

Course progression map for 2027 commencing students

This progression map provides advice on the optimal sequencing of units and guidance on planning unit enrolment for each semester of study in conjunction with the required units outlined in the course 'Requirements' section of the [Handbook](#). Please note that the map may be updated to reflect changes to course requirements. Be sure to review it for the latest information before re-enrolling. Last updated: 3 August 2026 (*Pending finalisation – Subject to change*)

E3007 Bachelor of Engineering (Honours) and Bachelor of Science Common First Year

You do not have VCE Units 3 & 4 Specialist Maths >30 study score <u>and</u> VCE Units 3 & 4 Physics >25 study score: You must enrol in Foundation mathematics (ENG1090) <u>and</u> Foundation physics (PHS1001)				
Year 1 Semester 1 February	PHS1001 Foundation physics* <i>Recommended: ENG1090 *</i>	ENG1090 Foundation mathematics*	Science unit	Science unit
Year 1 Semester 2 July	ENG1013 Engineering smart systems	ENG1005 Engineering mathematics <i>Required: ENG1090 *</i>	Science unit	Science unit
Year 2 Semester 1 February	ENG1011 Engineering methods	ENG1014 Engineering numerical analysis <i>Required: ENG1090 *</i>	Science unit	Science unit
If two foundation units are required, you must overload to complete ENG1012 Engineering design				
If you require two foundation units, you will need to take the remaining core unit ENG1012 Engineering design in Year 2 (Semester 1) as an overload. This increases the total credit points needed for the double degree by 6 points. You cannot swap the semesters of any of the units.				

You do not have VCE Units 3 & 4 Specialist Maths >30 study score: You must enrol in Foundation mathematics (ENG1090)				
Year 1 Semester 1 February	ENG1012 Engineering design	ENG1090 Foundation mathematics*	Science unit	Science unit
Year 1 Semester 2 July	ENG1013 Engineering smart systems	ENG1005 Engineering mathematics <i>Required: ENG1090 *</i>	Science unit	Science unit
Year 2 Semester 1 February	ENG1011 Engineering methods	ENG1014 Engineering numerical analysis <i>Required: ENG1090 *</i>	Science unit	Science unit

You do not have VCE Units 3 & 4 Physics >25 study score: You must enrol in Foundation physics (PHS1001)				
Year 1 Semester 1 February	ENG1012 Engineering design	PHS1001 Foundation physics* <i>Recommended: ENG1090 *</i>	Science unit	Science unit
Year 1 Semester 2 July	ENG1011 Engineering methods	ENG1013 Engineering smart systems	Science unit	Science unit
Year 2 Semester 1 February	ENG1014 Engineering numerical analysis <i>Required: ENG1090 *</i>	ENG1005 Engineering mathematics <i>Required: ENG1090 *</i>	Science unit	Science unit

You have completed VCE Units 3 & 4 Physics >25 study score <u>and</u> VCE Units 3 and 4 Specialist Maths >30 study score: No foundation units are required				
Year 1 Semester 1 February	ENG1014 Engineering numerical analysis <i>Required: ENG1090 *</i>	ENG1005 Engineering mathematics <i>Required: ENG1090 *</i>	Science unit	Science unit
Year 1 Semester 2 July	ENG1012 Engineering design	ENG1013 Engineering smart systems	Science unit	Science unit
Year 2 Semester 1 February	ENG1011 Engineering methods	First Year engineering breadth study	Science unit	Science unit

NOTE:

- It is important that you follow the course map unit sequence, as units are designed to build on prior knowledge. Taking units out of sequence can disrupt your progression and cause delays due to semester offerings and enrolment rules.
- *Foundation units ENG1090 and PHS1001:** You enrol in the foundation units ENG1090 and/or PHS1001 if you have not completed the Australian VCE (Units 3 & 4) or equivalent Specialist mathematics and/or Physics with the [required study score](#).
- Each unit requires 12 hours of work per week. A full-time study week totals 48 hours. If you are unable to commit 48 hours of study due to external commitments, please speak with a course advisor about options to study less units per semester or take some units in the summer semester.
- For enrolment advice, please refer to the [Course advisers webpage](#).

