will give you a combination of technical, practical and analytical skills, from understanding buyer behaviour to building social campaigns – everything you need to think and act as a professional marketer.

Your course will be tailored to building your skills in this area. You’ll have the opportunity to explore different areas of marketing including social media, advertising, consumer and buyer behaviour, campaign planning, strategy, data analysis, branding and digital marketing.

You’ll combine this specialist knowledge with a general business education to ensure you have a broad perspective of business from which to enter and progress in your marketing career.

You’ll also gain enterprise skills to prepare you for work as we know it today and also for success in the future.

As part of your course, you can access professional placements, corporate projects and industry internships with some of the most influential companies in the world.

You can participate in an overseas industry-based study program in either Europe or Asia*, programs for leadership, professional development and volunteering, and professional societies for networking.

Entry requirements

Bachelor of Education (Honours)

Semester 2

COURSE CODE: Refer to page 96
CRICOS CODE: 08286G

EDUCATION

Education makes the world a better place.

1. Are you ready to change the world through education? Do you want to be the teacher that your students remember? Choose to specialise in early childhood, primary or secondary education or a combination of these and graduate ready for a successful career, inside or outside the classroom. You can combine your primary education or secondary education specialisation with a second degree. If you’re specialising in secondary education, you’ll qualify as a subject specialist teacher in two secondary teaching areas. If you’re specialising in primary education you’ll be qualified to teach across the school curriculum, with particular expertise in one or two fields. You’ll graduate with honours, putting you ahead of the game.

2. Extra requirements

CASPPer – Non-academic selection for initial teacher education

Anyone can learn, but not everyone can teach. It takes gifted, hard-working individuals who are as passionate about inspiring young people as they are about educating them. All applicants need to complete a non-academic selection component when applying for the Bachelor of Education (Honours), including double degrees. You’ll be required to complete a mandatory online 90-minute computer-based test called CASPer. For further details, visit monash.edu/education/casper

Enrolment considerations

Working with Children Check

Before participating in professional experience in any educational setting, you must meet specific security clearances that apply to the state or territory where the placement is being undertaken. We can assist with this process once you’re enrolled.

Literacy and Numeracy Test

The Australian Institute for Teaching and School Leadership requires all students of initial teacher education courses to complete the National Literacy and Numeracy Test before graduating. We can assist with the scheduling and preparation for this test, and there are multiple opportunities to sit the test if you have any problems.

Pathways into Education

If you have narrowly missed the entry requirement for direct entry into an education double degree, consider a Monash College Diploma Part 2 program. On successful completion of the relevant Monash College Diploma Part 2, and achieving 65 per cent, you’ll be eligible for direct entry into the second year of the following double degrees:

- Education (Honours) and Arts
- Education (Honours) and Business
- Education (Honours) and Science.

See page 14 for more information.

Specialisations

- Primary education
- Science
- Arts
- Fine Art*
- Music
- Business
- Science

CAREER OPTIONS

Community education, corporate training, curriculum development, health and fitness coaching, school leadership, student welfare and teaching. Studying a double degree allows you to choose a wide range of careers, depending on your choice of partner degree.

For information on ‘How to calculate your entry score for the listed subjects’, refer to pages 88-89.

Extra requirements

CASPPer – Non-academic selection for initial teacher education

- Education (Honours) and Arts
- Education (Honours) and Business
- Education (Honours) and Science.

See page 14 for more information.
As a global top 100 engineering school, Monash attracts outstanding academics who will support you through your studies.

Engineers are collaborative and creative problem-solvers who design technology and develop innovative solutions to make things work better. Their work is key to meeting the world’s sustainable development goals, including advancing technologies for clean water, green energy, high-speed communications and transportation, advanced healthcare devices, reliable autonomous systems, and safe, smart sustainable products, homes and cities, and more.

As an engineer, you’ll apply maths and science in a practical way, and work in teams to develop new technologies and improve existing ones. The Bachelor of Engineering (Honours) has a common first year, allowing you to better understand engineering and its specialisations before choosing which to pursue in second year. Choose from aerospace, biomedical, chemical, civil, electrical and computer systems, environmental, materials, mechanical, robotics and mechatronics, or software engineering.

You’ll also have the opportunity to choose from a range of minors study options in emerging engineering fields for maximum flexibility.

Study an engineering double degree for more career opportunities and flexibility, and with only one extra year of study.

Prerequisite subject levels

</tbody>
</table>

Monash English language level

Level A (see page 91).

A total learning experience

At Monash, one of Australia’s leading engineering schools, you’ll have access to some of the world’s finest facilities, including the new MakeSpace, and the latest interactive learning spaces in the new five-storey, smart-technology-enabled Woodside Building for Technology and Design.

Our engineering courses aim to equip highly skilled engineers who are ready for the world. You can get involved in the Engineering Leadership Program, Monash Industry Team initiative, or join one of the many student clubs or teams to develop your strengths and passions, and become a well-rounded engineer.

On graduation, you’ll be known for your creative thinking, problem-solving and ability to excel in team-based environments, and be highly sought-after across many industries. As a Monash Engineering graduate, you’ll leave prepared for success, leadership, and most importantly, life.

Accelerated pathway to master’s

If you’re a high-achieving student, you can accelerate your studies. In just five years, be on track to earn both a Bachelor of Engineering (Honours) and a master’s degree in engineering. Choose from a rich selection of specialist electives and access master’s-level units while completing the elective components of your Bachelor of Engineering (Honours).

Co-operative Education Program

Complete a 3, 6 or 12-month paid Co-operative Education Program internship to kick-start your engineering career.

Learn practical engineering skills, gain real-life insights into the workforce, build industry connections and graduate job-ready.

Entry requirements

2022 ATRO for international students: 97.50
GCE A Level: 11
All Indian Senior School Certificate: 87.6
Indian School Certificate Examination: 76%
Advanced Placement, America: 83%
ACT, America: 30
SAT, America (Total score out of 1600): 1270
Collegiate Scholastic Ability Test: 340
High School Diploma, Republic of Korea: 83%
High School Diploma, Vietnam: 8.49

UNSW Foundation Studies: 8.23
University of Melbourne, Trinity College Foundation Studies: 83%
Monash College Diploma Part 1**: 66%
Monash College Diploma Part 2**: 66%

For information on how to calculate your entry score for the listed qualifications in this guide, see page 86.

Specialisations

Aerospace engineering

Join a thrilling profession in developing the next generation of flight vehicles. The Airbus A350, A400M and the Boeing 787 are just some of the astounding advances being led by aerospace engineers. Aerospace engineering is concerned with the design, development and maintenance of flight vehicles. It involves aerodynamics, aerostructures, avionics, propulsion, materials engineering and computational simulation.

As an aerospace engineer, you’ll have the chance to tackle many of tomorrow’s global challenges. You may be involved in the creation of a more environmentally-friendly passenger aircraft, or even help build a vehicle capable of exploring our solar system, and beyond.

Biomedical engineering

Imagine, design and build new technologies that transform the future of healthcare and change millions of lives for the better by studying biomedical engineering. You’ll bridge the gap between medicine and technology to create new types of diagnostics, monitoring tools and therapies, and build game-changing medical instruments and devices.

Save people’s lives by building a new diagnostic tool that identifies deadly diseases much faster and more accurately than before. Restore function to the body with new implants that interface and communicate with the brain.

Apply AI principles to advanced monitoring tools that pick up potential problems quicker than a human ever could.

Or, build your own global start-up in the growing med-tech field. Whatever you do, you’ll make a powerful impact on patients’ treatment, recovery and quality-of-life.

Chemical engineering

Chemical engineers invent, design, develop and improve processes that convert raw materials into useful products with minimal environmental impact. They’re also involved with pollution control, protection of the environment, and energy conservation and conversion. Many everyday items involve chemical engineering during some stage of their production – computer chips, mobile phones, petrol, paper and coffee, to name just a few.

You could develop products or catalysts for chemical reactions, design plants for international manufacturers, or develop alternative fuels and energy sources. Chemical engineering blends chemistry with engineering and other fields including biological science, environmental science, nanotechnology, mathematical modelling, mineral processing, management and economics.

Civil engineering

Civil engineers design and improve systems and processes that allow humans and nature to coexist with minimal impact. Modern society couldn’t function without them. We need civil engineers to design and build higher-capacity transportation systems; to construct larger commercial and industrial complexes; for water supply and pollution control; and to repair roads, bridges and other structures.

As a civil engineer, you can be involved in:

• Structures – design and oversee construction of buildings, bridges, commercial complexes, tunnels and offshore platforms.

