UNDERGRADUATE CERTIFICATE OF HEALTH CARE ESSENTIALS

IMPROVE CLIENT CARE SERVICES AND SUPPORT
Help provide safe, appropriate and inclusive care for clients in your local community with the new Undergraduate Certificate of Health Care Essentials.

- Course code: M0503
- Study mode: Online
- Duration: Two semesters (part-time)
- Intake: February and July

Caring for our most vulnerable populations is important and rewarding work. The Undergraduate Certificate of Health Care Essentials develops your knowledge and skills in client care, such as understanding different healthcare settings and roles, considering the diverse care needs of consumers, and improving client safety and developing future career innovations in your community.

This course is delivered fully online, combining the quality of a Monash qualification with the flexibility required by working professionals or those with caring responsibilities.

Whether you’re looking to start your career in the care sector, extend your practice, or move into a senior role at work, this course will equip you to meet the diverse care needs of people in your local community.

In the Undergraduate Certificate of Health Care Essentials you will:
- Develop an understanding of client care, as well as client and workplace safety, including identifying adverse events and near-misses.
- Explore the principles of mental health care, nutrition and skin and wound prevention, and practical strategies for innovating healthcare in these areas.
- Identify ways to communicate effectively with health care teams and clients including First Nations peoples and people from culturally diverse backgrounds.

COMMONWEALTH SUPPORTED PLACES
Limited Commonwealth Support Places (CSP) are available for this course. Monash University is offering study grants for this course, so students will not be required to pay a student contribution amount for enrolled units in 2023.

FURTHER STUDY
With an Undergraduate Certificate of Health Care Essentials, you may be eligible to apply for our Bachelor of Health Sciences.

CAREER OPPORTUNITIES
The health, aged care, social support and community service sectors have strong projected employment growth. Skilled workers in areas such as aged and disability support are among the most needed roles in Australia.

For further information about the Undergraduate Certificate of Health Care Essentials, visit: monash.edu/study/course/m0503

“This new course is specifically designed to meet the key needs of our care workforce. You’ll learn the latest in evidence-based practice from leading academics and clinicians, and be equipped to provide much-needed care to clients and communities across Australia.”
