Welcome to the next Monash Update for 2019. This issue contains key information on new courses, pathway options, scholarships and upcoming events.

Kind regards,
Domestic Student Recruitment team

GENERAL UPDATE

PENINSULA STUDENT EXPERIENCE DAY

Offering a range of insightful and interactive workshops for Year 10s and 11s, this day is perfect for students who are passionate about education, health or business.

Students will participate in one of our faculty workshops and will also hear from a leading education academic on managing stress, building resilience and staying motivated. This is a great opportunity to visit and explore our Peninsula campus.

Find Out More

MONASH PENINSULA
CHANGE OF PREFERENCE DROP-IN
SESSION

With the shorter Change of Preference period this year, Monash is offering more opportunities for your students to get one-on-one course advice and help at the twilight Monash Peninsula Change of Preference drop-in session on Thursday 12 December.

Students can grab a bite to eat and discover how they can achieve their study goals. Offered from 4-7pm, this opportunity will help students learn about Monash pathways and explore their options in business, education and health at the campus.

FACULTY UPDATE

MEDICINE, NURSING AND HEALTH SCIENCES

EXPLORE PSYCHOLOGY AT MONASH

Do your students wonder how the human mind works? Studying psychology is a chance to analyse how we think and behave.

At Monash, we’re big on flexibility and offer a range of pathways for students with a passion for psychology – from a specialist degree, to a major or minor within our Arts or Science degrees (or double degrees).

Help your students compare our courses and pick the psychology degree that’s right for them.
NEW PATHWAY FOR PHYSIOTHERAPY

From 2020, we’re introducing the new Doctor of Physiotherapy, a three year graduate-entry degree based at our Peninsula campus. This offers students with a passion for physiotherapy another pathway to a qualification, if unsuccessful in their application to the Bachelor of Physiotherapy (Honours).

A Monash Bachelor of Biomedical Science, Science, or Health Sciences degree is a great foundation for the Doctor of Physiotherapy. Students must meet specific unit requirements.

EDUCATION

PATHWAYS TO TEACHING

There's more than one way to become a teacher. If your student misses the required ATAR for the Bachelor of Education (Honours), we offer a range of pathways. Programs such as the Diploma of Higher Education (DoHE) and Diploma of Tertiary Studies (DoTS) provide a direct pathway into second year.

“The DoTS program helped me feel more supported... I knew I was on the right track,” says Cassie Kovak, a DoTS and Bachelor of Education (Honours) graduate, now teaching at Silverton Primary School.
PHARMACISTS IN 2023: ROLES & REMUNERATION

What will pharmacy look like in five years time? What types of jobs can pharmacists have? What do pharmacists even do? For the answer to any of these questions and more, take a look at this report newly released by Australia's peak pharmacy body.

If your students are interested in finding out more about pharmacy or pharmaceutical science courses, they can contact pharmacy.marketing@monash.edu to arrange a chat (in-person or on the phone) and/or a personalised campus tour.

ARTS STUDENTS TAKE ON THE WORLD WITH MONASH'S GLOBAL DISCOVERY PROGRAM

New York is an exciting city at the best of times. When your students are on an expenses paid trip designed to help them realise their career dreams, it's even better!

Arts students Lucia Palami and Hannah Schauder travelled to this inspiring urban epicentre with Monash's Global Discovery Program. They spent over a week meeting influential Monash expats, receiving inspiring career advice, and gaining exclusive access to key corporate decision makers from a wide range of organisations, including the United Nations.
ENGINEERING

DISCOVER THE LATEST FROM MONASH ENGINEERING

Interested in keeping up-to-date with what goes on in the Faculty of Engineering?

Sign up to our newsletter! You can read about what our students are up to, and see the impact of our research and partnerships. It's also a great tool to help your students better understand what engineers do.

BUSINESS

SCHOLARSHIPS FOR BACHELOR OF INTERNATIONAL BUSINESS STUDENTS

Do you have international students who want to start studying a business degree this year? They could be eligible for the $6000 Bachelor of International Business (BIB) merit scholarship.

The BIB will teach students the skills to turn their business knowledge and international insights into a successful career. We'll challenge students to understand the global forces that shape markets and trade around the world.
