How to enrol in the Bachelor of Engineering (Honours) and Bachelor of Arts

Mid Year
### Quick facts

<table>
<thead>
<tr>
<th>Course Title</th>
<th>Bachelor of Engineering (Honours) and Bachelor of Arts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Short title</td>
<td>BE(Hons)/BA</td>
</tr>
<tr>
<td>Course code</td>
<td>E3002</td>
</tr>
<tr>
<td>Engineering specialisations you can choose</td>
<td>Aerospace, Chemical, Civil, Electrical and Computer Systems, Environmental, Materials, Mechanical, Mechatronics or Software Engineering</td>
</tr>
<tr>
<td>You’ll graduate with</td>
<td>Two awards:</td>
</tr>
<tr>
<td></td>
<td>1. The award title for your engineering specialisation for example: Bachelor of Aerospace Engineering (Honours)</td>
</tr>
<tr>
<td></td>
<td>2. Bachelor of Arts</td>
</tr>
</tbody>
</table>
| Credit points | 40 units x 6 credit points = 240 credit points  
|               | 41 units x 6 credit points = 246 cps if you need two foundation units |
| Duration      | 5 years full time - domestic and international students  
|               | 10 years part time - domestic students                 |
| Time limit    | 10 years                                                |
## Now for the course structure

<table>
<thead>
<tr>
<th>Level 1 units</th>
<th><strong>Engineering Common first year</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Students commence engineering and acquire knowledge in core disciplines, design and teamwork</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Engineering specialisation selection at the end of common first year</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Levels 2, 3 and 4 units are taken in your specialisation over the remaining four years</td>
</tr>
</tbody>
</table>

| Level 2 units | Builds basic theory and further design skills |
| Level 3 units | Extends theory and design into more complex, professional scenarios |
| Level 4 units | Provides specialised electives and an individual project |

### Arts

The Bachelor of Arts is a comprehensive course, structured in equal parts. In the double degree course you complete:

#### Arts specified study
- Exposes you to several arts disciplines areas of study contributing breadth to your knowledge of the arts, humanities and social sciences.
- Gives you the opportunity to learn about several areas of study before finalising your choice of major and minor.

#### Arts listed major
- Focused program of study develops your practical and theoretical skills and knowledge in one Arts listed major.
- Learn to critically analyse, apply and communicate an advanced level of understanding of the concepts and theoretical frameworks that constitute the knowledge base of the area of study.
Let’s enrol

- Your **handbook entry** and **course map** detail the units and other requirements you must meet to complete your degree.
- You’ll need to enrol for semester 2 only:
  - Full-time study (local and international students)
    - 4 units for your first semester
  - Part-time study (local students only)
    - 2 units for your first semester
- What you enrol in is dependent on your academic preparation:
  - I am enrolling from Level 1 of the course
  - I have been awarded credit for part of the course e.g. students transferring from another university
Level 1 - Core engineering units

These five units are compulsory and must be completed at Level 1

- **ENG1001** Engineering design: Lighter, faster, stronger
- **ENG1002** Engineering design: Cleaner, safer smarter
- **ENG1003** Engineering mobile apps
- **ENG1060** Computing for engineers
- **ENG1005** Engineering mathematics

Tips!
- Split your design units (ENG1001 and ENG1002) across two semesters
- If you don’t have a background in physics, put ENG1001 in your first semester
- Keep ENG1060 and ENG1005 in the same semester
Level 1 - foundation units

Foundation units develop your understanding of the natural and physical sciences and mathematics that underpin all engineering disciplines. You may have completed these units in your final year of school or in tertiary study. If you haven’t, **these units are compulsory**.

**MTH1020** Analysis of change (equivalent to VCE Specialist Maths units 3 & 4). You don’t need to take foundation maths (Analysis of change) if you’ve completed:
- VCE Specialist Maths (score of ≥30)
- IB higher level maths (4 or above)
- A Level mathematics (B or above)
- MUFY Adv Maths 1 & 2 (≥ 65%+)
- or any higher level maths with calculus.

**Maths is the language of engineering so if you’re not confident with calculus, strengthen your maths foundation by taking MTH1020. If you have taken Gao Kao Maths you should enrol in MTH1020.**

**PHS1001** Foundation physics (equivalent to VCE Physics units 3 & 4). You don’t need to take foundation physics if you’ve completed:
- VCE, IB or A Level Physics (pass grade)
- MUFY Physics (≥ 65%+)
- Physics at a tertiary level (pass grade)
- AP Physics 1 and 2 (if you have only completed Physics 1 or Physics C you must take PHS1001).
## Level 1 - remaining Eng units

Your remaining Engineering units will depend on whether you needed to take any foundation units.

| I need to take two foundation units | You have no remaining engineering units to choose  
|-----------------------------------|--------------------------------------------------
|                                   | To avoid having to take 9 units in Level 1, you can take ENG1003 Engineering mobile apps in your second year as an overload  
|                                   | Choose your Arts units  

| I need to take one foundation unit | You have no remaining engineering units to choose  
|-----------------------------------|--------------------------------------------------
| Choose your Arts units  

| I don’t need to take any foundation units | You have one engineering elective unit to choose  

Level 1 – Engineering electives

Examples of electives (Engineering elective list)

- CHE1010 Grand challenges in chemical engineering: Delivering sustainable food, water and energy
- CHM1011 Chemistry 1 or CHM1051 Chemistry 1 advanced
- ECE2072 Digital systems
- ENE1621 Environmental engineering
- ENG1021 Spatial communication in engineering
- ENG1051 Materials for energy and sustainability
- ENG1811 Engineering design C: Automated, integrated and connected world
- ENG2801 Leadership and innovation
- FIT2085 Introduction to computer science for engineers
- MAE2405 Aircraft performance
- MAT1830 Discrete mathematics for computer science *
- MEC2404 Mechanics of fluids
- PHS1002 Physics for engineering
- RSE1010 Natural resources engineering
- TRC2001 Introduction to systems engineering

Tip!
✓ CHE1010, ENE1621, ENG1021, ENG1051, ENG1811, PHS1002, CHM1011 & RSE1010 are good choices if you’re not too sure which specialisation to choose at the end of Level 1.

