

PUBLICATIONS IN LATE 2021 AND 2022 BY IGCP 673 TEAM

Agic, H., Hogstrom, A. E. S., Jensen, S., Ebbestad, J. O. R., **Vickers-Rich, P.**, Hall, M., Matthews, J. J., Meinhold, G., Hoyberget, M. & Taylor, W. L., **Nov. 2021**. Widespread occurrence of organic-walled microfossils *Granomarginata* and flask-shaped *Lagoenaforma* nov. during the late Ediacaran. *Geological Magazine*, Special Volume: DOI: [10.1017/S0016756821001096](https://doi.org/10.1017/S0016756821001096)

Farjandi, F., **Vickers-Rich, P.**, Linnemann, U., Hofmann, M., Raveggi, M., Hall, M. & **Rich, T.**, **2022**, *in press*. Detrital zircon and apatite U-Pb geochronology of Ediacaran fossil-bearing strata spanning the late Ediacaran-Cambrian boundary in central Iran. *Alcheringa*.

Geyer, G., Linnemann, U., **Vickers-Rich, P.**, **Rich, T.**, Gartner, A., Ovtcharova, M., Hofmann, M. & Zieger, J. (**2022**, *in advanced preparation*). The Ediacaran-Cambrian boundary interval revisited: An updated record of the Swartpunt section (Nama Supergroup, Namibia) and its significance for the Ediacaran-Cambrian biostratigraphy and faunal turnover. To be submitted to *Precambrian Research*.

Linnemann, U., Hofmann, M., Gartner, A., Gartner, J., Zieger, J., Kraus, R., Haenel, R., Mende, K., Ovtcharova, M., Schaltegger, U. & **Vickers-Rich, P.**, **2021**. An Upper Ediacaran glacial period in Cadomia: the Granville tillite (Armorican Massif) – sedimentology, geochronology and provenance. *Geological Magazine*, <https://doi.org/10.1017/S0016756821001011>.

Vickers-Rich, P., Mhopjeni, K. & Schneider, G., **Rich, T.H.** with *et al.*, **2020**. Crossing the Line. The Ediacaran-Cambrian transition in Southern Namibia. How the world began to change @ 538 million years ago. *Scientific Society Swakopmund, Reports*, 52 (1): 2-25. (directly related to an exhibition set up at the Swakopmund Museum by our team)

Vickers-Rich, P. & **Rich, T. H.**, **2021, 2022**. *43 T-Shirts, Not the Answer to Everything but with a Few Good Guesses. A Palaeontological Journey Through 700 Million Years*. New Artworx, Melbourne: 376 pp plus Appendices Data Card. (**both hard and soft copies now available**). Launched at the RACV Inverloch Resort on 30 May 2022. (chapters in this on Namibia)

Vickers-Rich, P., Trusler, P., Morton, S., Swinkels, P., **Rich, T. H.**, Hall, M. & Pritchard, S., **late 2021**. Travelling through time. The Roadmap for Namibia is in the rocks. *Deposits Magazine*, 2021/09/15: 24 pp. (depositsmag.com/2021/09/15/travelling-through-time-the-roadmap-is-in-the-rocks)