• Water – plan and manage water supply and drainage systems for communities, agriculture and industry within the context of sustainable water use, contamination and accessibility of water as a resource.

• Transport – plan for future travel needs, design safe and efficient transport systems, and investigate transport technologies to improve road and traffic systems.

• Geomechanics – advise on foundation design, support structures, stability of slopes, tunnel design and construction, as well as the suitability of materials for infrastructure projects.

Electrical and computer systems engineering

As an extremely diverse field encompassing biomedical science, computer systems, electronics, electrical power, AI, robotics and telecommunications. Electrical and computer systems engineers investigate, plan, design, develop, construct, test, market and maintain a wide range of products and systems. As an electrical and computer systems engineer, you may design and develop digital products such as smartphones, virtual reality systems, computer games, or robotic medical devices to assist in surgery and rehabilitation.

Environmental engineering

All Monash Engineering specialisations consider sustainability, but as an environmental engineering student it will be your priority. Environmental engineering involves the implementation and management of solutions that are in harmony with the principles of sustainable development. It’s concerned with reducing energy and minimizing waste, while providing the community with the development opportunities it needs to grow. With demand on the rise for engineers graduated with environmental expertise, this will allow you to stand out from the crowd.
Materials engineering
Materials engineering is all about making new materials and improving those that already exist. It’s about making things stronger, lighter and more functional, sustainable and cost-effective.
It underpins much of engineering – if we want to make things, we need to have materials with the right properties and made using the right processing techniques. Whether it’s a next-generation jet engine, a biodegradable tissue scaffold to grow organs from stem cells, or new types of solar cells and batteries, the structure, properties and processing of materials are crucial to the final product. As a materials engineer, you’ll have the opportunity to play a significant role in almost every industry.

Mechanical engineering
As a mechanical engineer, you might design automatic control systems, create efficiently heated and cooled buildings, manage the water supply for a whole state, design wind turbines or F1 cars, work with the medical profession to create robots that can operate with greater precision than a human, or be at the cutting edge of advanced manufacturing using 3D printers to create consumer products with elegance and function.
Mechanical engineering is about the efficient use of energy for the design and function of all types of mechanisms, from the simplest to the most complex. It builds on physics, chemistry, materials, mathematics and biology to achieve this goal. If an engineering solution moves, mechanical engineering is the heart of its design.

Robotics and mechatronics engineering
Robotics and mechatronics is where mechanical and electrical engineering meet, employing computer control systems to make devices smarter and more efficient. As a robotics and mechatronics engineer, you could create planetary exploration rovers, or robots for precision manufacturing or to assist the elderly. Alternatively, you might take a household product and turn it into a truly clever device, or design the programs that control those devices.

You’ll learn how to handle vast amounts of data, and design systems that make sense of data in real-time so that, for example, a fully automated manufacturing facility can operate safely and efficiently, or a car can drive autonomously. There are two streams available to choose from – artificial intelligence (AI) and automation.

• Artificial intelligence – this stream covers neural networks and deep learning, advanced engineering design, computer vision systems, and intelligent robotics
• Automation – you’ll develop an understanding of manufacturing operations, power systems, and changing technologies.

Software engineering
Software engineering is a field that’s constantly evolving as new technologies emerge. It does everything from dispensing medicine to controlling flight paths, to monitoring and shaping our shopping habits.
As a software engineer, you’ll apply engineering principles to systematically analyse, develop and improve software to ensure it runs effectively, safely and securely. You’ll acquire high-level programming expertise, but software engineering goes well beyond writing code. Most modern IT systems are so complicated that teams of people must work together to create them.

This specialisation’s emphasis on collaborative studio-based learning gives you strong skills in teamwork, project management and communication – highly sought-after in industry. You have a huge choice of IT electives, from cybersecurity to games programming to business information systems.
You can apply for the IT Industry-Based Learning program to do a half-year placement with leading Australian and global organisations. Placements count towards your course and are supported by an A$18,000 scholarship.

Minors
Complement your engineering specialisation with a minor and tailor your studies to explore your interests and expand your career opportunities. Choose from:
• Artificial intelligence in engineering
• Civil engineering
• Computational engineering
• Environmental engineering
• Micro and nano technologies
• Mining engineering
• Renewable energy engineering
• Smart manufacturing
• Sustainable engineering

1 Please note that July intake admission into the Robotics and mechatronics specialisation will require that you undertake a bespoke course progression due to sequencing. The department course adviser will work with you to formulate a progression to suit your academic preparation.
2 Minor studies are not available to students in the software engineering specialisation.
3 Minor not available to students in the AI stream of the robotics and mechatronics specialisation.
4 Civil minor only available to students in environmental engineering specialisation.
5 Environmental minor only available to students in civil engineering specialisation.
6 Smart manufacturing minor not available to students in the automation stream of the robotics and mechatronics specialisation.
7 Sustainable minor not available to students in environmental engineering specialisation.

Joining a student team is a great way to get hands-on engineering experience, solve real problems and compete on the world stage. Develop your professional skills, form lasting friendships and network with industry to kick-start your career.

“I am passionate about space exploration and engineering is the closest I can get to working with cutting-edge technology to pioneer new ways to discover the universe. Being part of Monash Nova Rover I have met other students who share a similar passion for space. There are many benefits to being in a student team, you hear about work-related opportunities or internships and you can further apply the skills from your studies in a real-life team environment. It’s also a great way to grow your network.”

COURSE CODE: C2000  CRICOS CODE: 085120M

Drive the way we communicate and experience the world.

IT is everywhere, but its power comes from the experts who create the IT systems on which we all rely. This highly practical course gives you the problem-solving skills to drive the ongoing revolution in the way we communicate, conduct business and experience the world.

You’ll learn from the best, develop your strengths and explore new areas through our comprehensive range of majors, minors and double degrees.

For our Industry-based Learning program, which gives you a competitive edge. Gain hands-on professional experience with industry placements that count towards your degree. Through real-world industry projects or placements, and with generous scholarships available, you’ll hit the ground running towards a successful career.

Monash offers a wide range of double degrees in IT that you probably wouldn’t expect, as my course is in information technology and arts. I chose this because it allows me to work in an area that deviates from what people would consider a traditional job. It gives me the technical aspect of skills as well as communication, while arts allows me to understand the way people act and gives me an in-depth knowledge of why people commit crimes. Combine the two together and I essentially have a cybercrime course.”

VERNICE TA
Bachelor of Information Technology (Computer Networks and Security) and Bachelor of Arts (Criminology)

1 See pages 102-105 for full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/apply
2 This double degree isn’t available with all specialisations and majors; see monash.edu/apply for full details.
3 The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2023 and are applicable to specific Diplomas programs only. Refer to monashcollege.edu.au/courses/diplomas for more information.

Bachelor of LAWS (Honours)

Guaranteed experience with real clients on real cases, or in top Australian companies.

Monash is the first law school in Australia to guarantee the opportunity of practical experience. Every Bachelor of Laws (Honours) and Juris Doctor student is guaranteed this opportunity.

Represent your own clients with real cases, before you graduate. If the case goes to court, so can you, representing your own client in front of a magistrate, and negotiating with the opposing counsel on your client’s behalf.

Or get the experience employers are looking for in corporate placements with Australia’s top legal, tech, government and entrepreneurial firms, including King & Wood Mallesons and the Supreme Court of Victoria.

Study in a world top-40 law school

At Monash Law, you study what you want with the largest range of electives of any law school in Australia. Gain experience arguing complex legal arguments based on controversial real legal cases before real judges in our prestigious million-dollar Moot Court.

Where could Monash Law take you?

Our graduates are among the highest-earning and most employable professionals in Australia and around the world.

Law teaches you how to think critically, analyse complex problems and articulate solutions. These skills are demanded by employers across multiple roles and industries, including:

- retail, national and boutique law firms
- in-house legal counsel in major corporations and start-ups across all industries
- in business management, leadership, consultancy and governance.

Work in non-legal industries

We’re seeing increasing demand for Monash Law graduates in non-traditional industries. Almost a quarter of our graduates now work in non-legal industries, including commercial finance and banking, and artificial intelligence and automation.

Many of the units and experiences we offer will equip you with skills and knowledge transferable to a range of career paths.

Clinical placements

Monash Law has recently made the bold commitment to offer a guaranteed clinical education experience for all students who wish to incorporate a practical component credited towards their Monash Law degree.