* for Software engineers
These Level 2 engineering electives are offered in first year to extend capable students and provide a deeper insight into some of the specialisations:

- **CHE2161** Mechanics of fluids
- **ECE2041** Telecommunications
- **ECE2072** Digital systems
- **ENG2801** Leadership and innovation
- **FIT2085** Introduction to computer science for engineers
- **MAE2405** Aircraft performance
- **MEC2404** Mechanics of fluids
- **TRC2001** Introduction to systems engineering

Tips!

- ✔ You must have passed four units to be eligible to undertake these Level 2 electives so you’ll need to enrol in them in your second semester
- ✔ Don’t underestimate the difficulty and level of work involved in these units. Remember, you will be in class with Level 2 students.
Level 1 – Arts units

You will need to select two Arts units:

- **Check study areas** for information about the Arts areas you can study.
- **Choose majors and minors** - the areas you will specialise in.
- **Choose your units** - usually worth six points (some later year Arts units are worth 12 points).
- **Bachelor of Arts**

**Tips**
- Arts units have a code beginning with the letters **ATS**
# Let’s enrol

Here’s what to enrol in if you don’t need any foundation units

<table>
<thead>
<tr>
<th>Sem</th>
<th>Course Code</th>
<th>Course Name</th>
<th>Course Code</th>
<th>Course Name</th>
<th>Course Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>ENG1001 Engineering design: lighter, faster, stronger</td>
<td>ENG1005 Engineering mathematics</td>
<td>ENG1060 Computing for engineers</td>
<td>Arts unit</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>ENG1002 Engineering design: cleaner, safer, smarter</td>
<td>ENG1003 Engineering mobile apps</td>
<td>Engineering elective unit</td>
<td>Arts unit</td>
<td></td>
</tr>
</tbody>
</table>

**Tip!**
- You can swap the semester of your engineering elective and your semester 1 Arts unit.

Here’s what to enrol in if you need both Foundation physics and maths

<table>
<thead>
<tr>
<th>Sem</th>
<th>Course Code</th>
<th>Course Name</th>
<th>Course Code</th>
<th>Course Name</th>
<th>Course Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>ENG1002 Engineering design: cleaner, safer, smarter</td>
<td>PHS1001 Foundation physics</td>
<td>ENG1090 Foundation Mathematics</td>
<td>Arts unit</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>ENG1001 Engineering design: lighter, faster, stronger</td>
<td>ENG1005 Engineering mathematics</td>
<td>ENG1060 Computing for engineers</td>
<td>Arts unit</td>
<td></td>
</tr>
</tbody>
</table>

**Tip!**
- You can take the remaining core unit ENG1003 Engineering mobile apps in semester one of year two as an overload.
- You cannot swap the semesters of any of the unit.
Let’s enrol

Here’s what to enrol in if you need to take Foundation physics

<table>
<thead>
<tr>
<th>Sem 1</th>
<th>ENG1002 Engineering design: cleaner, safer, smarter</th>
<th>ENG1003 Engineering mobile apps</th>
<th>PHS1001 Foundation physics</th>
<th>Arts unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sem 2</td>
<td>ENG1001 Engineering design: lighter, faster, stronger</td>
<td>ENG1005 Engineering mathematics</td>
<td>ENG1060 Computing for engineers</td>
<td>Arts unit</td>
</tr>
</tbody>
</table>

Tip!
✓ You can swap the semester of ENG1003 and your semester 2 Arts unit if you like.

Here’s what to enrol in if you need to take Foundation maths

<table>
<thead>
<tr>
<th>Sem 1</th>
<th>ENG1002 Engineering design: cleaner, safer, smarter</th>
<th>ENG1003 Engineering mobile apps</th>
<th>ENG1090 Foundation Mathematics</th>
<th>Arts unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sem 2</td>
<td>ENG1001 Engineering design: lighter, faster, stronger</td>
<td>ENG1005 Engineering mathematics</td>
<td>ENG1060 Computing for engineers</td>
<td>Arts unit</td>
</tr>
</tbody>
</table>

Tip!
✓ You can swap the semester of ENG1003 and your semester 2 Arts unit if you like.
What if I have credit?

Students granted some credit or credit across multiple year levels

- Your credit has been keyed
- The units you need to enrol in are listed on the course map
- Print off a course map and mark the units you have been granted credit for
- Enrol in eight units, starting from the lowest year level, making sure to check prerequisites have been met.

Tip!
✓ Prerequisites are listed against each unit in the specialisation section of the handbook (at the bottom of the course page)

<table>
<thead>
<tr>

<td>Credit</td>
<td>Credit</td>
<td>Enrol</td>
</tr>
<tr>
<td>Semester 2</td>
<td>Enrol</td>
<td>Enrol</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
How to apply for credit

- You can **apply for credit** for completed university level subjects
- You can **search online** for previous credit decisions to give you an idea of what you **may** be granted
- You do not need to provide your results or a syllabus for Monash enhancement units (we have these already!)
- Enrol in a standard enrolment to secure your place in the course. Your enrolment can be changed when your application has been processed.

Tip!
- Submit your credit application as quickly as possible to give you plenty of time to change your enrolment if you have to
- You will only be awarded credit if you have room in your course structure.
