Logistics stefanie.stojcevski@monash.edu / +61 3 9903 4769

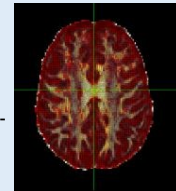

A partnership between:

AlfredHealth

The Department of Neuroscience

Welcome to the opening of the new Department of Neuroscience Translational Neuroscience Laboratories, imaging facilities and clinical trial centre at the Alfred Precinct. These new facilities are an innovative joint venture between Monash University and Alfred Health that span the continuum between basic and pre-clinical neuroscience, clinical trials and novel paradigms of patient care. They incorporate the most advanced pre-clinical imaging facility in the Southern Hemisphere coupled with state-of-the-art laboratories and advanced patient monitoring facilities for early phase clinical trials.

Our speakers

- The Honourable Greg Hunt MP, Commonwealth Minister for Health
- Professor Andrew Way, Chief Executive, Alfred Health
- Professor Christina Mitchell, Dean of the Faculty of Medicine, Nursing and Health Sciences at Monash University
- Professor Terence O'Brien, Head of Department of Neuroscience, Central Clinical School, Monash University and Director, Alfred Brain and Neurology, Alfred Health
