

GRADUATE CERTIFICATE OF CLINICAL SIMULATION

Simulation is a fast-emerging field with increasing prominence in healthcare. Aligning our Graduate Certificate of Clinical Simulation with assessed short courses provides a cutting edge professional development option for health professionals.

- **Course code: M4008**
- **Study mode: Online delivery**
- **Intakes: Second semester (July)**
- **Duration: 1 year part-time.**
Not available full time. Students have a maximum of three years to complete this course.

Discover how to plan, implement and evaluate your own simulation-based education program with a Graduate Certificate of Clinical Simulation. Taught by leading experts in simulation education, you'll develop professional skills to teach and supervise in both clinical and non-clinical contexts using simulation.

This practice-based qualification is suitable for a broad range of health professionals who are, or will be, engaged in simulation-based education. This includes in teaching, assessment, evaluation, mentoring and supervision of health professionals and students in a range of clinical and other contexts. It's also suitable for health professionals who use simulation for healthcare service quality improvement or systems testing.

ACADEMIC ENTRY REQUIREMENTS

An Australian undergraduate degree (or equivalent) in a cognate discipline from any health related qualification or satisfactory equivalent.

HOW TO APPLY

Find out more about the application process and what you'll need to apply at: monash.edu/study/how-to-apply

COURSE STRUCTURE

The course consists of 24 points structured as follows:

- 12 points: HCS5100 Foundations of health professions education - Simulation focussed.
- 6 points: One assessed short course.
- 6 points: One assessed short course.

NOTES:

Short courses are chosen from the list below. Not all short courses are available every semester.

- Learning Conversations: Feedback and Debriefing Practices in clinical simulation
- Scenario Design for Simulation-based Education
- Learning and Teaching with Simulation

MONASH INSTITUTE FOR HEALTH AND CLINICAL EDUCATION

The Monash Institute for Health and Clinical Education provides innovative and contemporary continuing education for professionals in healthcare delivery, education, and administration.

The introduction of the Graduate Certificate of Clinical Simulation marks a highly innovative approach to certification in continuing education, with the degree completed through a combination of short courses and award units.

"It's clear that simulation will always have an important role in health professions education and practice. This course will help participants to make informed decisions about how to use simulation optimally.

We'll balance exploring theory and evidence with the practicalities of using simulation. I'm really excited to be working with my colleagues and participants in this course."

Professor Debra Nestel

Course Coordinator
PhD, FacadMEd, FSSH