Course progression map for 2027 commencing students

This progression map provides advice on the optimal sequencing of units and guidance on planning unit enrolment for each semester of study in conjunction with the required units outlined in the course 'Requirements' section of the [Handbook](#). Please note that the map may be updated to reflect changes to course requirements. Be sure to review it for the latest information before re-enrolling. Last updated: 3 August 2026 (*Pending finalisation – Subject to change*)

E3007 Bachelor of Engineering (Honours) and Bachelor of Science Specialisation - Aerospace Engineering

	Bachelor of Aerospace Engineering (Honours)		Bachelor of Science		
Year 1 Semester 1 February	Common First Year		Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 1 Semester 2 July			Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 2 Semester 1 February			Level 2 science major unit	SC11000 Science communication to influence change	If two foundation units are required, you must overload to complete ENG1012 Engineering design
Year 2 Semester 2 July	ENG2005 Advanced engineering mathematics	MMA2003 Thermofluids 1	Level 2 science major unit	Level 1 science elective	
Year 3 Semester 1 February	MMA2002 Solid mechanics 1	MAE3001 Aero and gas dynamics	Level 3 science major unit	Level 2 or 3 science elective	
Year 3 Semester 2 July	MMA2005 Modelling and control	MMA2004 Dynamics 1	Level 3 science major unit	Level 2 or 3 science elective	
Year 4 Semester 1 February	MMA2001 Design 1	MAE3002 Aerospace dynamics 2	Level 3 science major unit	Level 2 or 3 science elective	
Year 4 Semester 2 July	MAE3411 Aerospace structural mechanics	MAE3405 Aerospace propulsion	Level 3 science major unit	Level 2 or 3 science elective	
Year 5 Semester 1 February	ENG4701 Final year project A	Complete one Professional Practice domain unit	MAE4416 Orbital mechanics and spaceflight dynamics	MAE3401 Aerodynamics 2	ENG0001 Continuous Professional Development (0 credit points)
Year 5 Semester 2 July	ENG4702 Final year project B	MAE4410 Flight vehicle design	MMA4001 Finite element analysis	MMA3001 Numerical methods and machine learning	

NOTE:

- It is important that you follow the course map unit sequence, as units are designed to build on prior knowledge. Taking units out of sequence can disrupt your progression and cause delays due to semester offerings and enrolment rules.
- Engineering minors are not available in the Engineering double degree courses.
- You are required to complete at least 420 hours of Continuous Professional Development (CPD) in order to graduate. For further information refer to the [CPD webpage](#).
- Each unit requires 12 hours of work per week. A full-time study week totals 48 hours. If you are unable to commit 48 hours of study due to external commitments, please speak with a course advisor about options to study less units per semester or take some units in the summer semester.
- For enrolment advice, please refer to the [Course advisers webpage](#).

Course progression map for 2027 commencing students

This progression map provides advice on the optimal sequencing of units and guidance on planning unit enrolment for each semester of study in conjunction with the required units outlined in the course 'Requirements' section of the [Handbook](#). Please note that the map may be updated to reflect changes to course requirements. Be sure to review it for the latest information before re-enrolling. Last updated: 3 August 2026 (*Pending finalisation – Subject to change*)

E3007 Bachelor of Engineering (Honours) and Bachelor of Science Specialisation - Chemical Engineering

	Bachelor of Chemical Engineering (Honours)		Bachelor of Science		
Year 1 Semester 1 February	Common First Year		Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 1 Semester 2 July			Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 2 Semester 1 February			Level 2 science major unit	SCI1000 Science communication to influence change	If two foundation units are required, you must overload to complete ENG1012 Engineering design
Year 2 Semester 2 July	CHE2161 Mechanics of fluids	CHE2163 Heat and mass transfer	Level 2 science major unit	Level 1 science elective	
Year 3 Semester 1 February	CHM1011 Chemistry 1 (if not already completed at level 1) or CHM1051 Chemistry 1 Advanced	CHE2164 Thermodynamics 1	Level 3 science major unit	Level 2 or 3 science elective	
Year 3 Semester 2 July	CHE2162 Materials and energy balances	ENG2005 Advanced engineering mathematics	Level 3 science major unit	Level 2 or 3 science elective	
Year 4 Semester 1 February	CHE3161 Chemistry and chemical thermodynamics	CHE3165 Separation processes	Level 3 science major unit	Level 2 or 3 science elective	
Year 4 Semester 2 July	CHE3166 Process design	CHE3164 Reaction engineering	Level 3 science major unit	Level 2 or 3 science elective	
Year 5 Semester 1 February	ENG4701 Final year project A	CHE4162 Particle technology	Complete one Professional Practice domain unit	CHE3167 Transport phenomena and numerical methods	ENG0001 Continuous Professional Development (0 credit points)
Year 5 Semester 2 July	ENG4702 Final year project B	CHE4170 Design project		CHE3162 Process control	

