Counting: Percentage of Total Population, Place of Usual Residence in SA3 Statistical Areas

This product uses a generalised version of ABS geographic boundaries. This removes some of the detail in the boundaries including very small islands and reduces the file size which enables the application to run more efficiently. More information on this is available in the TableBuilder Manual. The exact ASGS and ASGC boundaries are available from the ABS Statistical Geography Portal, [www.abs.gov.au/geography](http://www.abs.gov.au/geography)
