Course progression map for 2020 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the Handbook. The placement of units may be rearranged to provide flexibility in choice of electives, but care should be taken to ensure sequenced units are maintained in sequence.

**B6011 Master of Professional Accounting**