Monash is the first law school in Australia to offer this, with the objectives of:

- improving graduate employability, driven by the skills and knowledge gained through participation
- providing all students, regardless of social or economic background, with pathways into the legal profession
- creating a deeper understanding and appreciation of the law and its application in the community, government and commercial world
- giving students the potential to be involved in meaningful and high-profile law reforms.

Professional practice

Enhance your professional skill set while receiving credit towards your degree, and practical experience for your curriculum vitae.

Monash/Arshur Corporate Governance and Responsibility Clinic

Work with publicly listed companies to provide advice on corporate governance and responsibility.

Supreme Court of Victoria Externship

Shadow judges at the Supreme Court of Victoria.

County Court of Victoria Clinic

Assist judges in drafting speeches, preparing case summaries and legal research on some of Victoria’s most significant cases.

Monash and King & Wood Mallesons Corporate Governance and Responsibility Clinic

Work in one of the world’s largest multinational law firms.

Environmental Protection Authority, Victoria

Provide legal advice that protects our environment for future generations.

Human Rights Clinic

Work in the area of civil litigation with Holding Redlich and the Castan Centre for Human Rights Law.

Carling & United Breweries Clinic

Join one of Australia’s biggest food and beverage companies, working within a team of talented and driven professionals to provide in-house legal advice.

Transport for Victoria

Work with the Victorian government on economic development, jobs, transport and resources.

JobWatch Clinic

Give employment law advice to workers in Victoria, Queensland and Tasmania through an accredited community legal centre.

Family Violence Clinic

Help victims of family violence with the Magistrates’ Court duty lawyer, including making victims of crime applications to the Victims of Crime Tribunal.

Joint Sexual Assault Clinic

Work sensitively with highly vulnerable clients at the South-East Centre Against Sexual Assault at Springvale Monash Legal Service.
Bachelor of BIOMEDICAL SCIENCE

COURSE CODE: M2003  CRICOS CODE: 028805K

Make a global difference in people’s lives.

Biomedical sciences help us understand disease – how it occurs, what happens, and how we can control, cure and prevent it. Breakthroughs in biomedical science improve the quality of people’s health and lives.

Our multidisciplinary approach to teaching, presence in major hospitals, and international links will give you access to an exciting world of possibilities and prepare you to make a global difference in people’s lives.

Enjoy the flexibility of taking elective units, allowing you to do a major or minor outside of the biomedical science disciplines.

Entry requirements

For the Biomedical Science (Scholars Program), higher entry requirements and prerequisites apply. See page 96 for more details.

Prerequisite subject levels

English: Level 1.
Maths or Physics: Level 3.
Science: Chemistry.

For prerequisite subject requirements for the above level(s) and other qualifications, refer to pages 88-89.

Monash English language level

Level B (see page 95).

Scholars Program for high achievers

High-achieving students can apply for our Scholars Program, which provides a range of extracurricular opportunities to engage with research staff and the advanced technical facilities used for research. Eligible students may be awarded the Monash Biomedicine Discovery Scholarship. A VCE study score of 35 (or equivalent) is required for chemistry and mathematical methods, specialist mathematics or physics for entry into the Scholars Program.

I was always interested in studying a combination of health and sciences; this led me to Biomedical Science at Monash. I enjoyed several aspects of this course including a wide breadth of subjects ranging from public health to cancer, and lots of practical and active learning with labs and group projects. I loved learning about the latest research and challenges within various fields of healthcare. This largely strengthens my academic writing skills as well as my communication, time-management and team-work skills.

Rhadika Chalikavada
Bachelor of Biomedical Science (2019)
**Bachelor of HEALTH SCIENCES**

**COURSE CODE:** M6011  **CRICOS CODE:** 08889D

Learn what you love. We give you the flexibility to explore different areas of health, and you can customise your degree as you discover what inspires you.

This course will give you a sound foundation in health science, a broad overview of healthcare, and skills in identifying, investigating, analysing and assessing health issues. The common thread is the commitment to an evidence-based approach to delivering quality healthcare efficiently and effectively.

This foundation is an opportunity for you to tailor your course to pursue a variety of career paths in the health sciences.

If you’re passionate about working with patients, you’ll be ready to pursue graduate studies in public health, social work, nursing and occupational therapy.

**Entry requirements**

- **2022 ATAR for international students:** 71
- **GCE A Level:** 7
  - All India Senior School Certificate 68%
  - Indian School Certificate Examination 62%
  - Advanced Placement, America 6
  - ACT, America 20
  - SAT, America (Total score out of 1600) 1120
  - College Scholastic-Aptitude Test 350

  - UWA Foundation Studies 6.5
  - University of Melbourne, Trinity College Foundation Studies 67%
  - Monash College Diploma Part 1 16%
  - Monash College Diploma Part 2 16%
  
  For information on how to calculate your entry score for the listed qualifications in this guide, go to page 86.

**Prerequisite subject levels**

**English (Australian Year 12 equivalent)**

- VCE, IB, GCE A Levels, Advanced Placement
  - English: Level 1. For prerequisite subject requirements for the above level(s) (and other qualifications), refer to pages 88-89.

- Monash English language level
  - Level A (see page 91).

**MEDICINE**

**COURSE CODE:** M6011  **CRICOS CODE:** 08889D

Access the largest healthcare provider network in Australia.

Monash is the only Victorian university to offer two entry points for students considering a career in medicine – one directly from school, and a graduate-entry pathway. Both allow students to engage with our renowned researchers and medical clinicians, as well as have access to our connections with the largest healthcare provider network in Australia. These include Monash Medical Centre, The Alfred Hospital (Melbourne’s major casualty hospital), Eastern Health, and health services in rural and regional Victoria and outer metropolitan Melbourne.

The course is designed as an integrated curriculum, with units taught in an interdisciplinary fashion and a wide range of learning environments, both on campus and at clinical sites.

For school-leaver entry, the first two years are largely campus-based, although some city and rural clinical placements are possible.

Interdisciplinary units introduce the basic medical and behavioural sciences of anatomy, biochemistry, genetics, immunology, microbiology, pathology, pharmacology, physiology and psychology.

The graduate-entry program is open only to those who’ve completed a degree from a recognised university. The degree must consist of a significant and broad component of biomedical science content to be eligible for consideration.

**Entry requirements**

- **2022 ATAR for international students:** 97.40
  - GCE A Level: 15
  - All India Senior School Certificate 90%
  - Indian School Certificate Examination 85%
  - Advanced Placement, America 10
  - ACT, America 35
  - SAT, America (Total score out of 1600) 1400
  - College Scholastic-Aptitude Test 370
  - High School Diploma, Republic of Korea 95%
  - High School Diploma, Vietnam 9
  - Hong Kong Diploma of Secondary Education 25
  - International Baccalaureate (IB) Diploma 33
  - Ontario Secondary School Diploma – Grade 12 75.40%
  - SMS3, Indonesia – 10-point scale A grade 9.5
  - STPM, Malaysia 11
  - UEC, Malaysia 1
  - Monash University Foundation Year (commencing MUFY in 2022) TBC
  - UWA Foundation Studies 9.5
  - University of Melbourne, Trinity College Foundation Studies 91%
  - Monash College Diploma Part 1 16%
  - Monash College Diploma Part 2 16%

  For information on how to calculate your entry score for the listed qualifications in this guide, go to page 101.

**Prerequisite subject levels**

- Higher scores required in English and chemistry (all Australian Year 12 equivalents).

- Higher scores, Advanced Placement English: Level 2. Science: Higher score in chemistry only. For prerequisite subject requirements for the above level(s) (and other qualifications), refer to pages 88-89.

- Monash English language level
  - Level C (see page 91).

**Graduate entry program requirements**

- International Student Admissions Test (ISAT).

- English language test (or equivalent)

- Mini Interview – see monash.edu/medical/som/direct-entry/important-dates for more information.

- Extra requirements
  - Mandatory immunisation requirements
  - National Police Records Check (annual requirement)
  - Working with Children Check
  - International Criminal Check
  - A current registered Level 2 First Aid certificate (by the end of the first semester of the course).

For international students applying for permanent residency in Australia

If you think your visa status may change to either Australian permanent resident or New Zealand citizen during the selection process or by the commencement of the course, you must undertake both the ISAT and the Undergraduate Clinical Aptitude Test (UCAAT).
Bachelor of Nursing

**Course Code:** M0206 CRICOS Code: 07511J

Vibrancy and currency in research, and links to major teaching hospitals.

Monash nursing graduates are sought-after worldwide. Acquire the skills to become a registered nurse who can provide leadership and care across the age spectrum, and gain the ability to provide care in multiple settings, including acute care, primary healthcare and health promotion.

