

Clayton campus readdressing – Timetable reference changes

We've introduced a new addressing system on the Clayton campus. Every building now has a street number and street address. The timetabling system has been updated to show the new building references for all classes.

This document is designed to help you understand the timetabling codes and find your class. Please refer to the [Clayton campus map \(pdf 189kb\)](#) for locations.

- CL stands for Clayton campus
- 42Sce is the street number and abbreviation for the street name where the building is located (e.g., 42 Scenic Boulevard).
(Streets running from west to east have lower numbers at the west end. Streets running north to south have lower numbers at the north end.)

New timetable code	New building address	Old timetable code	Old building name/number
