Are you looking to lead transformational change in the health sector? Equip yourself to make a difference to the future of health care through our new executive health management PhD program.

This is your opportunity to complete an internationally-recognised doctoral program, with expert, cross-disciplinary supervision. Our new executive health management PhD program is designed specifically for senior leaders in the health and public sector.

You’ll work on projects or initiatives from within your organisation as part of your degree, with the support of globally-connected researchers who are leaders in their field. You’ll undertake quality research with impact, amplifying your impact within your organisation and the health care system.

This will be complemented by specially selected professional development activities, designed to build your leadership and research skills in health management. By combining health and economic data with organisational change strategies, you’ll also advance your decision-making and service transformation processes.

Get ready to be part of the global health care transformation and meet the future health needs of our society.

**OUR EXECUTIVE HEALTH MANAGEMENT PHD PROGRAM**

As part of your executive health management PhD program, you will:

- Undertake a substantial research project that culminates in a thesis of no more than 80,000 words.
- Be supported by supervisors from both Monash Medicine, Nursing and Health Sciences and Monash Business School.
- Complete 60 hours of research and teaching professional development activities, enhancing your research, project management and communication skills.
- Complete 60 hours of professionalism, innovation and career activities, including two workshops; Reviewing and synthesising evidence, and Economic evaluations and decision-making.

You also have the opportunity to participate in the exclusive Harvard Macy Leadership and Innovation short course. Learn more about this program at monash.edu/healthed-institute

**WHY CHOOSE MONASH?**

- We’re ranked in the top 1% of universities worldwide and #42 in the world for Clinical, Preclinical and Health Sciences (Times Higher Education World University Rankings 2020).