We are internationally recognised for nursing excellence, so you’ll be prepared for increasingly complex healthcare situations in Australia and internationally, gaining invaluable skills in clinical decision-making, client care, communication and research, developed through extensive clinical experience in various settings. This is underpinned by Monash’s links to renowned medical researchers and major teaching hospitals.

Graduates are eligible to register as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA) – please note that AHPRA has additional registration requirements.

**Scholars Program** for high achievers

The Bachelor of Nursing Scholars Program has been designed for high-performing students interested in nursing. The point of difference from the Bachelor of Nursing is the additional engagement in an academic support program. If you’re enrolled in the Bachelor of Nursing Scholars Program, you’ll have an academic mentor who provides individual guidance and academic counselling. The focus of the program is research and leadership development, and provides a pathway to more advanced learning and engagement in nursing research.

**Compulsory**

In addition to meeting the VCE English prerequisite, applicants must demonstrate English language proficiency either by providing a written declaration that English is their primary language or evidence that they have achieved the minimum English language test results as specified in the Nursing and Midwifery Board of Australia’s (NMBBA) English language skills registration standard. Information on this requirement can be found at monash.edu/nursing-english-requirements

**Prerequisite subject levels**

English (Australian Year 12 equivalent) and mathematics (Australian Year 11 equivalent).

VCE, IB, GCE A Levels, Advanced Placement English: Level 1. Maths: Level 1. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 60-69.

Monash English language level

Level D (see page 91).

**Extra requirements**

- Mandatory immunisation requirements
- National Police Records Check (annual requirement)
- Working with Children Check
- International Criminal Check
- Fieldwork/clinical expenses
- Awareness of drugs administration policy relevant to your particular year of study.

Refer to the faculty’s clinical guidelines: monash.edu/medicine/study/student-services/mandatory-compliance

**Entry requirements**

For information on how to calculate your entry score for the listed qualifications in this guide, go to page 66.

Becomes a versatile and multi-skilled health practitioner.

Nurses and midwives are among the most valued members of any community. Healthcare professionals with these qualifications play a crucial role in the provision of healthcare, the promotion of health and wellbeing, and maternity care. Completing the dual Bachelor of Nursing and Bachelor of Midwifery (Honours) degree means you’re eligible to apply for registration as a nurse and midwife – a highly capable individual who’s qualified to work in collaboration with the inter-professional team in general nursing and midwifery practice settings.

The versatility of the nurse and midwife is increasingly important in Australian and international health services. This joint qualification makes you highly employable in many practice settings, including rural and remote areas where being a multi-skilled practitioner is highly valued.

Graduates are eligible to register as a registered nurse and a registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA) – please note that AHPRA has additional registration requirements.

**Compulsory**

In addition to meeting the VCE English prerequisite, applicants must demonstrate English language proficiency either by providing a written declaration that English is their primary language or evidence that they have achieved the minimum English language test results as specified in the Nursing and Midwifery Board of Australia’s (NMBBA) English language skills registration standard. Information on this requirement can be found at monash.edu/nursing-english-requirements

Medicine, Nursing and Health Sciences

Bachelor of Nutrition Science
Course Code: M3001 CRICOS Code: 07511M

Address the complex problems of human nutrition.

Today, the need for nutritionists who can explain the science underpinning the relationship between diet and disease is more important than ever.

In this course you’ll explore the multi-faceted discipline of human nutrition, and gain an appreciation of the broad scope of food in society, an in-depth knowledge of nutritional and biomedical science, and the role of nutrition in health and disease.

You’ll have access to:
- innovative industrial kitchen facilities
- the fitness studio and body composition suite to help enrich your nutrition knowledge.

You also have the option to do a one-year research project in your final year.

The Bachelor of Nutrition Science at Monash is the only program in Australia accredited with the UK Association for Nutrition (AFN).

Graduates are eligible to register as an associate nutritionist in the UK.

Pathway to Dietetics

Both the Bachelor of Nutrition Science (Scholars Program) and Bachelor of Nutrition Science provide a pathway to our Dietitians Australia (DA)-accredited Master of Dietetics, enabling graduates to apply for accreditation as dietitians. Students who complete the Bachelor of Nutrition Science with an average grade of credit or above are guaranteed entry into the Master of Dietetics. Graduates of this combined 4.5-year program will be awarded a Bachelor of Nutrition Science (Scholars Program) and the Master of Dietetics. Students who don’t qualify for the Scholars Program will be eligible to compete for entry into the 1.5-year Master of Dietetics.

Did you know?

Work placement in the industry

As you progress through the course you’ll have the opportunity to undertake a work placement in a nutrition-related industry, work alongside nutrition researchers on a project, or apply for the opportunity to study nutrition overseas at a partner university.

Bachelor of Occupational Therapy (Honours)
Course Code: M3001 CRICOS Code: 08250NC

Experience practical fieldwork in a variety of settings.

Occupational therapists help people participate to their full potential in self-care, play, leisure, education, work, sleep or social activities, as well as promote health and wellbeing.

Occupational therapy practice involves working with individuals, families, groups, organisations and communities to improve their engagement in daily occupations.

Our Bachelor of Occupational Therapy (Honours) is an internationally recognised and nationally accredited course that draws on the latest knowledge and evidence in the occupational, behavioural, social and biomedical sciences, and combines traditional and scenario-based learning methods and teaching techniques.

As well as completing academic studies, you’ll undertake 1000 hours of practical fieldwork in a variety of community, educational and clinical settings. Completing the course will enable you to apply for registration as an occupational therapist with the Occupational Therapy Board of Australia. This national registration is recognised in all Australian states and territories under the Australian Health Practitioner Regulation Agency.

CAREER OPTIONS

- Dietetics, food industry, food science, government and nutrition agencies, nutrition research, public health nutrition, sports nutrition.
- Sports nutrition.
- Government and non-government agencies.
- Health care, private practice, public health, research, public care, rehabilitation, vocational rehabilitation/return-to-work.

BACHELOR OF
PHYSIOTHERAPY (Honours)

Prepare to flourish in one of the most in-demand healthcare professions.

A degree in physiotherapy prepares you to work independently or as part of a team of healthcare professionals.

You’ll receive intensive training in relevant clinical environments such as public and private hospitals, community health centres, rehabilitation centres and private practices, and you’ll have the chance to study with expert physiotherapists and leading researchers.

You’ll gain the skills to practise as a physiotherapist, using exercise, movement analysis, manual therapy and specialist techniques to restore, improve and promote health.

After completing your degree, you’ll be eligible to apply for registration to the Physiotherapy Board of Australia.

Bachelor of

PSYCHOLOGY

(Honours)

COURSE CODE: M3505 CRICOS CODE: 05571C

For those with a passion for understanding human cognition and behaviour.

This course provides a comprehensive education in human psychology – from normal to abnormal psychology, and from the genetic/molecular level to the individual and group-behavioural level. The study of human psychology is ever-growing and changing, and our program provides you with the latest thinking on our understanding of the human brain, thought and behaviour.

The knowledge gained in this course will lay the groundwork for you to make your own scientific discoveries, help to promote mental health, and to influence how those in the community think about mental health and the workings of the human mind.

Note: Students must normally complete 14.4 credit points and achieve a minimum of a distinction (70 per cent) average in PSY3041, PSY3051, PSY3083 and PSY3082 in order to proceed to the fourth year of study. Students who successfully complete the first three years (114 credit points) of the course and demonstrate academic standard in their final year will graduate with the Bachelor of Psychological Science. You may then apply for either fourth year psychology programs at Monash, University of Melbourne, University of New South Wales, University of Queensland or Macquarie University. For information on relevant programs contact Psychology Admissions.

Bachelor of

PUBLIC HEALTH

COURSE CODE: M3012 CRICOS CODE: 09449E

Pursue a variety of public health career paths.

From promoting good health, through to preventing disease and managing illness and disability, public health focuses on populations and communities rather than on individuals. The Bachelor of Public Health builds on your interest in health and human development.

The course focuses on developing, implementing and evaluating programs and policies to promote health and prevent disease and injury, as well as undertaking public health research. It has a global orientation, examining both Australian and international health challenges.

English and mathematics (all Australian Year 12 equivalent).

For prerequisite subject requirements for the above levels and other qualifications, refer to pages 88-89.

Monash English language level

Level A (see page 91).
Bachelor of RADIATION SCIENCES (INFORMATICS)

Radiation therapy is an exciting and engaging healthcare field that uses ionising radiations for the treatment of cancer and benign conditions.

