

Course progression map for 2027 commencing students

This progression map provides advice on the optimal sequencing of units and guidance on planning unit enrolment for each semester of study in conjunction with the required units outlined in the course 'Requirements' section of the [Handbook](#). Please note that the map may be updated to reflect changes to course requirements. Be sure to review it for the latest information before re-enrolling. *Update version: 18 June 2026*

E6014 Master of Engineering Specialisation – Engineering management

YEAR 1 Semester 1	ENG5100 Professional engineer in organisation and society or Specialist elective *	ENG5200 Engineering project risk management	Specialist studies unit	Specialist studies unit
YEAR 1 Semester 2	ENG5410 Research practice in engineering	Specialist elective or ENG5100 Professional engineer in organisation and society*	Specialist studies unit	Specialist studies unit

☐ Part A. Core studies
 ☐ Part B. Specialist studies
 ☐ Part C. Specialist elective study

Part C. Engineering management specialist elective study	Part B. Engineering management specialist studies
CHE5888 Sustainability and innovation CIV5302 Traffic engineering and management CIV5305 Travel demand modelling CIV5884 Water sensitive stormwater design CIV5899 Infrastructure information management ENE5043 Quantifying sustainability in urban systems ENE5044 AI applications for civil and environmental engineers ENG5008 Industry experience** MEC5885 Energy efficiency and sustainability MON5750 Monash Innovation Guarantee – Postgraduate (MIG – P) MTE5883 Environmental durability and protection of metals and engineering materials MTE5884 Advanced photovoltaics and energy storage	You must complete four units selected freely from below. The units are grouped to help you focus on a field of management. Contemporary management MGF5020 Business ethics in a global environment MGF5130 Managing diversity and inclusion MGF5600 Managing innovation MGF5928 Strategic leadership Entrepreneurship BEX5114 Value creation and start-up capital optimisation for founders BEX5120 Startup fundamentals: From setting up to securing investment BEX5411 Creativity and entrepreneurship BEX5413 Technology and innovation for start-ups Project management ENG5220 Organising the project function ENG5221 Project as a social system MGF5901 Managing the project context MGF5903 Delivering projects

* **ENG5100:** You can take [ENG5100](#) in either Semester 1 or Semester 2. If you choose to take [ENG5100](#) in Semester 2, the enhancement unit in Semester 2 should be taken in Semester 1.

** **ENG5008** is industry experience that will give you valuable exposure to work-related activities. Please note that enrolment in the unit is subject to available placements. **If you commenced the course in the July semester intake:** If you plan to enrol in [ENG5008](#), you must take [ENG5100](#) in your first semester of study and [ENG5008](#) in your second semester of study.
