

My name is Emina and I'm a Law and Global Studies student who is running to be your representative on the Academic Board.

During my four years at Monash, I have been an active participant in the various opportunities provided by Department, Faculty and the University as a student representative. I believe that this experience in academic affairs has allowed me to identify key approaches for the University to continue to maintain high standards in teaching and research for our student body. Unaffiliated with any one particular association, I hope to use the role on the Academic Board to ensure that the wide, varied but all equally important views and concerns of my Monash peers are effectively and reliably represented.

I offer a clear, independent and active voice to achieve this goal and would be honoured to represent you as a student representative of the Academic Board.
