Welcome to the May edition of Monash Update. Monash University is continuing to follow the Australian Government’s advice aimed at slowing the spread of COVID-19, and will continue to reassess all of our immediate activations and events. This month's Monash Update provides the most up-to-date information on upcoming events and programs.

The Domestic Student Recruitment team will remain accessible to schools to provide counselling via phone, email and virtual options where appropriate. We will also maintain contact with our Faculty colleagues for follow up if the need arises, and we are exploring the option of developing online resources to support the counselling of your students during this time.

For Monash's position regarding COVID-19 please refer to our dedicated website and regularly updated online fact sheet.

Kind regards,
Domestic Student Recruitment team

KEY DATES

Monash Information Evening
> 16 June

Careers Practitioners Seminar
> 18 June

Inside Monash: Criminology Webinar
> 2 June

GENERAL UPDATE

MONASH INFORMATION EVENINGS - WEBINARS

Monash Information Evenings are the perfect opportunity to have your questions answered on everything you wanted to know about undergraduate study at Monash.

These events will now be run as webinars until the end of June. Register to attend a
date that's convenient for you to hear about:

- Monash courses
- How to apply and access schemes
- Student life
- Accommodation options

Register Now

INSIDE MONASH
Get the inside story on what it's really like to study at Monash.

Over the coming months you'll have the opportunity to hear from current students, past students, and academics from all ten faculties.

You'll find out about course information, entry schemes, scholarships, accommodation and so much more!

Key dates for our exciting July and August webinars will be released soon. You'll be able to find the updates via the link below.

MID-YEAR ENTRY
Applications are now open for mid-year entry at Monash.

There are a significant number of undergraduate CSP and graduate courses available for mid-year entry. Applications are submitted directly to Monash.

Apply Now

CAREERS PRACTITIONERS SEMINAR
Save the date for our annual Careers Practitioners Seminar on Thursday 18 June. Invitations to register have
be sent out via email.

Our keynote presentation will be delivered by Dr Ranjana Srivastava — a Monash graduate, oncologist, Fulbright Scholar and award-winning author.

We will also have insights from James Marshall, Director of Admissions at Monash, as well as a range of informative faculty presentations during the course of the morning. We will be requesting that you register for the sessions you are most interested in attending and we will distribute the Zoom webinar link via email in the days prior to the event.

While we love meeting everyone in person, at least there won’t be any issues with parking or finding venues! We look forward to ‘seeing’ you then.

STUDENT RECRUITMENT
YOUTUBE CHANNEL
We have set up a specific YouTube channel for Career Practitioners. This channel hosts content that we would normally deliver face-to-face, to support you with any counselling for your students.

New faculty and recruitment content will be added to the channel as it becomes available.

ONE-ON-ONE
APPOINTMENTS VIA CALENDLY
We are now offering several opportunities for your students to book a one-on-one chat with a Monash course adviser. Several faculties are offering appointment times:

- Faculty of Arts
- Monash Business School
Other faculties are currently working on availability for one-on-one sessions so please check the faculty section on the Destination Monash 2021 hub regularly.

DESTINATION MONASH 2021
We have made some improvements to our Destination Monash 2021 hub including the development of an events calendar, a link to our Alumni Gallery that sits on the Year 12 page and new information for parents including an updated Parents’ Guide.

We hope that the information we are providing via the hub is useful and supports your students with their decision making process for 2021 and beyond.

Please feel free to provide any feedback to us via email.

PUBLICATIONS ONLINE
Our publications website has been updated with most university and faculty course guides for 2021 entry, as well as the Year 10, SEAS and Monash Guarantee and Pathways guides.

Several faculties have not produced hard copies of their guides at this point in time so access to faculty guides will predominantly be in digital format.

Many of our faculties have converted their course guides to a digital format making them much more user friendly. You can also order our publications via BPO.
NEW DOUBLE DEGREE | BACHELOR OF POLITICS, PHILOSOPHY AND ECONOMICS AND BACHELOR OF ARTS

Introducing the Politics, Philosophy and Economics (PPE)/Arts double degree. In the PPE, students will develop a desire and ability to engage with ideas and issues in public life and come out with well-honed communication skills to share their ideas effectively.

Combining with the BA will give students the choice of 40 Arts areas of study and access to the Global Immersion Guarantee. Students could consider natural pairings with PPE, such as, international relations, journalism, public relations or a language.

For more information contact Georgina Gibson or call 9902 0344.
Students can complete professional experience in inclusive classrooms and learn how to support learners with additional needs. The Keep on Learning program is one such example.

WILLIAM COOPER INSTITUTE

INDIGENOUS WINTER CAMP

Indigenous Winter Camp is coming to a screen near you!

The Indigenous Winter Camp aims to provide Aboriginal and/or Torres Strait Islander students from year 10-12 with an in-depth insight into university life, while focusing on team-building, meeting new people, culture, confidence building and health and well-being.

We are now running a virtual three-part Winter Camp series:

- Monday 6 July
- Thursday 9 July
- Monday 13 July

If you have any questions, contact Allira Jones, Indigenous Student Recruitment Coordinator.

INFORMATION TECHNOLOGY

CONQUERING CODE WORKSHOP FOR GIRLS

Coding is the language of the future.

Now is the chance for enthusiastic girls in years 10 and 11 to delve deeper into this specialist area – through our Conquering Code Workshop. During this virtual event, they’ll learn from inspirational women
in IT and work alongside peers in the Code Like a Girl Workshop.

As well as honing their coding capabilities, they’ll get to hear from current Monash IT students on why they chose IT.

Know a girl who is eager to try their hand at coding?

ENGINEERING

ENGINEERING MID-YEAR INTAKE
We know that past students sometimes come back to seek your advice well after they've left school. If you know any who are interested in commencing an Engineering degree in semester 2, we will be offering a limited intake.

Students are welcome to contact Helen O'Keeffe for more details.
RESOURCES ENGINEERING - MINING AND RENEWABLE ENERGY

Natural resources: minerals, metals and energy, are vital to modern life and are a cornerstone of Australia's economy.

Are you passionate about ensuring we will have the resources we need for our future industry and society? Then Monash Resources Engineering, ranked in the top 10 worldwide for both Mining and Renewable Energy*, could be for you.

Join us for an online presentation to learn more about this exciting field and its many career opportunities on Thursday 30 July from 5-6pm.

MONASH ENGINEERS WORK TO REDUCE THE IMPACT OF COVID-19

We tell prospective students every day that engineers are creative and collaborative problem solvers.

Our own Engineering staff and students are living proof of that — undertaking ingenious work to help manage the impact of COVID-19.
From re-purposing snorkels to creating ways to stop us touching door handles, their innovations are an inspiration.

Read more about how Monash Engineers are making change.

ENGINEERING STORIES - FIND OUT WHERE AN ENGINEERING CAREER COULD TAKE YOU

Students, parents and teachers are invited to join us on Saturday 20 June for an interactive panel discussion.

We'll be exploring what it is to be an engineer, and how varied, and sometimes surprising, the career paths can be.

Current students, graduates and academics will gather to discuss their personal journeys and the vast array of career opportunities available.
