

YOU ARE INVITED TO ATTEND MONASH UNIVERSITY'S 2019 TRANSLATIONAL RESEARCH SYMPOSIUM

We invite you to join us for the 5th annual Monash University Translational Research Symposium, held at the A+ Education Centre lecture theatre, The Alfred.

Significant findings in the lab can often get lost in their conversion to clinical practice and everyday medical treatments. As such, translational research skills have become a significant part of life at Monash's three metropolitan clinical schools. The symposium forms an important part of the curriculum for graduate research programs in Translational Research and Medicine.

An outstanding scientific program featuring leading translational researchers from the three Monash clinical schools and invited speakers from Australia's premier research institutes have been assembled. These speakers will cover a range of topics which have translational applications from the laboratory to the bed-side. Poster presentations from our early career researchers will also be a highlight of the day. Come along to see the future of medicine!

KEYNOTE SPEAKER

PROFESSOR ALAN MACKAY-SIM

Australian of the Year 2017

Professor Emeritus

Griffith Institute for Drug Discovery

PLENARY SPEAKER

PROFESSOR GAIL RISBRIDGER

Deputy Dean, Special Projects

Faculty Medicine, Nursing & Health Sciences
