

Hello,

As a final-year Engineering and Science student, I have experienced what Monash has to offer and believe that I can act as an integral member of the Academic Board for the best interests of the wider community. I've been through the ups and downs in class, know what works and what doesn't, and have raised my voice to incite change where necessary. An appointment to the Academic Board would only allow me to do so with a louder voice.

Through my studies and work endeavours, I have shown growth and enthusiasm. These experiences collectively, have led me to champion leadership, fostering an inclusive-culture with people from various sectors and diverse backgrounds.

I find passion in working with people to make decisions which have an influence beyond personal interests. Monash can be justifiably proud of its achievements, but there are considerable challenges ahead. I believe that in our changing global environment, to continue to provide top tier education, we should not only grow with the trend, but *lead* it. Thank you for your time in considering my nomination.
