

Hello, my name is Sarah Willmot, I am currently a 2nd year student enrolled in the Bachelor of Radiography and Medical Imaging (Honours) at Monash University and nominating for the Undergraduate Student Member position for the Academic Board of 2020-2021. I am a highly motivated and organised student, currently holding a Vice Chancellors Scholarship for Excellence and associated with my Surf Club's Board as our previous Club Captain, current First Aid Officer and Trainer, and being mentored as our next Operations Manager. These roles have allowed me to develop skills such as time management, administrative competence, responsibility, professionalism, adept communication and creativity for new ideas. More than that, I enjoy these roles immensely and believe I will with this one. It is a tremendous opportunity to work with the members of this board on shaping our standard of teaching and research, and be able to engage with more students. I wish to be elected into this role to represent all undergraduate students at our university and provide direction and change to our education in the way we all want to see it. Thank you.