Studying radiation sciences at Monash allows you to combine scientific and technical knowledge with studies in health and patient care, and prepares you for an 18-month graduate master’s program in radiation therapy.

Informatics

Developed in collaboration with the Faculty of Information Technology, this specialisation combines core units from radiation sciences with information technology application and knowledge. Informatics graduates can expect to find positions in relation to the management, acquisition, storage, retrieval and use of health information to improve the access security, integrity and quality of the data and digital images.

English and higher-level mathematics (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English: Level 1, Maths: Level 1. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 88-89.

Monash English language level

Level B (see page 91).

Extra requirements

• Mandatory immunisation requirements
• National Police Records Check (annual requirement)
• International Criminal Check
• Working with Children Check.

Bachelor of RADIOTHERAPY AND MEDICAL IMAGING (Honours)

We link the classroom and the clinical workplace, ensuring that Monash graduates are job-ready.

This course is designed to develop expert skills to become a registered radiographer, enabling patient diagnosis and management by using x-rays – including CT scanning, ultrasound and magnetic resonance imaging (MRI) – to create diagnostic images for analysis and interpretation.

Radiographers are also responsible for implementing best-practice imaging protocols. The program is designed to allow closely related integration between the classroom and the clinical workplace.

The practical skills you acquire will be reinforced by placements in a variety of clinical institutions, from Victorian rural and regional hospitals, to metropolitan Melbourne hospitals and private radiology practices, including limited interstate placements.

Completing the course allows you to apply for registration as a radiographer with the Medical Radiation Practice Board of Australia. This national registration is recognised in all Australian states and territories. Graduates from this course are eligible to apply for a Statement of Compliance from the Australian Society of Medical Imaging and Radiation Therapy.

Bachelor of PHARMACEUTICAL SCIENCE

COURSE CODE: P2001 CRICOS CODE: 058486E

Research and develop more effective treatments with the world’s No.2 school1 for pharmacy and pharmacology. Acquire the skills to improve human health by researching and developing more reliable, accessible and effective treatments. Learn about the chemistry, biology, biomedicine and delivery technology of medicines, and gain the hands-on technical and professional skills that enable you to put your knowledge to work in practice. Our strong relationships with industry ensure you’ll graduate equipped for a successful career in one of Victoria’s fastest-growing sectors – pharmaceuticals and biomedical research. The first two years provide you with cross-disciplinary knowledge and the key skills relevant to pharmaceutical science. A research or industry placement in the last semester of the course will give you the insight into real-world applications of your studies and prepare you for the next step, be that employment or further studies.

Prerequisite subject levels

English: higher-level mathematics and chemistry (all Australian Year 12 equivalent).
VCE, IB, GCE A Levels, Advanced Placement
English: Level 1, Maths: Level 3, Science: Chemistry only.
For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 88-89.

Monash English language level

Level A (see page 91).

Bachelor of PHARMACEUTICAL SCIENCE ADVANCED (Honours)

COURSE CODE: P3002 CRICOS CODE: 072731

Equip yourself for a research career with a global leader.

This advanced version of the Bachelor of Pharmaceutical Science has been tailored for high-achieving students. It culminates in an honours year that gives you the chance to undertake original research, under the guidance of researchers from one of the world’s leading institutes of pharmaceutical sciences.1 You couldn’t ask for a better pathway into a research career.

You’ll learn how to develop reliable, accessible and effective medicinal products, and translate new drug targets into treatments for patients. You’ll begin by developing your understanding of the foundations of pharmaceutical science. In your third year, you’ll choose electives and undertake extended placement in one of the pharmaceutical research groups. Our strong relationships with industry and other research institutes in Australia and overseas ensure you’ll graduate ready for a successful career in two fast-growing sectors: pharmaceuticals and biomedical research.

Scholars Program

We acknowledge very high-achieving students by offering access to our Scholars Program. This provides exclusive learning opportunities, including:

• a standing invitation to faculty research seminars (normally only open to staff and PhD students);

• an invitation to an annual social function with the Dean and key faculty leaders.

Prerequisite subject levels

English: higher-level mathematics and chemistry (all Australian Year 12 equivalent).
VCE, IB, GCE A Levels, Advanced Placement
English: Level 1, Maths: Level 3, Science: Chemistry only. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 88-89.

Monash English language level

Level A (see page 91).

Drug discovery biology

This focuses on the biomedical science and pharmacology of drug discovery. You’ll learn about the biotechnological aspects of drug design that lead to:

• discovering and evaluating new targets for testing drugs

• investigating the biological effects of drug candidates

• translating outcomes into pharmaceutical products.

Formulation science

Formulation science enables you to understand the principles of making finished products from a blend of individual ingredients. Drawing on the pharmaceutical industry, you’ll learn to apply the same principles to industry-relevant problems in other areas of formulation science, such as consumer products and cosmetics.

Medicinal chemistry

Medicinal chemistry represents the intersection of biology and chemistry, and involves the development of pharmaceutical agents from conception through to their clinical use. You’ll study how drugs work, and how they’re designed and made. By applying the principles and techniques of organic chemistry, medicinal chemists discover and develop compounds that prevent, treat or cure disease.

English: Level 1; Maths: Level 3; Science: Chemistry only. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 88-89.

Monash English language level
Level A (see page 91).

Extra requirements
Because pharmacists are health professionals, they’re required to have some additional safeguards in place to protect themselves and the patients with whom they work. Our experiential placements in community pharmacies and hospital settings begin in year one. Prior to enrolment in the course, you must:

- satisfy the immunisation requirements specified by the faculty
- hold a valid Working with Children Check (one time)
- complete a National Police Records Check.

The training that we receive from Monash is second to none. The faculty places strong emphasis on communication, because as pharmacists we need to be coherent and concise when delivering important information about medication to patients and other healthcare professionals. We also have workshops that provide a safe space to not only ask questions and receive feedback, but to close the loop on the content that was covered in the lectures, and this serves to reinforce understanding.

DANSON MURIMI
Bachelor of Pharmacy (Honours) and Master of Pharmacy

CAREER OPTIONS
Community pharmacy, government, hospital pharmacy, pharmaceutical industry, public health, regulatory bodies, research and clinical trials.

Prerequisites

5 years (bachelor’s and master’s)
February
$A44,500 (bachelor’s degree)
$A44,500 (bachelor’s and master’s)

RANKED NO. 2 FOR PHARMACY AND PHARMACOLOGY
QS World University Rankings by subject, 2020

Essential works, supporting healthier communities.

Now more than ever, the world needs pharmacists. As the experts in medicines and the way they interact with the body, pharmacists play a vital role in healthcare teams. Medication-related problems account for around 750,000 hospital admissions in Australia each year, and in 2019 medicine safety became a national health priority. In 2021, community pharmacists joined the nation-wide taskforce in an effort to vaccinate millions of Australians against COVID-19 and help protect our communities.

Job prospects are bright
In Australia, the fastest growing jobs are in healthcare and pharmacists are at the top of the list. An ageing population combined with more and more people living with chronic health conditions means that health professionals are in constant demand. The number of job ads for pharmacists has grown exponentially in recent years, with a study led by Monash University concluding that Australia could in fact face a pharmacist shortage.

If you’re looking to become a healthcare professional within a highly in-demand profession – and also love the idea of making a true difference to people’s lives – then a career as a pharmacist might be for you.

Same duration, higher qualification
The pathway to registration as a pharmacist in Australia generally takes five years. Traditionally, this has been structured as a four-year bachelor’s degree plus a one-year paid internship. At Monash, our program takes the same amount of time, but instead you’ll earn two degrees – a bachelor’s and a master’s. And when you arrange your (paid) internship, this will be supported by the network of our prestigious Intern Foundation Program and Intern Training Program. This intensive combination of learning and working prepares you for registration as a pharmacist and opens doors to you in a wide variety of pharmacy fields.

Scholars Program
We acknowledge very high-achieving students by offering access to our Scholars Program. This provides exclusive learning opportunities, including:

• a standing invitation to faculty research seminars (normally only open to staff and PhD students)
• an invitation to an annual social function with the Dean and key faculty leaders.

1. Higher entry requirements apply for the Bachelor of Pharmacy (Honours) (Scholars Program) and Master of Pharmacy; see page 92.
Bachelor of APPLIED DATA SCIENCE

We live in a time where information and knowledge have never been more abundant.

From industry leaders and NGOs to policymakers, educators to research specialists, the decisions that shape our future will rely on graduates who can extract meaning from large volumes of data and transmit it to community and industry leaders.

