Subject: Your academic progress risk level has been removed

Student ID: [ID]

Dear [given name],

We've reviewed your academic progress again in your [course] for the [first/second half of 202x].

Following an adjustment of your final grades we've seen that after you had received a fail grade for one or more of your units, you then subsequently passed that unit/s. We can therefore confirm that your risk level has been removed and your academic progress is not currently under review.

or

We've found that one of your unsatisfactory academic progress criteria has been removed and can therefore confirm that your risk level has been removed and your academic progress is not currently under review.

or

Following a review of your academic progress, we can confirm that your risk level has been removed and your academic progress is not currently under review. This may be because an adjustment has been made to your final grades, because you have now met a compulsory course requirement or complied with an enrolment condition.

What do I need to do?

There is nothing further for you to do. If you have already completed the My Progress and Support tool, you can still access your responses and recommendations for advice and support from your earlier academic progress email.

Access support

There are plenty of support services available to you as a Monash student including counselling. You can find out more by visiting the student support webpage for Australia, Malaysia or Indonesia.

Your student association can also provide you with free, confidential support and advice.
More information

For more information, visit our student academic progress website.

If you still have questions, contact Monash Connect (if you submit an online enquiry, make sure you add ‘Academic Progress’ to the subject heading).

Kind regards

Faculty of Engineering
