

BACHELOR OF COMPUTER SCIENCE (2380) - 2013
Industry Based Learning (IBL) placement

Student Name: _____ ID: _____

This course map shows a recommended progression only. Some units can be taken in semesters other than those indicated below. Students completing units in a different sequence to that indicated above should be aware of unit prerequisites and semesters of offering prior to varying their course progression. Please see a Course Advisor for any queries.

Year 1

First Semester	FIT1029 Algorithmic problem solving	FIT1040 Programming fundamentals	MAT1830 Discrete mathematics for computer science	Elective
Second Semester	FIT1008 Introduction to computer science [(FIT1040 or FIT1002) & FIT1029]	FIT1004 Data management	FIT1031 Computers and networks	Elective

Year 2

Summer Semester	FIT2002 Project management [24pts level 1]			
First Semester	FIT3140 Advanced programming [FIT1008]	FIT2003 IT professional practice [24pts level 1 IT]	FIT2001 Systems development [Co-req: FIT1004]	Elective
Second Semester	FIT2004 Algorithms and data structures [FIT1008 & 6 pts approved Maths]	MAT2003 Continuous mathematics for computer science	Elective	Elective

Year 3

First Semester	FIT3045 Industry-based learning (18 points)			
Second Semester	FIT2014 Theory of computation [FIT1029 & 6 pts approved Maths]	Elective	Elective	Elective

144 points must be completed to qualify for the degree of Bachelor of Computer Science, with the following conditions:

- normally 48 points, and a maximum of 60 points, of first year level units will be counted;
- at least 36 points must be completed at second year level
- at least 36 points must be completed at third year level

All units are 6 points unless indicated otherwise

All course variations must be approved by the Course Director and will be confirmed in writing.

Please see <http://www.monash.edu.au/pubs/handbooks/courses/2380.html> for information on recommended majors and minors in the Bachelor of Computer Science.
