Shaping the Future of Railway 2019

Angela Brown
Manager Industry Capability and Development
Acknowledgement

I acknowledge the Traditional Owners of the land on which we are meeting.

I pay my respects to their Elders, past and present, and the Elders from other communities who may be here today.

“Journey Across Three Countries” by Robert Kelly – Wathawurrung
LXRP is removing 75 level crossings across Victoria with 29 already gone
Our vision

Delivering Great Change – Transforming the way Victorians live, work and travel.
Key benefits

• Improving safety
• Reducing congestion and travel times
• More trains more often
• Creating thousands of jobs
Our scope is large and expanding

- Removing 75 dangerous and congested level crossings by 2025
- 50 level crossings gone by 2022
- Building and upgrading stations – 14 new stations already opened
- Signalling upgrades
- Mernda rail extension
- Cranbourne/Pakenham line upgrade
- Hurstbridge line duplication
- Kananook train storage facility
- Carrum revitalisation
- Wyndham Vale stabling
We’re creating great places and great networks

• Establishing local community precincts
• Connecting and revitalising communities
• Leading the way in engineering innovation
• Setting new standards in sustainability
• Improving the rail network
• Training the rail industry workforce for the future
• Creating diversity and inclusion opportunities
Industry Capability and Inclusion

• Building industry capability for the future
• Investing in skills development
• Creating diversity and inclusion opportunities
• Maximising social benefits through social procurement
• Building capacity in the Indigenous community
“We got to learn about working in the rail industry, what these companies do and how to apply for jobs with them. Now I work with the V/Line Classic Fleet service project at Bombardier”

Nickson – From GROW to Bombardier
Railway Signalling Engineer Cadetship

• Currently a high demand for rail signalling professionals
• An Australian-first program offers a fully paid, three-year cadetship
• Graduate Diploma of Railway Signalling Systems qualification on completion
MTIA Graduate Program

- Award-winning program
- Immerse graduates in a range of different business areas
- Professional development and networking
- Large engineer intake
Engineering Pathway Industry Cadetship (EPIC)

• Get paid to work and study
• 18-month opportunity as a Civil Site Engineer
• Work on major projects across the Major Transport Infrastructure Authority
• Gain a Graduate Certificate of Infrastructure Engineering
• Open to refugee and asylum seeker applicants
Get in touch!

- EPIC recruitment September 2019
- Signalling Cadets recruitment September 2020
- Graduate recruitment March/April 2020 TBC
