

Cloud Analyst - Graduate & Internship Opportunities

Sourced Group brings you an opportunity that will have you immersed in real life experiences. Work on projects with the Sourced team and be mentored by some of the best DevOps Engineers in the Cloud industry. This program will see you engaging in projects to develop and transform our enterprise scale client sites within the financial, aviation and healthcare industries. We anticipate there will also be permanent employment opportunities available on completion of your studies.

Sourced Values Integrity, Innovation, Service, Quality, Humility, Sustainability

What you'll be responsible for

- Working closely with technical leads and client teams to fully demonstrate the benefits of cloud technology (with a focus on AWS, GCP or Azure)
- Helping to build & introduce clients to automated delivery pipelines (CI/CD)
- Defining and implementing cloud-based solutions in line with industry best practices and enterprise architecture guidelines
- Supporting customers in troubleshooting issues in their test and/or production environments and identifying root cause and solutions

What you will bring to the role

- Bachelors degree in Engineering, Information Technology, Computer Science or other STEM related education
- Passion for learning new technologies with a focus on developing large-scale, secure, and high availability solutions in various Cloud environments such as AWS, GCP or Azure.
- Basic skills working with deployment automation configuration management technologies such as Puppet, Chef, Ansible or other
- Programming knowledge or experience in Ruby, Python, Go, .NET, Java or other
- Willing to learn CI/CD methodologies, processes and tools, such as Atlassian Bamboo, Jenkins, CodePipeline, CodeDeploy, Travis CI or other
- Knowledge of Agile delivery teams / projects / programs

Desirable Skills

- Database knowledge or experience with SQL Server, MySQL, PostgreSQL or other
- Knowledge of test automation concepts
- Basic understanding of security principals and other associated cloud controls

About Sourced

Sourced is a rapidly-growing global consultancy with offices around the globe. Founded in 2010, we provide consulting services to migrate enterprise customers to hyperscale cloud

providers. We specialize in organisation-wide cloud transformation and DevOps enablement for a wide range of industries, including financial services, healthcare, aviation, media and telecommunications. We work with some of the largest and most security-conscious organisations around the world to help them unlock innovation through cloud computing. The team at Sourced are rare; deeply technical, while still being consultative. We are as comfortable with a whiteboard marker explaining complex solutions as we are sitting at a keyboard implementing them.

Why Sourced?

Sourced offers huge growth opportunities in an innovative, collaborative and inclusive environment. We have regular team social events, personalised career development plans, supportive management and team members, training budget to utilise every year, monthly educational workshops, global relocation packages, as well as a generous employee share option plan! We provide opportunities to work on challenging technology solutions, whilst encouraging and aiding the ongoing professional development of our team.

Sourced Group is an equal opportunity employer committed to creating a safe, diverse and inclusive environment. We encourage qualified applicants of all backgrounds including ethnicity, religion, disability status, gender identity, sexual orientation, family status, age, nationality, and education levels to apply. If you are contacted for an interview and require accommodation during the interviewing process, please let us know.