The Bachelor of Applied Data Science offers a program of study that equips you with the skills necessary to provide solutions to a wide range of problems. Working in groups and on individual projects, you’ll bring together key skills in information technology and mathematics, and apply these to real-life projects.

Through selected streams, you’ll develop your passion for the physical sciences, sociological or anthropological studies, business or engineering.

This unique blend of skills will empower you to apply data science to a wide range of industries, making you highly desirable problem-solvers.

Bachelor of APPLIED DATA SCIENCE ADVANCED (Honours)

The advent of big data is creating the need for a unique set of skills.

This honours course is an advanced program designed to equip you with the necessary skills to provide solutions to a wide range of problems.

It focuses on the challenges presented to many industries and organisations by large volumes of data, and will develop your technical know-how in approaching these challenges. A new and specially-designed stream of units will harness core skills in data science and mathematics for a series of authentic, interdisciplinary, problem-solving challenges. From the first year of the course, you’ll complete a series of studio-based units where you’ll apply the knowledge you’ve developed to practical projects.

Through selected streams, you’ll develop your passion for the physical sciences, sociological or anthropological studies, business or engineering.

In the final year, you’ll synthesise the knowledge acquired during the program in an individual research project. You’ll be able to apply your skills to a real-life project sourced from a variety of sectors.

Bachelor of SCIENCE
COURSE CODE: S2000 CRICOS CODE: 017092G

Offering choice and depth across a huge range of science disciplines, you’ll graduate with a degree tailored to your interests and career aspirations.

Study science at Monash and learn from leading experts whose research is shaping the world’s future. We offer a choice of more than 20 majors, minors and extended majors to give you a broad education and allow you to explore your interests before specializing in one or two areas that most inspire you. Your course can be supplemented by a range of career-ready and industry-based units for professional experience. We also offer the opportunity for internships, which can be taken in Australia or abroad.

Your science experience at Monash will take place in the latest dynamic teaching and learning spaces designed with you in mind, including:
- an innovative chemistry building
- a dedicated teaching facility for physics and astronomy
- purpose-built spaces for the study of maths, biology, and earth, atmosphere and environment
- a science-student-only lounge
- on-campus outdoor classrooms, including the Earth Sciences Garden and the Jock Marshall Reserve.

Bachelor of SCIENCE ADVANCED – GLOBAL CHALLENGES (Honours)
COURSE CODE: S3010 CRICOS CODE: 08362D

The first course of its kind in Australia, we push the boundaries of science to solve the world’s biggest challenges: climate change, conflict, obesity, and an ageing population.

The Bachelor of Science Advanced – Global Challenges (Honours) includes all the elements of a Bachelor of Science, and more. In addition to studying the scientific discipline of your choice – from the broad range available – you’ll receive high-level training in leadership, persuasive communication, entrepreneurship, policy, ethics and corporate social responsibility.

The pinnacle of your experience will be a year-long project in which you’ll tackle a problem of real-world significance.

Bachelor of SCIENCE ADVANCED – RESEARCH (Honours)

COURSE CODE: S3002  CRICOS CODE: 039681E

Make a difference in the world through the advancement of scientific research.

This four-year science degree is suitable for high-achieving students who intend to pursue careers in research, industry or academia. The course allows you to progress more quickly to higher-level units; gives you more flexibility in your choice of units; and provides opportunities to participate in research, embedded in a Monash research team. With access to exclusive enrichment programs and research mentoring by leading scientists, your career as a scientist will take off.

You’ll be studying in our new Science Advanced student-only common room, learning from academics conducting inspiring research. And you’ll graduate with an advanced degree from one of Australia’s leading science faculties.

On completion of this course, you may be eligible to apply directly into a PhD.

For more details, please see page 87.

1  Studies must have been completed within five years of intended commencement. For more information, please go to page 98.
2  The ‘genetics and genomics’ major, minor and extended major is not available in the double degree course Bachelor of Science and Bachelor of Biomedical Science.

I feel privileged and honoured to have been involved with the LIGO Scientific Collaboration as an undergraduate during such a momentous discovery as the first, and second, detection of gravitational waves. I’m thrilled to have been given the opportunity to work directly on the Hanford detector with the LIGO scientists and engineers in Washington, and look forward to further exciting results from the detectors as they’re made even more sensitive to these ripples in space-time. ”

CHRIS WHITTLE
Bachelor of Science Advanced – Research (Honours) (2016)
ENTRY REQUIREMENTS

When you apply to Monash University for an undergraduate course, you must satisfy all of the following requirements:

MINIMUM AGE REQUIREMENTS

You must be at least 17 years of age to enrol in a Monash University undergraduate course. Some exemptions may apply. For further information, visit monash.edu/admissions/coursework-procedures.

ACADEMIC ENTRY REQUIREMENTS

All Monash undergraduate courses require you to have successfully completed a minimum of an Australian Year 12 qualification (or equivalent) and achieve the required academic entry score. This guide outlines the academic entry scores for the listed qualifications that apply to each undergraduate course applicable to international students. Only entry scores for the listed qualifications in this guide as calculated, where you must provide your final transcript and evidence of successful completion:

ENGLISH ENTRY REQUIREMENTS

All Monash University undergraduate courses require you to satisfy English entry requirements. Different English entry levels apply to undergraduate courses as outlined in this guide. English entry requirements can be met in one of the following ways:

Australian Year 12 qualifications listed below (refer to the ‘2022 ATAR for international students’ column, pages 94–99):

GCE A Levels

- Cambridge International Examinations
- Council for the Curriculum, Examinations and Assessment
- Oxford, Cambridge and RSA Examinations
- Welsh Joint Education Committee
- Assessment and Qualifications Alliance
- University of New South Wales

- Total score of unamended the best three A Level subject examinations taken within the 2-year period
- Two A2 Level subjects can be counted in place of one A Level subject, provided that the subject has not been taken at A Level, and there’s already one A Level subject included in the calculation.
- All Level results cannot be used to replace a poor performance in an A Level subject.
- A Level results are calculated in accordance with the following formula:
  - A Level results are calculated as follows: 5=A, 4=B, 3=C, 2=D, 1=E, 0=F
  - A Level results are calculated as follows: 5=A, 4=B, 3=C, 2=D, 1=E, 0=F
  - A maximum of 1 bonus point is awarded if achieving A in the A Level subject.

International Baccalaureate (IB) Diploma Programme

- Total points as awarded in the IB Diploma Programme results.

American Admission Tests:

- SAT examination issued by The College Board
- Official final academic transcript and Diploma Certificate for the American High School Diploma or equivalent, at the discretion of the University.

GPA

- Total score obtained by adding the best core courses including English, History, Science, Technology, and Social Studies.

American Admission Tests:

- AP examination issued by the College Board
- Official final academic transcript and Diploma Certificate for the American High School Diploma or equivalent.

Korean History, English and vocational education stream subjects can not be included in the calculation.

Additional Requirements for American Admission Tests (SAT, ACT and SAT Subject Tests):

- The American High School Diploma and the SAT exam are acceptable in lieu of the GCE A Levels.
- The American High School Diploma and the ACT exam are acceptable in lieu of the GCE A Levels.
- The American High School Diploma and the AP exam are acceptable in lieu of the GCE A Levels.

Additional requirements for Australian high school students:

- Total score of unamended the best three A Level subject examinations taken within the 2-year period.
- Two A2 Level subjects can be counted in place of one A Level subject, provided that the subject has not been taken at A Level, and there’s already one A Level subject included in the calculation.
- All Level results cannot be used to replace a poor performance in an A Level subject.
- A Level results are calculated in accordance with the following formula:
  - A Level results are calculated as follows: 5=A, 4=B, 3=C, 2=D, 1=E, 0=F
  - A maximum of 1 bonus point is awarded if achieving A in the A Level subject.

Please note that all entry requirements for Monash University and Monash College are subject to change.

1. The grade 12 subjects must be taken from the most recent completed On� Senior Diploma issued by the On� Ministry of Education.
2. Subject examination results within the last five years may include more than one sitting. For example, subject examination results in June 2017 and June 2018 are acceptable.
3. Students who have undertaken Japanese Language (JLPT) and AP English Language and Composition exams must have undertaken the English exam before undertaking the AP English exam.
4. Students who have undertaken an American Admission Test (i.e. SAT, ACT or AP) with another international qualification (equivalent to the Australian Year 12) will be considered for Monash University undergraduate admission. International qualifications must be undertaken in the student’s country of nationality. Students who have undertaken an American Admission Test must also have undertaken the student’s national secondary school leaving exam or an equivalent qualification (equivalent to Australian Year 12) for at least the entry requirements. Students who have undertaken an American Admission Test must also have undertaken the student’s national secondary school leaving exam or an equivalent qualification (equivalent to Australian Year 12) for at least the entry requirements. Monash University reserves the right to ask students to undertake an approved American English proficiency test to meet course entry requirements. For more information regarding English entry requirements, refer to the Admission to Coursework Courses and Units of Study Procedures, available at monash.edu/admissions/coursework-procedures.

