Throughout term three we invite you to visit MUMA for *Making Space*, a suite of inspirational hands-on workshops. In July, meet local artist Tracey Lamb and explore how her practice riffs off modernist architecture and design, then make your own sustainable sculptural assemblages.

In a unique setting, students will learn in the galleries alongside artworks from the Monash University Collection presented in the exhibition *Connecting the World through Sculpture*. This exhibition, celebrating sixty years of the Collection, will take place in one half of the Museum in three parts: *From the Ground Up* (7–24 July), *The Sculptural Body* (31 July – 20 August) and *Up in the Air* (28 August – 18 September). This is an incredible opportunity for students to explore creative practice and thinking in close proximity to the Monash University Collection.