NOTE:

- It is important that you follow the course map unit sequence, as units are designed to build on prior knowledge. Taking units out of sequence can disrupt your progression and cause delays due to semester offerings and enrolment rules.
- CHM1011, CHM1051, CHE2161** - If you have completed one of these units as a First Year breadth study unit, it will count towards your chemical engineering study. You must still fulfil the First Year engineering breadth study requirement by completing another breadth study unit.
- CHE4170** - You should not overload in the semester when undertaking this unit.
- Engineering minors are not available in the Engineering double degree courses.
- You are required to complete at least 420 hours of Continuous Professional Development (CPD) in order to graduate. For further information refer to the [CPD webpage](#).
- Each unit requires 12 hours of work per week. A full-time study week totals 48 hours. If you are unable to commit 48 hours of study due to external commitments, please speak with a course advisor about options to study less units per semester or take some units in the summer semester.
- For enrolment advice, please refer to the [Course advisers webpage](#).

E3007 Bachelor of Engineering (Honours) and Bachelor of Science Specialisation - Software Engineering

	Bachelor of Software Engineering (Honours)		Bachelor of Science		
Year 1 Semester 1 February	Common First Year		Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 1 Semester 2 July			Level 1 approved science major sequence 1	Level 1 approved science sequence 2	
Year 2 Semester 1 February			Level 2 science major unit	SCI1000 Science communication to influence change	If two foundation units are required, you must overload to complete ENG1012 Engineering design
Year 2 Semester 2 July	FIT2094 Databases	FIT2099 Object oriented design and implementation	Level 2 science major unit	Level 1 science elective	
Year 3 Semester 1 February	MAT1830 Discrete mathematics for computer science	FIT2173 Software security	Level 2 or 3 science elective	Level 3 science major unit	
Year 3 Semester 2 July	FIT2085 Fundamentals of algorithms for engineers	FIT2101 Software engineering process and management	FIT2100 Operating systems	Level 3 science major unit	
Year 4 Semester 1 February	FIT3197 Software quality and testing	FIT3077 Software engineering: architecture and design	Level 2 or 3 science elective	Level 3 science major unit	
Year 4 Semester 2 July	FIT3196 Computer architecture and networks	FIT3184 Cloud computing	FIT3170 Software engineering practice	Level 3 science major unit	
Year 5 Semester 1 February	FIT4002 Software engineering industry experience studio project (12 credit points)	FIT4701 Final year software engineering project A	FIT4043 Advanced topics in software engineering New unit in development	Level 2 or 3 science elective	ENG0001 Continuous Professional Development (0 credit points)
Year 5 Semester 2 July		FIT4702 Final year software engineering project B	Level 4 or 5 software engineering core elective	Level 2 or 3 science elective	

NOTE:

- It is important that you follow the course map unit sequence, as units are designed to build on prior knowledge. Taking units out of sequence can disrupt your progression and cause delays due to semester offerings and enrolment rules.
- [FIT2085](#) - If you have completed this unit as a First Year breadth study unit, it will count towards your software engineering study. You must still fulfil the First Year engineering breadth study requirement by completing another breadth study unit.
- Engineering minors are not available in the Engineering double degree courses.
- You are required to complete at least 420 hours of Continuous Professional Development (CPD) in order to graduate. For further information refer to the [CPD webpage](#).
- Each unit requires 12 hours of work per week. A full-time study week totals 48 hours. If you are unable to commit 48 hours of study due to external commitments, please speak with a course advisor about options to study less units per semester or take some units in the summer semester.
- For enrolment advice, please refer to the [Course advisers webpage](#).