PRESCRIPTIVE SUBJECTS AND ADDITIONAL REQUIREMENTS

In addition to meeting English entry requirements, some Monash University undergraduate courses may require you to satisfy other prescriptive subjects and additional selection and/or extra requirements. Refer to pages 84 and 85 for more information on how to satisfy prescriptive subject requirements. Please note that all entry requirements for Monash University and Monash College are subject to change.
INTERNATIONAL PREREQUISITE SUBJECT LEVELS

All Monash University undergraduate courses require you to have previously studied and achieved required Australian-level standards in certain specific subjects – known as prerequisite subjects. Different prerequisite levels apply to each undergraduate course, and can be located on the course-specific pages (26-34) and the tables at the end of this guide (pages 94-105).

The table below outlines acceptable subjects that meet these prerequisite subject levels for common global qualifications.
### Monash University English Language Levels

Each Monash course has an assigned Monash English language level that applies to Monash-approved English proficiency tests. Entry scores for each level are specified below.

#### Monash College English language levels

- **MC – A**
  - Monash University Foundation Year (Intensive)
    - Level A: 20 weeks, 5.5 (no band less than 5.0), 69 (W15, S14, L5 & R5), 50 (W36, S36, L36 & R36)
  - Level B: 15 weeks, 6.0 (no band less than 6.0), 69 (W15, S14, L5 & R5), 50 (W36, S36, L36 & R36)
  - Level C: 10 weeks, 6.0 (no band less than 6.0), 69 (W15, S14, L5 & R5), 50 (W36, S36, L36 & R36)

- **MC – B**
  - Diploma Part 1: 20 weeks, 6.0 (no band less than 6.0), 69 (W21, S18, L12 & R13), 50 (W50, S50, L50 & R50)
  - Diploma Part 2: 15 weeks, 6.5 (no band less than 6.5), 69 (W21, S18, L12 & R13), 50 (W50, S50, L50 & R50)

- **MC – C**
  - Diploma Part 2: 10 weeks, 7.0 (no band less than 7.0), 69 (W21, S18, L12 & R13), 50 (W50, S50, L50 & R50)

#### Monash English Bridging (MEB)

If your English proficiency test does not meet the Monash University courses, English requirements for direct entry, Monash University English Language Centre offers MEB. Upon successful completion of MEB, students will meet the Monash University English entry requirements. Some undergraduate courses however do not accept MEB. MEB entry requirements are as follows:

<table>
<thead>
<tr>
<th>MEB Standard</th>
<th>Weeks</th>
<th>Academic IELTS</th>
<th>Internet-Based TOEFL</th>
<th>Pearson Test of English (Academic)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level A</td>
<td>20 weeks</td>
<td>5.5 (no band less than 5.0)</td>

Bachelor of Health Sciences 3 M2014 CA Feb,

Engineering

Bachelor of Aeronautical Engineering (Honours)
Bachelor of Biomedical Engineering (Honours)
Bachelor of Chemical Engineering (Honours)
Bachelor of Civil Engineering (Honours)
Bachelor of Electrical and Computer Systems Engineering (Honours)
Bachelor of Environmental Engineering (Honours)
Bachelor of Materials Engineering (Honours)
Bachelor of Mechanical Engineering (Honours)
Bachelor of Robotics and Mechatronics (Engineering Honours)
Bachelor of Software Engineering (Honours)
Bachelor of Engineering (Honours) / Master’s Accelerated Pathway

Information Technology

Bachelor of Computer Science
Bachelor of Computer Science Advanced (Honours)
Bachelor of Information Technology

Laws

Bachelor of Laws (Honours)

Medicine, Nursing and Health Sciences

Bachelor of Biomedical Science
Bachelor of Biomedical Science (Bridging Program)

Health Sciences

Bachelor of Health Sciences

Science approved list (unless specified otherwise )

1 Fees are quoted in Australian dollars; each is the annual average fee per 48 credit points of study in this course for 2021. Fees are adjusted annually.

2 Duration is based on a standard full-time load of 48 credit points per annum.

CA – Caulfield | CI – City | CL – Clayton | PA – Parkville | PE – Peninsula.

1. Duration is based on a standard full-time load of 48 credit points per annum.
2. Students are advised to check the specific entry requirements for their desired course. For further information, refer to monash.edu/fees/course-fee-types/international-full-fee.
3. Students must have their English language proficiency certified before submitting a complete application. For updates on English language requirements, visit monash.edu/fees/course-fee-types/international-full-fee.
4. International students must have completed at least four years of standard secondary education in their home country. For updated information, refer to monash.edu/fees/course-fee-types/international-full-fee.
5. This course has additional selection requirements. Please refer to the course page for further details.
6. The Monash University Foundation Year entry score for this course is still to be confirmed, visit monash.edu/fees/course-fee-types/international-full-fee for updated information.
7. These are initial estimates of entry requirements. For updated information, refer to monash.edu/fees/course-fee-types/international-full-fee.
8. Students must have completed a course in General Science in their 11th year of secondary education. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
9. This course is open to students who have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
10. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
11. This course is open to students who have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
12. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
13. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
14. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
15. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
16. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
17. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
18. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
19. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
20. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
21. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
22. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
23. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
24. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
25. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
26. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
27. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
28. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
29. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
30. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
31. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.

54. Students must have completed at least four years of standard secondary education in their home country. For more information, refer to monash.edu/fees/course-fee-types/international-full-fee.
DOUBLE YOUR OPTIONS WITH A DOUBLE DEGREE

A Monash double degree course allows you to study towards two degrees at the same time.

What’s a double degree course?
Monash offers two types of double degrees: a double undergraduate degree, and an undergraduate/graduate double degree. A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. You'll be awarded with two testimonials, one for each course completed. More than 140 double degree combinations are available.

Double undergraduate degree
How long does it take?
A double undergraduate degree course takes two years less to complete than studying the two degrees separately. This is because the required units in one course count as electives in the other. For example, if you decide to take a Bachelor of Engineering (Honours) and a Bachelor of Commerce, it will take you five years instead of seven. Therefore, you would take all the core units in engineering as well as your 18 units of Commerce, it will take you five years instead of seven. Therefore, you would take all the common core units for engineering as well as your 18 units of Commerce.

Some double degree courses incorporate both an undergraduate and a graduate element. After five years you'll graduate with both a bachelor’s and a graduate master’s degree. These courses are:
- Bachelor of Medical Science and Doctor of Medicine
- Bachelor of Pharmacy (Honours) and Master of Pharmacy.

In addition, the Bachelor of Arts (page 32) and the Bachelor of Engineering (Honours) (page 52) offer accelerated master’s pathways that enable you to complete an expert master’s course with only one further year of study.

DOUBLE DEGREE COURSES

AT A GLANCE

Entry requirements
For admission to double degree courses, generally the higher requirements for the two component single degree courses is a good indicator of the likely requirements for the double degree course. Where there’s a range of criteria for one of the component courses, these criteria will still apply to the double degree course. In each case you should expect to meet the entry level of each of the single degree courses. Some double degree courses may require you to study across two campuses in order to complete your course.

17 In addition to the core units listed above, additional units will be chosen from a list of pre-approved units.
18 In addition to the core units listed above, additional units will be chosen from a list of pre-approved units.
## Application Process for International Students

### HOW TO APPLY

#### Step 1
**Apply**

All students must apply for a Monash University course online. Please refer to the following website for a step-by-step guide: monash.edu/admissions/apply/online

With your online application, please provide academic documentation, including academic transcripts, graduation certificate and grading scales (indicating the pass mark and graduation requirements if applicable). If you're applying for a course that has selection and/or extra requirements, please also provide the necessary documentation with your online application.

You'll be required to provide original or certified academic documentation (or other supporting documents) upon request. For further information on certifying documents, visit monash.edu/study/how-to-apply/international-student-applications/certifying-documents

#### Step 2
**Your application is assessed**

Monash University may grant credit for subjects with satisfactory grades that have been undertaken at other recognised tertiary institutions if:

- the subject is considered to be equivalent in content and standard to those offered by Monash University;
- the subject is relevant to the planned course of study.

