

MASTER OF ADVANCED HEALTH CARE PRACTICE

MASTER OF ADVANCED PARAMEDIC PRACTICE

Enhance your specialist paramedic knowledge, advance to a leadership position or embark on a research project with the Master of Advanced Paramedic Practice, one of seven specialisations within the Master of Advanced Care Practice.

With a contemporary and evidence-based curriculum written by clinical experts, our course prepares paramedics, EMTs, nurses and physicians for positions in clinical leadership, education and research.

Extend your clinical practice with advanced techniques to provide the highest level of out-of-hospital care, and gain the clinical judgement, decision making and leadership skills to take the next step in your career.

With the choice of online or face-to-face delivery, the Master of Advanced Paramedic Practice offers the quality and recognition of a Monash graduate degree with the flexibility required by working professionals.

In the Master of Advanced Paramedic Practice you will:

- Advance your knowledge and skills in focused clinical practice areas.
- Interpret the contemporary research evidence base as it relates to advanced paramedic interventions.
- Formulate advanced management plans for complex patients based on systematic advanced patient assessments.
- Justify treatment decision pathways for complex patient presentations.

Course code

M6001

CRICOS course code: 084615G

Study mode

On-campus (Notting Hill)

Online

Intakes

First semester: February

Durations

Full time: 1.5 years

Part time: 3 years depending on prior qualifications

COURSE STRUCTURE

PART A

Part A focuses on expanding your core skills for advanced health care practice. (24 points)

PART B

Part B provides you with the opportunity to pursue advanced specialist study through either coursework or a research focus. (48 points)

All students complete Part B. Depending on your qualifications and experience, you may be eligible to apply for credit of up to 24 credit points towards part or all of Part A. Even if you are eligible for credit, you can elect to do the longer form of the course.

Visit monash.edu/study/course/m6001 to learn more about what you'll learn within the paramedic practice specialisation.

"Paramedicine is rapidly developing as a profession in many countries and this Master's provides an opportunity for students to extend their skills and knowledge in advanced paramedic practice. The direct pathway into our PhD program is also very exciting."

Brett Williams

Professor and Head of Department of Paramedicine, Monash University

RESEARCH STREAM PROJECTS

Monash is recognised globally for its research excellence. You can choose to undertake a research project or minor thesis in paramedicine, where you'll be matched to a supervisor who is an expert in their field.

Supported research areas include:

- Improving paramedic wellbeing
- Enhancing paramedic education
- Advancing paramedic clinical practice
- Expanding prehospital health services

Research works best if it arises from a specific practice-based challenges. Discuss your proposed research project with the course coordinator and we will endeavour to support your project.

This research stream can also be used as a pathway to a PhD in paramedicine.

ENTRY REQUIREMENTS

For further information about the Master of Advanced Paramedic Practice, including entry requirements, fees and scholarships, visit monash.edu/study/course/m6001

International students are eligible to study in their home country online, or on-campus in Melbourne and must satisfy minimum English language requirements.

WHY CHOOSE MONASH?

- Ranked #45 in the world for Clinical, Preclinical and Health Sciences (Times Higher Education 2019).
- The Faculty takes a bench to bedside approach; our clinical research is focused on directly improving outcomes for patients.
- We participate in Monash Partners Academic Health Science Centre, one of only four advanced research and translational centres in Australia.
