# NOTE FROM THE DEAN

**Professor Simon Wilkie**

The Monash University Faculty of Business and Economics 2026 Dean's Student Excellence Awards is one of the centrepieces of our student year.

It is a pleasure to be able to recognise the achievements of our students from right across the globe.

Ranked in the top 50 in the world, Monash University is a truly international institution.

Monash Business School proudly takes its place within it as a globally acknowledged faculty of excellence for teaching and research.

In addition to our major awards, the Future Global Leader and achievements in equity, diversity and social inclusion, this year we are delighted to feature for the first time the Outstanding First Year PhD Student Award.

**Our award** recipients are:

- Mrudula Karigowda, Future Global Leader, Postgraduate
- Nakul Prakash Goyal, Equity, Diversity and Social Inclusion Student Award
- Ika Krismantari, Outstanding First-Year PhD Student Award

You can read more about them in this program.

We also celebrate the achievements of the 2025 academic year, including the 2025 Student Course Award recipients, the Dean's Honour List, and individual Unit Awards and the Dean's Commendation List. Please look for your names!

Finally, I extend the warmest thanks to our industry partners, whose support of our student course awards is truly appreciated.

**Professor Simon Wilkie**

Dean, Faculty of Business and Economics  
Head, Monash Business School

# 2025 FUTURE GLOBAL LEADERS AWARD AND EQUITY, DIVERSITY AND SOCIAL INCLUSION AWARD

The Dean's Future Global Leaders Award recognises a student who champions sustainable businesses and practices that further economic, environmental and social community development, and who demonstrate the drive and ambition to become global leaders.

The Dean's Equity, Diversity and Social Inclusion Student Award celebrates a student who has made meaningful contributions towards fostering inclusive communities aligned with Monash Business School values.

This year, we have recognised two valued members of the Monash University Faculty of Business and Economics community.

## Nakul Prakash Goyal

Finding your footing in a new country can be challenging at the best of times.

For Nakul Prakash Goyal, it was also the backdrop to balancing a full-time degree, part-time work, and roles as a Peer Mentor, Student Ambassador, College Advisor and volunteer across numerous student associations, clubs and societies.

"Arriving in Australia was exciting and overwhelming at the same time - everything from navigating the university system to settling into daily life felt unfamiliar," Mr Goyal said.

He used those leadership positions to help first-year and international students to build confidence, connection, and a sense of belonging.

"Mentoring and student support gave me an opportunity to share what I had learned, connect with others, and contribute to a more welcoming environment," he said.

As an International Student Ambassador, he contributed to student campaigns and shared content with a global audience, highlighting the realities of international student life.

Last year, he was awarded the University's Ethical Volunteering Award and was named among Australia's Top 100 Student Leaders.

This year, he has been recognised with the **Dean's Equity, Diversity and Social Inclusion Student Award**.

## Mrudula Karigowda

Can capital help solve the climate crisis?

Monash University Faculty of Business and Economics alum Mrudula Karigowda is working to ensure it does, focusing her efforts on the critical role capital allocation plays in accelerating transition and strengthening long-term resilience.

"Climate change isn't just an environmental issue, it has real financial consequences," Ms Karigowda said.

"Finance has the ability to guide companies and individuals towards more responsible choices, simply through where money is invested and spent."

That conviction took shape during a study tour to Belgium and Germany.

"The exposure to high-level policy discussions and everyday practices really sparked my interest in sustainable finance," she said.

As Sustainability Reporting Lead and later Sustainability Manager at the Monash Student Managed Fund, Ms Karigowda developed training materials to equip students with industry-aligned ESG knowledge.

She went on to found Beyond.NetZero – an online community that aims to make responsible investing concepts accessible to a wider audience.

She also contributed to the British Council-funded Sustainability Careers: Gender Equality project, receiving the Best Engagement Award.

Ms Karigowda has been named the **2026 Future Global Leader Award (Postgraduate)** recipient.

# 2025 OUTSTANDING FIRST YEAR PHD STUDENT AWARD

The Outstanding First Year PhD Student Award was introduced by Monash Business School in 2025 to recognise the exceptional achievements and contributions of first-year PhD students across all academic units, including the Interdisciplinary PhD program.

Ika Krismantari

This year, the award has been given to Ika Krismantari, whose PhD research is investigating a question confronting democracies worldwide: can journalism survive when the business model that sustains it is under strain?

Her research draws on the example of the Indonesian media, which during 32 years under a dictatorship had little power to scrutinise the government or hold institutions accountable.

When democracy arrived in the late 1990s, a free press became central to public oversight. But Ms Krismantari warns that today, Indonesia's press freedoms are once again under threat.

Newsrooms across the country – and around the globe – are grappling with layoffs, funding volatility, and the disruptive influence of digital platforms.

In Indonesia, those financial pressures are unfolding alongside growing concern within the media sector about a potential return to authoritarianism under President Prabowo Subianto.

Ms Krismantari said media organisations are operating in an increasingly challenging environment, facing severe economic strain and mounting political constraints.

"Indonesia has lived through what happens when the press is silenced," Ms Krismantari said.

"If they can't sustain themselves, if they can't keep doing independent reporting, then our democracy becomes vulnerable. We can't afford to let history repeat itself."

A journalist for more than two decades, she is using her investigative talents to test whether independent digital news organisations can remain viable in the current economic climate.

## CELEBRATING ACADEMIC EXCELLENCE

This year, more than 1000 students have been recognised, including our top performers in undergraduate and postgraduate courses, standout achievers in individual units, and the Dean's Honours and Dean's Commendations.