It should be noted that awarded credit may affect the course and visa duration. To apply for credit assessment, you need to flag it on your course application form and submit the relevant subject outlines and any family members accompanying you to Australia.

#### Step 3
**Accept your offer**

Monash University is obliged to check that you’re genuinely seeking a temporary entry to Australia to study. If the University forms the opinion that you’re not a Genuine Temporary Entrant (GTE), it may refuse to assess your application, withdraw an offer of a place, or cancel your confirmation of enrolment.

If your application is successful, you'll receive a full offer in the form of an International Student Course Agreement (ISCA). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If you're not successful for your first preference, your application will be considered for your next preference or for a pathway program offered by Monash University. If your application is refused, you must complete, sign and return Part A of your ISCA along with payment to Central Admissions before the offer lapse date. Your payment should include OSHC (as specified in your ISCA) for the duration of your visa for yourself and any family members accompanying you to Australia.

#### Step 4
**We send you a Confirmation of Enrolment (CoE) and enrolment package**

Once you accept your full ISCA or packaged ISCA (with academic conditions specified), you’ll receive a CoE and an invitation to set up your electronic Monash account and enrol online in units of study.

You need to plan your course and enrol early so that you can get the best possible start. Information about enrolment process and course-specific enrolment and arrival dates are available at monash.edu/get-started

Following this, you’ll receive:

- your welcome letter;
- Destination Monash – your complete guide to living in Australia and studying at Monash University;
- a series of emails with useful information and resources to help with your transition to Monash.

#### Step 5
**Arrange your student visa**

You'll need the CoE to apply for a student visa. See below information on how to apply for a student visa.

You need to plan your course and enrol early so that you can get the best possible start. Information about enrolment process and course-specific enrolment and arrival dates are available at monash.edu/get-started

#### Step 6
**Register your arrival and attend orientation**

When you arrive in Australia, you'll need to attend orientation and enrol online in units of study. Information about enrolment process and course-specific enrolment and arrival dates are available at monash.edu/get-started

### When should you apply?

Apply as early as possible. Some courses may close a few months or a year before the start of the course, while others have quotas.

#### How to apply through VTAC

International students who are undertaking an Australian Year 12 qualification (for example, VCE or equivalent) in Australia or overseas, International Baccalaureate (IB) Diploma in Australia, or National Certificate of Educational Achievement (NCEA) Level 3 in New Zealand, must apply through the Victorian Tertiary Admissions Centre (VTAC).

www.vtac.edu.au

### Need help with your application?

Contact us:

+61 39903 4788

chat with Monash

You can also find assistance through Monash agents. If you're applying through a Monash agent, please contact them for assistance.

### When to apply through VTAC

Henry: 94680 1234

When making your payment, it should be noted that:

- Monash University does not accept cash;
- dishonoured bank drafts may incur additional bank fees; and
- you may need to notify your bank of large deductions on your account.

Bank drafts will need to be mailed to Central Admissions. Please ensure you include your full name and Monash student ID on the back of the bank draft.

Step 5
Arrange your student visa
The Department of Home Affairs (DHA) is responsible for issuing visas for entry to Australia. In general, as an international student you’ll need a student visa to study at Monash, and under a student visa, you may only enrol in a Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered course.
You’re advised not to commence the visa application process until you’ve been issued with your CoE. You must keep in mind that your student visa application may take up to six months or more, depending on your nationality and country of residence.
When applying for a student visa, you will need to meet all core visa criteria, such as the GTE requirement, good character and health criteria. Financial capacity and English language proficiency documentation may also be required.
Further information can be located at:
- monash.edu/study/how-to-apply/international-student-applications/visa-requirements
- monash.edu/connect/student-visa

Step 6
Register your arrival and attend orientation
Make your own travel arrangements, aiming to arrive in Melbourne at least two weeks before orientation. Orientation activities at Monash University happen before the semester starts and are designed to help you settle in. Some orientation activities focus on providing more information about your studies, while other activities are designed to help you meet people and become familiar with our amazing campuses. Use the orientation e-Platform to create a personalised orientation plan. Visit orientation.monash
If you wish to use our airport reception service, you need to complete and return the request form available at:
monash.edu/study/book-your-airport-reception
If you require help with arranging accommodation, visit:
monash.edu/study/student-life/accommodation

FEES
We’re committed to providing you with an ever-evolving, modern, student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.
We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities.
We embrace the opportunities offered by technology and innovation, and embed them in our teaching, in order to prepare you for any career you pursue.
Our blended learning environment – physical, digital and virtual – prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underlines our philosophy that the Monash experience extends far beyond university.
In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitive pricing. We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs reflect the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

TUITION FEES
As an international student, you’ll be charged full fees. Tuition fees vary depending on the course and the year of commencement. All tuition fees and course duration specified in this guide are in Australian dollars and only apply to courses studied at Australian campuses.
The tuition fees quoted are for 48 credit points and are applicable to courses commencing in 2021. Tuition fees for courses commencing in 2022 will be different.
Monash University reserves the right to adjust the annual tuition fees in future years of your course. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.
monash.edu/fees

OVERSEAS STUDENT HEALTH COVER
It’s a condition of the Student Visa ( subclass 500) that you must hold Overseas Student Health Cover (OSHIC) for the duration of your stay in Australia. Monash University requires all commencing international students to purchase OSHIC for the duration of their visa. If you’re accompanied by immediate family to Australia as dependants on your student visa, you’ll also need to purchase the visa-length OSHIC for them.
Your Confirmation of Enrolment (CoE), for student visa purposes, will only be issued once you have:
- accepted your offer course offer along with payment for OSHIC; or
- provided proof of having a valid visa-length OSHIC; or
- submitted approved documentation for exemption from payment of OSHIC; or
- nominated for Monash to purchase OSHIC on your behalf with Monash’s preferred OSHIC provider.

GLOSSARY
Universities use some words you might not be familiar with. So to make sure nothing is lost in translation, we’ve put together a list of explanations.

Prerequisites
Previous study or other criteria required to gain admission into a particular course or unit.

Undergraduate course
The first level of tertiary studies at university, including diploma or bachelor degree courses.

Units
Subjects that make up your course are known as units.

Elective
A unit where you choose what unit to study. The choice may be from a specified list of units, or it may be a free elective where you can choose any unit within Monash providing you have the necessary entry requirements and there are no restrictions on enrolment in the unit.

Degree
The academic title you get when you complete a course of study. For example: Bachelor of Arts, Master of Business.

Double degree courses
Two courses studied concurrently with required units in one course being counted as elective units in the other. A double degree takes fewer years to complete than if you studied one after the other.

Defer your studies
If you decide to delay your course commencement date, you have the option to apply to defer your studies. Monash generally allows deferral of study up to a maximum of twelve months, or longer in exceptional circumstances. You can send your deferral request to new.departments@monash.edu.
Other deferral guidelines apply, refer to: monash.edu/study/how-to-apply/after-you-apply/defer-or-change-your-course

Graduate courses
Further study completed after you graduate with a bachelor’s degree.

Comprehensive course
These courses allow you to select from a wide range of subjects within a broad field of study.
You have the option to choose your major immediately or later, and you’ll try a range of subjects in your first year before narrowing your focus in year two – while still having the opportunity to try new things – before finally committing to your major area of study.

Major
The main areas of study chosen in a comprehensive course, study in a single discipline, totalling 48 credit points (eight units) taken sequentially over three years. You don’t need to declare your major when you enrol.

Extended major
An extended version of your major requiring you to study 72 credit points (12 units) over three years.

Minor
Study in a single discipline, totalling 24 points (four units).

Specialist course
A structured course usually focused on developing the knowledge and skills needed for professional practice in a specific field or profession.

Specialisation
Taken in specialist courses, a specialisation is a minimum of 12 units in a particular discipline, and provides an in-depth education in your chosen field. You must choose your specialisation when you enrol.

Honours
Honours may be an extra year of study at the end of your undergraduate degree. All of our four-year undergraduate courses include honours in their structure.

Other related guidelines apply, refer to: monash.edu/study/how-to-apply/after-you-apply/defer-or-change-your-course

2022 INTERNATIONAL UNDERGRADUATE COURSE GUIDE 108
The information in this brochure was correct at the time of publication (March 2021). Monash University reserves the right to alter this information should the need arise. You should always check with the relevant faculty office when considering a course. Produced by Strategic Marketing and Communications, Monash University.
