MASTER OF PUBLIC HEALTH

WANT TO GIVE YOUR HEALTH CAREER A GLOBAL EDGE?

The Monash Master of Public Health is an internationally recognised passport for careers in government, industry, aid organisations and across the health sector.

Highly regarded in industry and academia, our [Master of Public Health](#) course develops outstanding graduates who contribute to improving public health at national and global levels.

You'll be taught by Victoria's leading public health professionals, including clinicians from The Alfred Hospital and global health experts from the Burnet Institute.

We offer a diverse list of electives, allowing you to customise your degree around your professional interests and career development.

Accelerated entry points, flexible learning options and research opportunities help you realise your potential and get the most from your experience.

IN THE MASTER OF PUBLIC HEALTH YOU WILL:

- Learn how to analyse and interpret health-related data.
- Integrate knowledge and skills to public health issues and challenges; at local, national and global levels.
- Explore public health policy, programs and research.
- Gain leadership and management skills required for success in the health sector locally and globally.

COURSE STRUCTURE

PART A	PART B	PART C	PART D
Discipline studies Develop an understanding of knowledge and skills in the broad domain of public health through core studies in the public health discipline areas.	Foundation studies Gain specialised professional knowledge in the core skills, knowledge, and disciplines of public health through various study areas.	Specialist core studies Choose a specialisation – including epidemiology, global and planetary health, health economics, health policy and more.	Specialist elective studies Continue your chosen specialisation and gain greater expertise in key areas of your interest to suit your own career interests.

COURSE CODE

- M6024
- CRICOS code: 094880G

DURATION

- 1-2 years full time, depending on prior qualifications

STUDY MODE

- On-campus (Alfred campus)
- Multi-modal

INTAKES

- **First semester:** February
- **Second semester:** July

"The thing that I have most enjoyed so far has been the interplay between my work and studies. I'm able to bring insights from my studies into my work and vice versa. This has not only benefited the richness of my learning but has also increased the value that I'm able to contribute through my work."

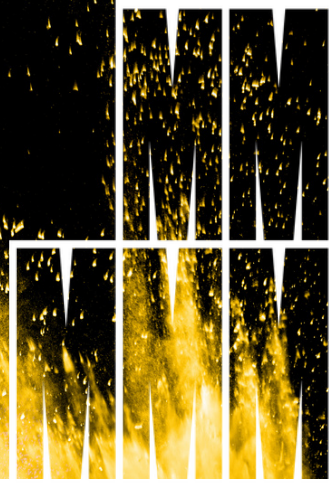

Sally Hartmanis

Oxford PhD Candidate, Health Economics & Genomics, and Monash Master of Public Health Graduate

SPECIALISATIONS

This program offers a choice of specialisations, so you can customise your studies around your career interests to maximise professional development.

Specialisations include:

- Epidemiology
- Global and planetary health
- Health economics
- Health policy
- Health promotion
- Public health
- Research

RESEARCH

Monash University is at the forefront of health care improvement research in Australia and is recognised globally for research excellence.

As part of the Master of Public Health, you can choose to complete a research project under the guidance of one of our public health experts. This can be used as a pathway to a graduate research degree, such as a Doctor of Philosophy.

CAREER OPPORTUNITIES

Studying a Master of Public Health can lead to a range of rich and rewarding careers, both in Australia and overseas, including:

- Biostatistics and data analysis
- Clinical trials management
- Government and policy
- Health administration and management
- Health communications and health promotion
- Public health research

ACCELERATED ENTRY

If you're a medical specialist or have completed Part 1 of your specialist training, you can complete our Master of Public Health in as little as one year (full-time).

We also offer an 18-month direct-entry option for recent public health or medical graduates.

"The knowledge I gained through my studies has given me a very different perspective on health and the language and confidence to be better equipped to take on new challenges. I'm so grateful for the perspective and friendships that my Master's has given me."

Dr Gillian Singleton

General Practitioner and Master of Public Health Graduate (2019)
